awning the Italian way

2040

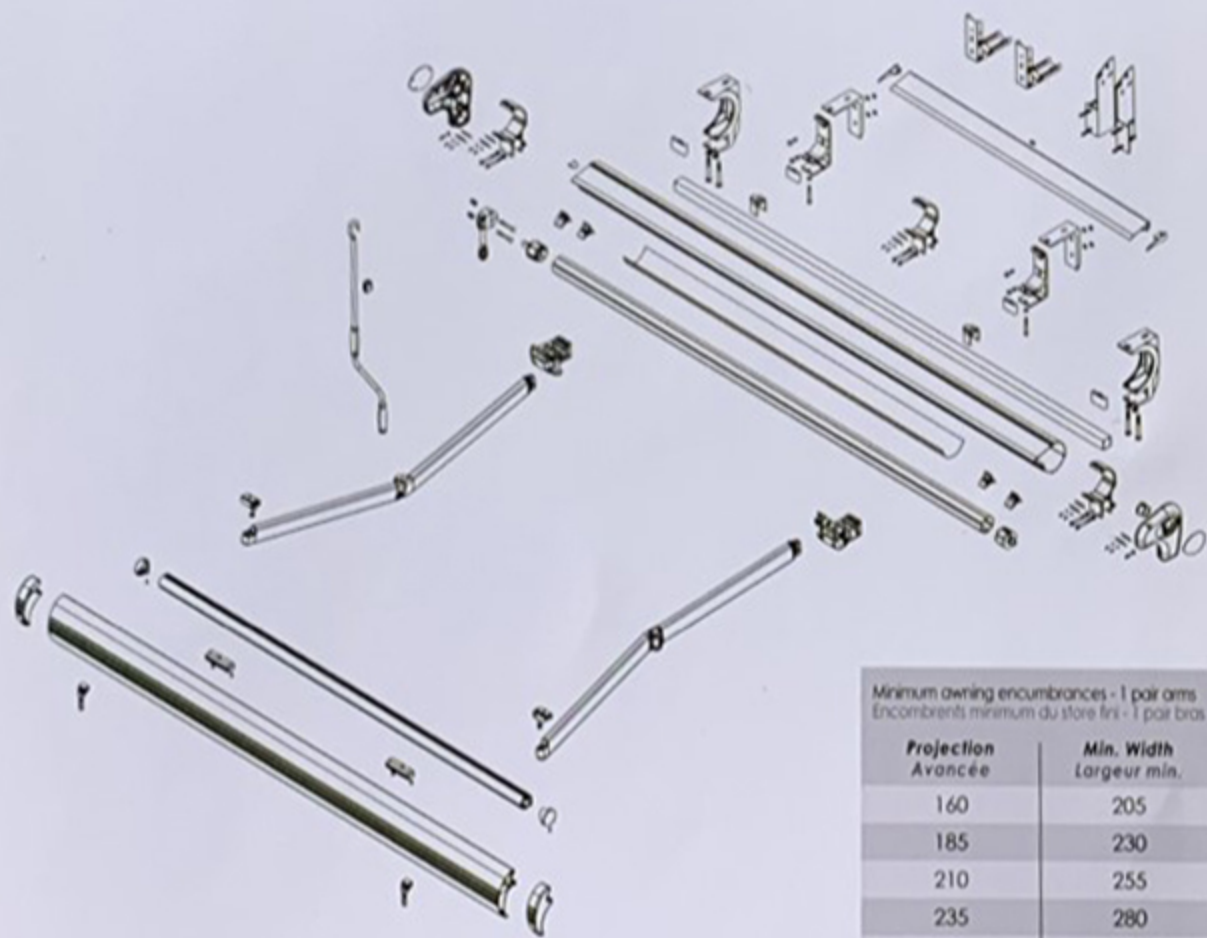

2040 is a folding arm awning on a 40x40 mm zinc plated and painted steel square bar with half cassette and double covered cables or stainless chain arms. This model includes a patented tipping system which allows to adjust the awning's inclination without acting on the cassette itself.

2040 est un store banne à bras extensibles sur barre carrée 40x40 mm en acier zingué et laquée, avec bras à double câble gainé ou chaîne inox avec demie coffre. Le support bras à basculement breveté permet le réglage de l'inclinaison du store sans modifier la position du coffre.
