SolaMesh®
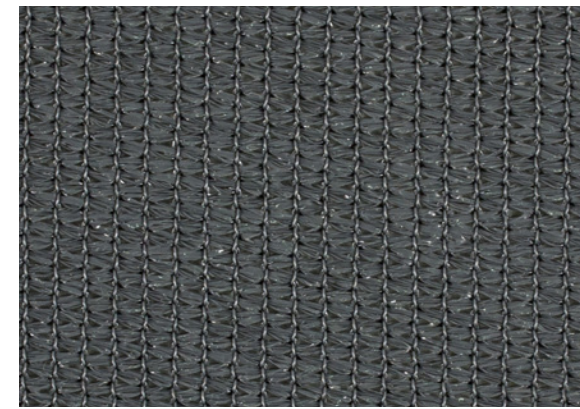

SolaMesh®

Roll Width: 118 inches • Weight: 9.5oz/yard²

SolaMesh® fabric is an industry-leading performance fabric for shade sails and tension shade structures, expanding the accessibility of many outdoor spaces despite the season or weather conditions. This innovative fabric is engineered with polymer technology and made from HDPE monofilament and tape yarns to provide optimal strength, durability and protection from UV rays. This versatile, worry-free product is backed by a 10-year warranty.
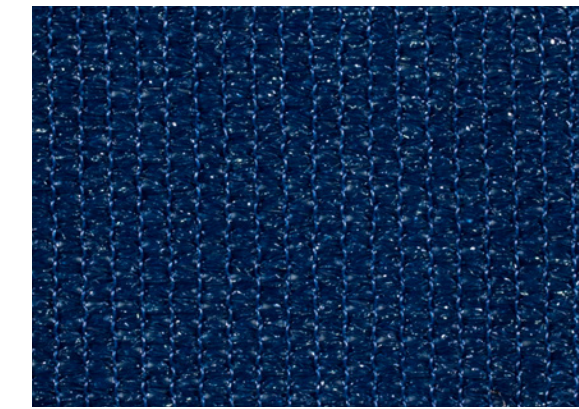

Flame retardant: ASTM E84

Colors are representative only. Small variations in shade should be anticipated and are within commercial tolerances.
