awning the Italian way

SUNPITCH

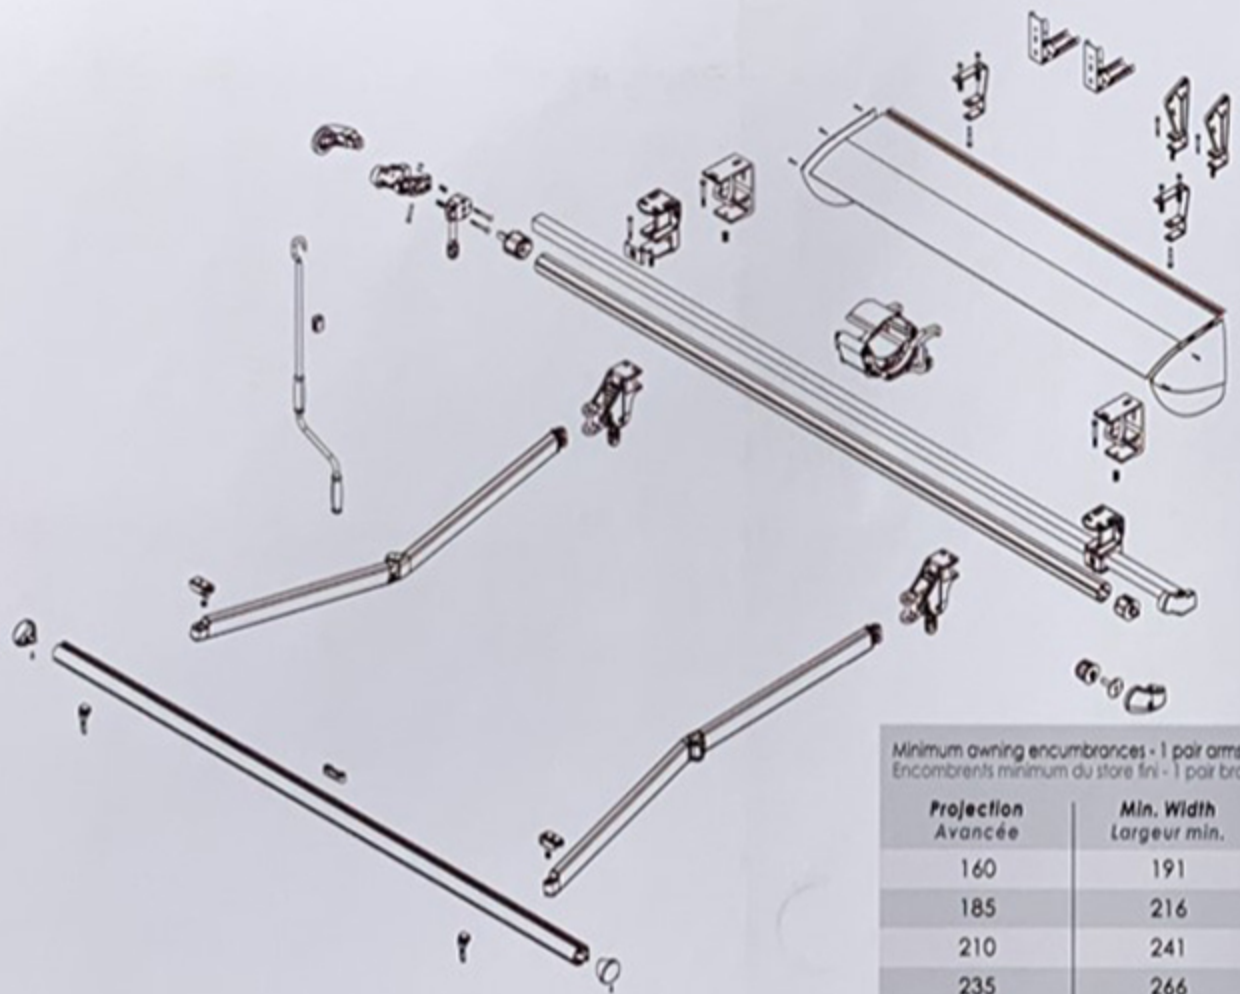

SUNPITCH is a folding arm awning on 40x40 mm galvanized and painted steel square bar with double covered cable or stainless chain arms and gear rack extruded arm support with inclination adjustment on the single arm. The awning is modular and larger sizes can be reached by adding more profiles together. The terminal bar is interchangeable with those in the BAT catalogue. A protection hood in extruded aluminium, a special bracket for under-roof mounting and a balance support are also available.

SUNPITCH est une store banne à bras extensibles montée sur barre carrée 40x40 mm zinguée et laquée, avec bras à double câbles gainés ou chaîne inox avec un support bars à crémaillère pour le réglage individuel de chaque bras. La barre de charge est interchangeable parmi celles disponibles dans le catalogue BAT. Il existe aussi un auvent de protection et un support pour la pose sous-toit.
