INTRODUCING

# SUNBRELLA® CONTOUR

A STUNNING REVOLUTION IN SHADE FABRICS

Sunbrella Contour is a stunning revolution in shade fabrics. A rich, textured shade fabric, Sunbrella Contour delivers the ultimate in UV protection and color uniformity, along with the long-lasting performance and undeniable style you expect from Sunbrella.

Sunbrella Contour features a unique, patent-pending construction that emphasizes its rich colors. Offering optimal light transmission, Sunbrella Contour filters light while still allowing water to pass through. Available in a 120" width and fifteen colors styled from the Sunbrella color palette, Sunbrella Contour will complement any building or space where shade is desired.

## EASY TO FABRICATE AND INSTALL

Sunbrella Contour is optimized for cutting and fabrication. And because it's more supple and less abrasive than other shade fabrics, it offers easier fabrication and installation. Creases and wrinkles that may appear during fabrication will quickly smooth out after the installation.

## RECOMMENDED USES

Sunbrella Contour is ideal for many applications where the aesthetic of a textured fabric is desired.

- Shade sails
- Fixed frame shade structures and engineered shade structures
- Windscreens
- Umbrella canopies and cabanas
- Canopies for casual furniture such as chaises, daybeds and loungers
- Marine applications such as cockpit awnings, biminis and fender covers

Sunbrella Contour is simple to keep clean. Simply wash with a solution of soapy water using a sponge, and then rinse thoroughly. For tough stains, add bleach to the solution.

LIMITED WARRANTY

Sunbrella Contour comes with a 10-year warranty. This warranty protects against the loss of color and strength due to normal usage and exposure to the elements.
