Sunbrella® Awning Solids 46 in.

Sunbrella makes it easy to create beautiful designs that outperform the elements. A favorite for awning use, this fabric excels outdoors. The easy-clean material offers excellent water, weather, mildew, and fade resistance. Unlike other performance textiles, Sunbrella is flexible and easy to work with. Choose from a wide selection of high-depth solid colors in Awning 46-inch Solids. Coordinate with Sunbrella upholstery fabrics for a cohesive look.

Suggested uses: retractable awnings, fixed awnings, window awnings, umbrellas, RV awnings.

Note: Sunbrella Silica fabrics are distinctly different from front to back. Either side is usable. Please be consistent in orientation.

Sunbrella® Mayfield Collection®

Offered exclusively from Trivantage®, Sunbrella Mayfield features refined patterns and colors. The awning fabric combines a premium aesthetic with the legendary performance of Sunbrella. Classic designs and wider stripes add style and elegance to any canopy. The durable fabric is water repellent, mildew resistant, and heat sealable.

To further elevate outdoor living spaces, Mayfield coordinates with Sunbrella upholstery fabrics. This includes Sunbrella Fusion (also exclusive from Trivantage).

Suggested uses: retractable awnings, fixed awnings, window awnings, umbrellas, RV awnings.

Sunbrella® SeaMark®

Sunbrella SeaMark is a premium, exterior-grade awning fabric. The shade fabric stands out from the rest by uniquely bonding Sunbrella acrylic fabric to a color-matched, marine-grade PVC beneath. The top features a durable, fluorocarbon finish while the back is embossed with a textured, burbank-grain (fabric look) coat. Both sides are waterproof and mildew resistant for complete protection.

Suggested uses: fixed awnings, canopies, automotive covers, and equipment covers.

Fabric	100% Sunbrella® Acrylic Bonded to Vinyl
Finish	Top: Fluorocarbon Finish. Back: Textured Marine Grade Vinyl for Waterproof Finish.
Warranty	5-Year

SGS Thermal Digital Print Film

SGS Thermal Digital Print Film is a flexible, urethane film which can be digitally printed and applied to Sunbrella® or other Glen Raven fabrics. For use with the Sunbrella Graphics System, it produces high-quality, durable graphics. The adhesive is thermal activated, dry to the touch at low temperatures, and will remain dry to the touch once cooled. The film can reduce the application time by 75% when compared to other pressure-sensitive films. It can also be used unprinted for white lettering or graphics where printing is not required. SGS Thermal Digital Print Film is suitable for use in most solvent, eco-solvent, and UV printers.

Sold in full rolls only.

Suggested uses: awnings, banners, umbrellas, covers.

Warranty	5-Year (vertical) / 3-Year (non-vertical)

Firesist®

Specifically designed for the commercial awning, canopy and shade markets, FIRESIST delivers a state-of-the-art combination of flame retardant performance and UV resistance.

FIRESIST fabric is woven from high UV and fade resistant solution dyed fiber with a proprietary coating and finish that results in superior weather, stain, mildew and flame resistance.

Extremely strong and tear resistant, FIRESIST is engineered for ease of fabrication, and features a lighter weight. FIRESIST's deep, rich colors deliver long lasting good looks and are color transfer resistant.

Suggested uses: commercial awnings and canopies.

Patio 500®

Patio 500 has exceptional resistance to mildew and UV rays making this waterproof fabric the perfect choice for awnings, canopies and commercial installations in sunny, high humidity areas. Made with wick and craze resistant polyester weft-inserted warp knit scrim, Patio 500 has a matte, linen-like finish that combines long-lasting good looks with exceptional dimensional stability and superior strength. It accepts graphics including heat-sealed and inset fabrics, silk screening, hand painting, appliqué and more. Pressure sensitive adhesive vinyl graphics are not recommended. Suggested uses: awnings, canopies.

Saint Clair LAC 650 SL

Saint Clair LAC 650 SL fabrics are made from PVC coated polyester and look great even after long-term use because they are protected by the Lowick System, which blocks moisture penetration and resists UV degradation, mildew, discoloration and soiling.

The fabric also features the Cleangard® finish. This smooth lacquer topcoat offers protection against weathering. LAC 650 SL is easily welded and is REACH compliant.

118-inch version sold in full rolls only.

Suggested uses: tents, awnings and structures where a stronger, heavier fabric is desired.

Weather-Chek®

Weather-Chek is an architectural textile composite that features the textured look of a woven with the performance attributes and benefits of commercial grade engineered thermoplastic. Its unique hybrid construction delivers exceptional tear and tensile strength blended with flexibility and softness. Its manufactured with a special proprietary PVC film formulation that resists scratching and eliminates installation related damage. Weather-Chek is top coated with Herculite's Rain Kleen®, a proprietary top coating system that helps prolong fabric life and preserve color intensity.

Easy to work with and handle, the fabric can be assembled using standard welding processes. Made in the USA.

Suggested uses: awnings, canopies, poolside structures, car shelters, patio covers, walkway coverings, privacy screens, curtains, drapes.

Main Street® +

Main Street + is ideal for awnings and canopies because it won't stretch, leak or fade even after years of exposure. This versatile fabric features a smooth surface for even greater looks and resistance to dirt build-up. It offers superior strength and resistance to water, mildew, ultraviolet rays and abrasion for many applications, indoors and out. Main Street + is easy to fabricate without puckering or fraying. It readily accepts graphics including sewn-in inset fabrics, screen-printing and hand painting.

Fabric	Polyester
Finish	Acrylic Coated Both Sides
FR Standards Met	California State Fire Marshal; NFPA 701, Test Method 2; ASTM E84
Warranty	5-Year

Starfire®

A tough and long-lasting, yet soft and flexible fabric, Starfire can be used for a variety of applications including awnings, banners and tents. Finished with an acrylic topcoat, Starfire is easy to clean and resists fading, rotting and structural weakening from prolonged exposure to the sun and other damaging elements. This fabric is easy to handle and install. Starfire is often specified where a cloth-like appearance is desired.

Since Starfire is a blended fabric that includes cotton, the fabric may attract dust and dirt, which allows for the growth of mold and mildew. This is a natural outcome, especially in hot, humid, dusty, and wet climates. The fabric includes a top coat. The coated side should be installed facing out or the warranty will be voided. To verify which side is coated, look for the slightly shiny side where water beads off more easily (the shine may be harder to distinguish on the light colors). Starfire’s coating is susceptible to crazing when folded. Please see the written limited warranty for what is covered and the technical data sheet for more details.

Fabric	45% Polyester/55% Cotton
Finish	Pigmented and Acrylic Top coated

Cooley-Brite® Lite

Flexible, yet durable, Cooley-Brite Lite is a lightweight, vinyl coated polyester fabric that features excellent translucency in any back-lit sign or awning application. This line of white and eradicable colored substrates is easy to handle and simple to install. Cooley-Brite Lite suits a wide range of graphic applications, including screen printing, pressure-sensitive graphics, and spray painting with acrylic-based paint. Its advanced scrim design enhances graphic effects to provide superior quality and luminescent colors. A more resilient ink surface helps prevent fabric bruising.

Some items sold in full rolls only. Some items are drop ship only.

Eradicating Fluid

This eradicating solution works instantly to remove colored ink from back-lit fabrics like Eradi-Lite®. The process creates brilliant white graphics on a solid color background. To facilitate design, computer-generated graphics can be used.

The solution’s gentle formula will not harm the substrate or underlying scrim. It is easy to apply, easy to work with, and cleanup is simple. The graphics stay bold because the fluid resists fading and yellowing. It pairs with many decorating techniques, giving you unlimited design possibilities.

PrintCraft™

Discover PrintCraft, an all-new print system technology that delivers unlimited shade fabric customization, backed by a 5-year limited warranty from Glen Raven. With as little as five yards, fabricators can provide full fabric customization on multiple width options through a single source. Whether creating an elaborate work of art or something more simplistic, this new technology can bring commercial shade visions to life. To learn more about this amazing new service, contact your Customer Care Team or download the order form online at Trivantage.com/printcraft today. Exclusively distributed by Trivantage®.

UNLIMITED SHADE FABRIC CUSTOMIZATION

- Custom, photo-quality designs
- Available in 59" and 77" widths
- Tested and proven fire resistance after printing, meeting NFPA 701:2019 (TM 1 and TM 2), and California Title 19 standards
- UV & Fade Resistant
- Mold & Mildew Resistant
- Easy-to-Clean
- 3-week Lead Time
- Single Source Availability
- Low 5-Yard Minimum Order Quantity
- Fabrication with Traditional Techniques
- Backed by 5-Year Limited Warranty by Glen Raven

AWNING COMPOSER®

A simple way to bring your vision to life

Instead of describing your customer's awning, **show them**. Take a picture of your customer's home or storefront then choose from over 40 dynamic objects, including corners. Once you've built your scene, add visual options to your awning; select fabric, a valance, text or graphics.

Let your customer see how an awning will impact their home or workplace by using our real-time shade simulation. Use their building location, time of year and direction to pin point exactly where their shade will be cast.

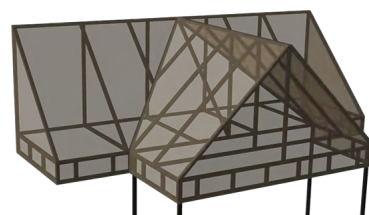

Awning Composer version 5 is built from the ground up, incorporating ideas and feedback from hundreds of fabrications.

To learn more about what Awning Composer can do for you and to try the full version of the software for 15 days, visit awningcomposer.com

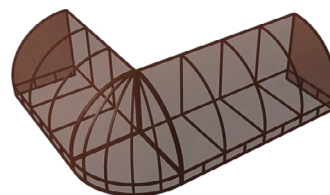

Additional Features

- Customize the shade structure or awning with different fabric patterns, valance styles, graphics and text.
- Scale backdrops using a known measurement from the building such as the height of a door.
- Dynamically generate entire 3D models, including both fabric and frame components.
- Take standard awning styles and make adjustments to the frame quickly.
- Create cutlists that can be color coded and numbered to match the frame.
- Quickly generate estimates for materials needed, materials cost, labor needed, and labor costs.
- Create custom multi-page printouts. Create layouts for sales visuals, production, estimation, and quoting.

Dynamic Objects

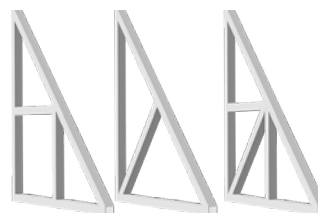

Start with standard combination style awnings and quickly customize spacing and add poles.

Easily create inside and outside corner awnings by adding awning segments together.

Set your preferences for master bars by using a drop down box to select master bar by location.

Add trussing by using a drop down box to select the type of truss needed.

Before & After

Estimation Add-on
(Sold Separately)

Awning Composer's Estimation add-on brings new functionality to Awning Composer by adding the ability to estimate the amount of materials, labor time, cost of production, and retail price. Working directly with your live rendering, estimation results are updated continuously as you build and customize awnings in the 3D view.

Estimation Features:

- Extensive estimation support for 20+ dynamic awning styles plus associated corners
- An instant default quote layout
- Ability to quote more than one dynamic object in the same scene
- New printing features including the ability to build multi-page layouts

Sunbrella® Fusion Collection

Experience the Sunbrella® Fusion Collection, your smart solution for fashionable fabrics with exceptional performance. Available exclusively through Trivantage®, the Sunbrella Fusion Collection is a mix of beauty and durability. The stylish upholstery fabrics come in a wide range of color and pattern options, giving your customers the ability to pick from both timeless and modern styles and curate their own, personal aesthetic.

But these fabrics are way more than simply stylish. They provide comfort and strength as well. Made for outdoor or indoor furniture, Sunbrella Fusion is great for patio furniture, sofas, pillows cushions, slip covers, curtains, drapes, and more. These durable fabrics are made of 100% Sunbrella Acrylic, which means they stand strong against water, staining, mildew, and color loss. Built for continued use, they resist pilling and tearing, and many varieties are well suited for high-traffic areas.

All Sunbrella upholstery fabrics are sold by the yard and are backed by a 5-year warranty. To learn more about the latest fabrics available in the Fusion Collection, contact call your sales rep at 800.786.1876 or visit us online at [Trivantage.com/fusion](https://www.trivantage.com/fusion).

Sunbrella® Brush Fringe

Brush fringe is constructed from Sunbrella acrylic yarns. Can be used for throw pillows, decorative umbrella trimming or marine applications. Colors and blends are specifically selected to complement our Fusion Collection as well as other Sunbrella upholstery collections.

3 yard minimum for cut yardage.

Sunbrella® Retweed

The Retweed collection is a sustainable line of performance fabrics from Sunbrella® Richard Frinier collection, containing up to 93% recycled content. Mid-century modern and vintage tweed-inspired, Retweed gives the textural appearance of hand-loomed textiles where no two rolls are alike. The flecks along with natural color variations are inherent to the recycling and manufacturing processes, providing artful and meaningful references to the importance of sustainable living practices.

Suggested uses: indoor and outdoor furniture, decorative pillows, slipcovers, cushions, and curtains.

Fabric	Sunbrella® Recycled Acrylic, Sunbrella® Acrylic, Sunbrella® Polyester
Finish	Non-PFOA Water Repellent and Stain Resistant
FR Standards Met	California Technical Bulletin #117, Class: 1 normal; NFPA 260:2013, Class: 1 cover fabric; UFAC Upholstered Furniture, Class 1
Warranty	5-Year

Sunbrella® Transcend

The Sunbrella Transcend Collection goes beyond traditional design boundaries. These designer upholstery fabrics come in beautiful patterns, all with the power to stand up to high-traffic areas. Great for targeting the demanding contract market, the fabrics are perfect for the hospitality industry.

Sunbrella Transcend fabrics are made of solution-dyed acrylic. They are fade resistant, water repellent, and mildew resistant while also offering a soft hand. In a range of solids, stripes, and jacquards, the design options are endless. Match colors with drapery, umbrellas, awnings, furniture and more for decor that suits any aesthetic. The fabric delivers premium style with easy, bleach-cleanable care. Sunbrella Transcend meets ACT Standards and CA Prop 65 requirements. It is GREENGUARD® certified, AZO dye free, lead free, REACH compliant, and recyclable.

Suggested uses: indoor and outdoor furniture, curtains and drapes, throw pillows, chairs and cushions.

Sunbrella® Rain

Sunbrella Rain upholstery fabrics are 100% waterproof for carefree weather protection. In addition to the standard Sunbrella benefits, they also offer rapid drying. The designer fabric is developed to withstand heavy rainfall.

To ensure that it remains waterproof, Sunbrella Rain should be properly fabricated to allow for ventilation. Aqua-Seal™ thread and pre-wound bobbins are recommended to stitch Sunbrella Rain as Aqua-Seal thread swells up to fill the needle holes as the fabric is stitched. Do not machine wash.

Suggested uses: outdoor seating, cushions, outdoor furniture.

Fabric	100% Sunbrella® Acrylic
Finish	Face: Non-PFOA Water Repellent and Stain Resistant. Back: Polyurethane

Sunbrella® Shadow

Discover fabrics that filter light while adding style and privacy to indoor and outdoor areas. Designed for use in umbrellas, privacy screens and architectural embellishments on gazebos and other outdoor structures, Sunbrella Shadow filters and diffuses light and adds privacy or decorative embellishments without completely blocking the sun.

Sunbrella Shadow features a mock-leno weave in which space is locked into the fabric, limiting the amount of sun blocked. It also allows water to pass through for fast drying and prevents weight gain from water retention that can damage architectural structures.

Offered in a variety of colors, Sunbrella Shadow coordinates with many popular Sunbrella awning and furniture fabric colors.

Fabric	100% Sunbrella® Acrylic

Sunbrella® Sling

Sunbrella Sling is a patented performance fabric that combines the exceptional strength of vinyl yarns with the softness of Sunbrella. These extremely durable outdoor fabrics are primarily used in sling chair applications. Sunbrella Sling is fade and stain resistant, and provides a sleek designer look and effortless maintenance.

Suggested uses: sling furniture.

Phifertertex® Plus

Phifertertex Plus carries a heavier weight and denser fabric count for heavy-duty projects. The fabric offers reliable protection and comfort. It resists ripping, sagging, and fading.

Phifer's patented Microban® technology supplies an added layer of protection. The antimicrobial solution inhibits the growth of stain and odor-causing bacteria, mold, and mildew for lasting cleanliness.

This product is GREENGUARD® certified and made in the USA.

Suggested uses: sling chairs and other outdoor furniture, umbrellas, roller shades and other sun screens, pergola, canopies.

Phifertex® Stripes

Featuring a classic stripe design, Phifertex Stripes fabrics are 100% PVC. They combine durable polyester with a protective vinyl coating for reliable defense against harsh climates. The material also resists fading and tearing for lasting utility.

The key benefits of Phifertex fabrics come from their integrated Microban® antimicrobial protection. The solution fights stain and odor-causing bacteria, mold, and mildew.

This product is GREENGUARD® certified to meet strict environmental standards. Made in the USA.

Some items sold in full rolls only. Some items are drop ship only.

Suggested uses: sling chairs and other sling outdoor furniture.

Phifertex® Resort Collection

Create a stylish resort look anywhere with the Phifertex Resort Collection. These bright, colorful sling fabrics come in solid and striped designs. The fabric is made from vinyl-encapsulated polyester for lasting durability. This sling upholstery fabric offers reliable defense against UV rays. The Phifertex Resort Collection brings durable performance. It resists tearing, fading, and sagging.

Phifertex mesh sling fabrics feature Microban® antimicrobial protection. Microban prevents stains, odors, bacteria, mold, and mildew. It can be cleaned easily with soap or diluted bleach. This product is GREENGUARD® certified and meets strict environmental standards.

Suggested uses: sling chairs, patio furniture.

Phifertex® Cane Wicker Collection

Phifertex Cane Wicker gives the appearance of wicker furniture without the drawbacks of wood. While genuine wood-woven furniture can fracture and weaken over time, Cane Wicker offers a smooth, durable surface. It provides an elastic, fade-resistant chair or covering.

Part of what makes Phifertex so popular is their Microban® antimicrobial protection. The technology gives a lasting level of cleanliness that won't wash or wear away for the lifespan of the fabric. It prevents the growth of bacteria, mold, mildew, stains, and odor.

This product is GREENGUARD® certified for low chemical emissions. Made in the USA.

Some items sold in full rolls only. Some items are drop ship only.

Suggested uses: sling chairs and other sling outdoor furniture.

Phifertex® Jacquards

Featuring decorative patterns, Phifertex Jacquards supply a high-end touch. They combine durable polyester with a protective vinyl coating for effective defense against wear and weather. The material also resists ripping and fading for long-term utility.

The main features of Phifertex mesh sling fabrics result from their built-in Microban® antimicrobial protection. It inhibits stain and odor-causing bacteria, mold, and mildew.

This product line is GREENGUARD® certified and made in the USA.

Some items are drop ship only.

Suggested uses: sling chairs and other sling outdoor furniture.

Phifertex® Olefin/PVC Blends

This blended upholstery fabric combines the strength of vinyl-encapsulated polyester with the softness of olefin. With a suite of features, the fabric endures weather and repeated use. Choose from a range of modern designs.

Armed with Microban® antimicrobial protection, the material resists mold, mildew, bacteria, stains, and odors. It also defends against fading and tearing for lasting quality.

This product is made in the USA and GREENGUARD® certified.

Some items sold in full rolls only. Some items are drop ship only.

Suggested uses: outdoor furniture, cushions, sling chairs.

Sunsure®

Textilene® Sunsure is a specially formulated high strength fabric built to withstand fading, mildew, soiling, and wear and tear. Sunsure has up to a 92% shade factor making it the right choice for several outdoor applications. It is specially designed to remain vibrant and colorful for years even through continuous outdoor exposure and under the most severe weather conditions. Made with Twitchell's highly popular and world-renowned Textilene fabric, Sunsure is extruded with antimicrobial agents and is easy to clean.

Suggested uses: Outdoor furniture/slings, awning, canvas, shade sails, umbrellas, and exterior shades.

Aura Retreat

Aura Retreat fabrics are ideal for upholstery projects of any size. This luxury upholstery fabric line is equipped with resilient performance features.

Made from a polyester substrate with a phthalate-free PVC coating, this vinyl upholstery fabric resists fading, stains, cold crack, bleach, and mildew. The durable material is abrasion resistant and features a high tear strength and breaking strength. It is anti-bacterial and easy to clean. Aura Retreat is phthalate free, lead free, and BPA free for a reduced environmental impact. The fabric is IMO certified with a seam strength of 44 pounds or higher.

Suggested uses: indoor/outdoor furniture fabric for chairs, sofas, patio furniture, cushions.

BellBloc® 100 Fabric Liner

BellBloc 100 is a specially designed PET (polyester) woven fabric liner system that features a soft touch. The water-repellent fabric shields the foam insert from external elements. The cushion liner acts as a barrier against mold, mildew, oil, and stains. It offers 25-40% improved moisture repellency over the industry standard.

Breathable and lightweight, the liner features low strength loss to UV rays and heat. Uniquely engineered to reduce foam compression loss, BellBloc extends the longevity of the fabricated piece. This makes it great for pillows, furniture, cushions, and seat backs for outdoor, commercial, and residential markets. It can be sewn or attached using sonic bonding. It also works well for patterning.

Suitable with woven or vinyl material.

BellBloc® 68 Fabric Liner

BellBloc 68 is an advanced PET (polyester) non-woven fabric liner system. The hydrophobic fabric protects the foam insert from exterior contaminants. The water-repellent cushion liner acts as a barrier against oil, stains, mold, and mildew. It offers 25-40% improved moisture repellency over industry competitors.

Lightweight and breathable, it features minimal strength loss to heat and UV rays. Specially developed to reduce the loss of foam compression, it extends the life of the fabricated piece. This makes BellBloc ideal for cushions, seat backs, furniture, and pillows for outdoor, commercial, and residential markets. The liner can be sewn or attached with sonic bonding. It also works well for patterning.

Suitable with vinyl or woven material.

Sunbrella® Marine Solids 46 in.

A popular choice for marine use, this fabric is built for the outdoors. The easycare material provides excellent weather, water, fade, and mildew resistance. Unlike other performance fibers, Sunbrella is flexible and easy to handle. Choose from a wide range of vivid solid colors in Marine 46-inch Solids. Pair with Sunbrella upholstery fabrics for a unified look. Sunbrella makes it easy to craft beautiful designs that stand up to the elements.

Suggested uses: boat covers, bimini covers, enclosures, marine canvas, sail covers.

Note: Sunbrella Silica fabrics are distinctly different from front to back. Either side is usable. Please be consistent in orientation.

Sunbrella® Marine Solids 60 in.

Popular in marine applications, this fabric is built for the outdoors. The easymaintenance material fights fading, weather, water, and mildew. Unlike other technical fabrics, Sunbrella is flexible and easy to handle. Select from a wide variety of bold solid colors in Marine 60-inch Solids. Coordinate with Sunbrella upholstery fabrics for a sleek look. Sunbrella makes it easy to create beautiful designs that outperform the elements.

Suggested uses: boat covers, bimini covers, enclosures, marine canvas, sail covers.

Note: Sunbrella Silica fabrics are distinctly different from front to back. Either side is usable. Please be consistent in orientation.

Sunbrella® Marine Solids 80 in.

A popular pick for marine use, this fabric is developed for the outdoors. The easy-care material combats weather, fading, water, and mildew. Unlike other performance fabrics, Sunbrella is flexible and easy to work with. Choose from a wide assortment of high-depth solid colors in Marine 80-inch Solids. The wider width makes it ideal for larger projects. Pair with Sunbrella upholstery fabrics for a streamlined look. Sunbrella makes it easy to craft stunning designs that outlast the elements.

Suggested uses: boat covers, bimini covers, enclosures, marine canvas, sail covers.

Fabric	100% Sunbrella® Acrylic
Finish	Water Repellent
Warranty	10-Year

Sunbrella® SeaMark®

Sunbrella SeaMark is a premium, exterior-grade marine fabric. The shade fabric stands out from the rest by uniquely bonding Sunbrella acrylic fabric to a color-matched, marine-grade PVC beneath. The top features a durable, fluorocarbon finish while the back is embossed with a textured, burbank-grain (fabric look) coat. Both sides are waterproof and mildew resistant for complete protection

Suggested uses: boat tops, cockpit enclosures, biminis, dodgers, T-tops, and boat covers

Fabric	100% Sunbrella® Acrylic Bonded to Vinyl
Finish	Top: Fluorocarbon Finish. Back: Textured Marine Grade Vinyl for Waterproof Finish.
Warranty	5-Year

Hydrofend®

Hydrofend outperforms uncoated fabrics with up to six times greater water repellency while still maintaining breathability. The marine fabric is made from solution-dyed polyester for outdoor performance and color retention. Equipped to handle demanding applications, Hydrofend features a high tear strength, break strength, and double rub count. The proprietary solvent coating on the back of the boat fabric blocks moisture, protects surfaces from abrasion, and prevents fraying. The face of the marine fabric features an attractive matte, woven look.

Hydrofend coated fabric is resistant to cold crack and does not accumulate mold or mildew. This allows powerful, lasting protection in any climate. Lightweight and functional, the water-repellent boat cover fabric is bleach cleanable. It packs, stores, and tows easily without damage. Made in the USA.

Suggested uses: boat covers, bimini tops and other boat tops, boat enclosures, storage covers, or furniture covers.

Aqualon® Edge

Aqualon Edge is an exclusive product from Trivantage®, featuring Perfecta Marine® technology. Aqualon Edge with Perfecta Marine technology provides superior heat reduction and heat reflection, and exceptional UV performance. Featuring innovative technology and these enhanced benefits, Trivantage offers an industry leading 7-year warranty for this hybrid coated fabric.

Because Aqualon Edge is not a breathable fabric, the use of vents when fabricating mooring covers is recommended. This fabric is non-flame retardant, and should not be exposed to direct flame or extreme heat.

Suggested uses: marine tops, cockpit covers, enclosures, biminis, and boat covers.

Aqualon® Edge Soft

Aqualon® Edge Soft is an exclusive hybrid performance fabric from Trivantage®, combining the performance of Aqualon Edge with the protection of a soft warp knit backing. It features a front fabric coated with Perfecta Marine® technology that creates superior heat reduction, heat reflection and exceptional UV performance. The backing, made of warp knit polyester fabric, provides an abrasion-resistant surface that's safe to use against sensitive gelcoats, critical painted surfaces and delicate objects. This fabric is non-flame retardant, and should not be exposed to direct flame or extreme heat.

Suggested uses: covers for antique boats, patio furniture, grill covers, RV windshields, airplane covers and others.

HarborTime® Edge

HarborTime Edge is an exclusive product from Trivantage® featuring Perfecta Marine® technology, providing superior heat reduction, heat reflection, and exceptional UV performance. This highly water repellent, mildew and UV resistant fabric offers superior strength and long-lasting color. Stabilized for minimum stretch or shrinkage will ensure continuous fit throughout application. Offered with an industry leading 7-year warranty.

Because HarborTime is not a breathable fabric, the use of vents when fabricating mooring covers is recommended. This fabric is non-flame retardant, and should not be exposed to direct flame or extreme heat.

Suggested uses: marine tops, cockpit covers, enclosures, biminis, and boat covers.

Sea-Spraé®

Economical and super lightweight, Sea-Spraé is the perfect choice for lightweight bimini tops and other marine craft covers. The fabric resists water, dirt and UV rays, and is stabilized for minimum stretch and shrinkage. This durable fabric is flexible and easy to fabricate, and has excellent tear and tensile strength. Sea-Spraé features proprietary back coating to prevent color transfer, however, a clear vinyl patch should be sewn at contact points when total protection against rub-off is desired.

Suggested uses: bimini tops and other marine craft covers.

Fabric	Acrylic Coated Polyester

Sur Last®

Sur Last can be used for many applications that require UV protection, including boat covers, bimini tops, boat storage covers, furniture covers, tonneau covers, luggage, and camping enclosures just to name a few. Sur Last is a very colorfast protective material, and because it is solution- dyed, the colors will not fade or wash out. Sur Last stands up to wind, rain, pollutants and chemicals that will make other fabrics fade. It has high UV, mold and mildew resistance, excellent tear and abrasion resistance, and is non-abrasive to gelcoat and other popular marine finishes. Sur Last also features outstanding silk screen adhesion.

Suggested uses: boat covers, boat tops, boat enclosures and storage covers.

Weblon® Regatta® Yacht Fabric

For all pleasure craft, power or sail, Weblon Regatta Yacht Fabric with Rain Kleen® finish provides the best answer for fabric accessories. Regatta Yacht Fabric is designed specifically for the rigorous topside exposure with a waterproof, lasting strength, and lightweight design. Made to endure, it is mildew, age, stain, fade, and abrasion resistant. Enjoy the water even on a sunny day with white tops that reflect heat and pastel linings which relieve glare. Regatta provides dimensional stability with a lamination of two plies of specially formulated vinyl with an inner, reinforcing core fabric woven from high strength polyester. Regatta's exclusive Rain Kleen finish on the weather side provides ease of cleaning, prolongs the life of the fabric, and adds to the pleasing appearance of the surface.

Weight varies slightly from color to color. Weight and roll size nominal. These values are subject to slight variations and are not intended to be used as specifications.

Suggested uses: boom awnings, bimini, curtains, dodgers, enclosures, mooring, and protective covers. Not for trailering covers.

Serge Ferrari Stamoid® Smart 1

Stamoid Smart 1 is Serge Ferrari's lightest and most compact boat fabric. An extension of their existing Stamoid marine fabric offerings, Stamoid Smart 1 offers the best boat protection on the market. This waterproof boat cover fabric is highly resistant to severe weather conditions. It provides total protection from UVB rays and resists pollution, mold, and oils. Durable and colorfast, Stamoid Smart 1 offers excellent tear and abrasion resistance. The lightweight cover fabric is 60% more compact than standard protective covers, saving on storage space and making it easier to install. Made from high-tenacity polyester with a silicone coating, Stamoid Smart 1 is easy to clean. Prop 65 compliant.

Suggested uses: equipment and boat protection like boat covers, dinghy covers, rigging covers, console covers, seat and bar covers, sail bags, winter covers, console covers.

Serge Ferrari Stamoid® Top 80 in.

Stamoid Top 80" is a mid-weight, polyester marine fabric that features vinyl coating on both sides. It offers a wider width for medium-sized projects. The fabric protects crew from sea spray, wind, and bad weather. It also filters 100% of UV light.

Built-in dimensional stability provides long-lasting durability for any-sized boat. Stamoid Top is colorfast, mildew resistant, and waterproof. It maintains its flexibility in temperature extremes from the hot tropics to near-zero temperatures. Stamoid's vinyl coating assures dirt resistance and easy cleaning.

Suggested uses: bimini tops, dodgers, enclosures, boat awnings, sprayhoods, cockpit enclosures.

Fabric	High-Tenacity Polyester
Finish	Vinyl Coated Both Sides
Warranty	5-Year

Sunbrella® Horizon®

Sunbrella Horizon brings to marine upholstery the legendary performance you trust from Sunbrella. It is the first Sunbrella marine upholstery fabric made from engineered synthetic leather. The material is smooth, water-repellent, and offers impressive resistance to pink staining. It features a proprietary protective top coat providing easy cleanability. The durable fabric stands up to abrasion, cold crack, and salt residue. The four-way stretch material is incredibly elastic, preventing misshaping and puddling. It stays in excellent condition, even after continued use. Additionally, the Sunbrella Horizon Collection includes a 3-year warranty against microbial pink staining and a 5-year warranty against the loss of color or strength. Coordinate colors with other Sunbrella marine fabrics for easy design. GREENGUARD® certified.

Suggested uses: interior and exterior boat seating.

Sunbrella® Horizon® – Foam Back

This marine foam back fabric is made with high-quality Sunbrella Horizon marine upholstery fabric. It features a 1/4-inch polyether urethane foam that is flame-laminated to the back and stabilized to minimize the drying and hardening prevalent in other foam products. Developed for marine environments, the foam-backed marine vinyl fabric is made from a unique engineered synthetic leather and a proprietary topcoat. The foam back fabric is smooth and easy to clean and provides superior resistance to abrasion, water, mildew, pink staining, salt residue, and cold crack. The durable, four-way stretch material is elastic to minimize puddling and misshaping. Plus, Sunbrella Horizon comes protected with a 5-Year strength and color loss warranty and a 3-Year microbial pinking warranty.

Suggested uses: interior boat seating and exterior boat upholstery.

Nassimi Sequest Foam Back Vinyl Upholstery

This marine foam back fabric is made from high-quality Nassimi Sequest fabric. Made of poly rayon with an embossed PVC outer surface, the boat upholstery fabric defends against water, mildew, UV rays, abrasion, and stains. It features a 1/4-inch polyether urethane foam that is flame-laminated to the backside and stabilized to minimize the hardening and drying common in other foams. It is sturdy, marine grade, and easy to clean.

High-quality adhesives should be used with the foam back fabric. Care must be taken to avoid pooling of adhesive on the foam back fabric or the surface the fabric to which it is to be secured.

Suggested uses: marine upholstery applications.

Nautolex® Capitano™ Marine Vinyl Upholstery

Capitano is formulated with quality pigments and additives to resist fading, bacteria and mildew growth. The colors selected for Capitano coordinate with all of today's interior carpeting, exterior gel systems, graphics and interior trim components. The sturdy, expanded construction utilizes a heavy-duty, 100% polyester filament backing that has superior strength and great stretch and set qualities. It is perfect for today's seat designs, which involve tailoring around tight corners. It has a durable skin layer, which is resistant to picking and abrasion and cleans easily.

Fabric	Cotton Twill, 65% Polyester/35% Cotton, Napped One Side

Nautolex® Capitano™ Foam Back

This fabric is produced from top-quality upholstery fabric with a 1/4 in. polyether urethane foam that is flame laminated to the backside and stabilized to minimize the hardening and drying that is common in other foams. It also has an antimicrobial treatment to prevent the growth of mold and mildew. As a result, this headliner fabric will stand up to the high temperatures and moist conditions of harsh marine environments.

High quality adhesives should be used with the headliner fabric and care must be taken to avoid pooling of adhesive on the headliner fabric or the surface the fabric is to be secured to.

Fabric	Vinyl, flame-laminated with 1/4-in. polyether urethane foam

Canvex®

A translucent, reinforced plastic sheeting manufactured by weaving high-density polyethylene ribbons and coating them with a low-density polyethylene. This special weaving process produces a highly tear-resistant film that allows the ribbons to shift and “bunch up” in response to a tearing force. Canvex is commonly used for applications requiring exceptional tear resistance and minimal weight, including use on construction sites to enclose buildings and cover materials during construction. Other common applications for Canvex include temporary walls, abatement enclosures, equipment covers, silage and cargo covers, carpet and product wrappings, curtains, and insulation membranes. Also used as inexpensive pattern cloth.

Canvex I has the polyethylene coating on one side. Canvex II has the polyethylene coating on both sides.

Sold in full rolls only.

PanoramaFR Uncoated Press-Polished Sheets

PanoramaFR uncoated press-polished clear vinyl sheets provide exceptional clarity and dimensional stability. This flame-resistant clear vinyl is waterproof, cold crack resistant, and haze resistant. Great for indoor or outdoor use, the high-strength clear vinyl is ideal for motorized retractable screens. When used in a retractable drop screen, PanoramaFR offers UV protection, temperature control, and a panoramic view. Prop 65 Compliant (Phthalate Free). Heat sealable.

Clear vinyl material will contract and expand with fluctuating temperatures. Be sure to allow 1% for shrinkage when cutting.

Suggested uses: motorized retractable screens, retractable drop screens.

Verilon® Clear Double-Polished Vinyl Rolls

Verilon clear vinyl rolls are highly robust. A double-polished surface gives the vinyl glassy clarity. The clear plastic vinyl defends against UV rays and weather. Uses include enclosures, marine windshields, boat windows, boat tops, and other marine purposes.

Clear vinyl will shrink and grow with alternating temperature levels. It is best to allow 1% for shrinkage when cutting. Because it is malleable, vinyl material can easily be scratched. Take care when handling the material.

Item Number	Description	Color	Put Up	Thickness	Width

Verilon® is a registered trademark of CPI, Inc.

Verilon® Clear Double-Polished Vinyl Rolls – Flame Retardant

Verilon flame-retardant clear vinyl rolls offer dependable protection. The vinyl's double-polished finish brings superior clarity, while the clear plastic vinyl withstands UV rays, heat, and harsh weather. Vinyl material can be prone to scratching and care needs to be employed when handling. Clear vinyl will shrink and expand with fluctuating temperature levels. Please allow a minimum of 2% shrinkage when cutting.

Suggested uses: commercial patio enclosures and tent windows. Some items are drop ship only.

GlassClear® is a registered trademark of Ascot Products Inc. (Robeco).

GlassClear® Extruded Vinyl

A clear, economical vinyl that is a superb source for building marine enclosures rather than many typical vinyl sheets offered on the market. Great for clear vinyl window replacements as it adapts nicely to the existing vinyl. Because this specialty clear vinyl is extruded rather than laminated, the clarity is superior to other clear vinyl roll goods.

Strataglass® Vinyl Sheets

A remarkably clear and scratch-resistant vinyl sheet, Strataglass performs well in boat curtain, automotive window and awning applications, where perfection of clarity and lack of distortion are demanded. This premium, flexible vinyl sheet resists scratching from handling, etching from industrial fallout and damaging effects from the sun's rays. Made in the USA.

Strataglass, Inc., manufacturers of Strataglass® and CrystalClear, endorse IMAR™ Strataglass Protective Cleaner and IMAR Strataglass Protective Polish for maximum benefit recommend its regular use on Strataglass and CrystalClear.

Sea Clear Polycarbonate

Clear, thin-gauge polycarbonate for side and aft windows. Gives clear visibility and good light transmission.

Recommended Handling of Sea Clear:

A masking film is used on both sides of the Sea Clear sheet or roll to prevent scratching during shipment and fabrication.

For the best protection against abrasion damage to Sea Clear rolls, always store in and dispense from the specially designed box.

No special tools or equipment are necessary to work with Sea Clear. Just cut and sew with your existing equipment.

Don't forget to peel mask off when job is completed.

The creative use of Sea Clear provides a clearer, longer lasting solution for marine or other window applications that do not require roll-up (Sea Clear is not appropriate for traditional roll-up applications).

Item Number	Color	Put Up	Size	Thickness

Phifertex® Plus

Phifertex Plus carries a heavier weight and denser fabric count for heavy-duty projects. The fabric offers reliable protection and comfort. It resists ripping, sagging, and fading.

Phifer's patented Microban® technology supplies an added layer of protection. The antimicrobial solution inhibits the growth of stain and odor-causing bacteria, mold, and mildew for lasting cleanliness.

This product is GREENGUARD® certified and made in the USA.

Suggested uses: sling chairs and other outdoor furniture, umbrellas, roller shades and other sun screens, pergola, canopies.

Phifertex® Stripes

Featuring a classic stripe design, Phifertex Stripes fabrics are 100% PVC. They combine durable polyester with a protective vinyl coating for reliable defense against harsh climates. The material also resists fading and tearing for lasting utility.

The key benefits of Phifertex fabrics come from their integrated Microban® antimicrobial protection. The solution fights stain and odor-causing bacteria, mold, and mildew.

This product is GREENGUARD® certified to meet strict environmental standards. Made in the USA.

Some items sold in full rolls only. Some items are drop ship only.

Suggested uses: sling chairs and other sling outdoor furniture.

SheerWeave[®] 1000

SheerWeave 1000 is a ribbed-weave fiberglass fabric. It offers excellent shading while allowing outward visibility and daytime privacy. Average openness is 25%.

SheerWeave sun control fabrics offer exciting alternatives to ordinary window coverings. Their unique light-filtering qualities help reduce fading of drapes, carpets, and indoor furnishings.

SheerWeave 1000 is infused with Microban[®] antimicrobial product protection, helping to provide an added level of cleanliness that won't wash or wear away. Microban inhibits the growth of stain and odor-causing bacteria, mold, and mildew. It works continuously, keeping fabrics cleaner for longer. This product is GREENGUARD[®] and GREENGUARD[®] Gold certified.

Sold in full rolls only. Items are drop ship only.

Suggested uses: roll-up shades, Roman shades, folding shades, pleated shades, vertical blinds, drapes, sheers, screens.

SheerWeave® 2000-01

SheerWeave 2000-01 is a basket-weave fabric, designed expressly for applications that require a more opaque and non-directional fabric. Average openness is 5%.

SheerWeave sun control fabrics provide inventive options in window coverings. The distinct light-filtering traits reduce fading of indoor furniture, drapes, and carpets.

SheerWeave 2000-01 is equipped with Microban® antimicrobial product protection, providing an added layer of cleanliness that won't wear or wash away. Microban reduces the growth of stain and odor-causing bacteria, mold, and mildew. It helps keep fabrics cleaner for longer. This fabric is GREENGUARD® and GREENGUARD® Gold certified.

Sold in full rolls only. Items are drop ship only.

SheerWeave® 2100-01

SheerWeave sun control fabrics offer exciting alternatives to ordinary window coverings. The unique light-filtering qualities of SheerWeave help reduce fading of drapes, carpets and interior furnishings while continuing to offer a view of the outside.

A basket weave designed expressly for applications that require a more opaque and nondirectional fabric. An ideal fabric for roman shades, roll-ups and vertical blinds. Average openness 10%.

SheerWeave is infused with Microban® antimicrobial product protection, helping to provide an additional level of cleanliness protection that won't wash or wear away for the lifetime of the fabric. Microban protection inhibits the growth of stain and odor-causing bacteria, mold and mildew and works continuously, keeping fabrics cleaner for longer. This product is GREENGUARD® and GREENGUARD® Gold certified.

SheerWeave® 2390 Performance +

SheerWeave Performance + takes the performance of a traditional SheerWeave fabric "plus" the highly reflective properties of metallization and combines them to achieve the ultimate in sun control protection.

SheerWeave is infused with Microban® antimicrobial product protection, helping to provide an additional level of cleanliness protection that won't wash or wear away for the lifetime of the fabric. Microban protection inhibits the growth of stain and odor-causing bacteria, mold and mildew and works continuously, keeping fabrics cleaner for longer. This product is GREENGUARD® and GREENGUARD® Gold certified.

The metalized coating is fragile and must be handled with care to avoid damage. Do not scrub. Do not use tape, solvents or abrasive cleaners which could damage the fabric coating. Clean with a damp soft cloth using a mild detergent. Rinse with clean water and allow blind to dry in the down position. Do not slide metalized side across surfaces or into the cardboard tube without protective plastic wrapping. Do not use Radio Frequency sealing equipment on metalized fabric. Use only heat bars or ultrasonic sealing equipment for welding.

Sold in full rolls only. Items are drop ship only.

SheerWeave® 2710

SheerWeave 2710 is a lightweight, fiberglass fabric woven from a unique twill pattern that displaces the single yarns to create a two-sided fabric. This allows for maximum heat reduction, glare reduction, and improved visibility. Average openness is 10%.

SheerWeave sun control fabrics offer unique alternatives to standard window coverings. Their light-filtering qualities help reduce fading of carpets, drapes, and interior furnishings.

SheerWeave 2710 is armed with Microban® antimicrobial protection, providing an added level of cleanliness protection. Microban discourages the growth of bacteria, mold, and mildew. It works continuously to keep fabrics clean. This fabric is GREENGUARD® and GREENGUARD® Gold certified.

Suggested uses: roll-up shades, Roman shades, vertical blinds, folding shades, pleated shades, drapes, sheers, screens.

Sold in full rolls only. Items are drop ship only.

SheerWeave® 4000 ECO

SheerWeave 4000 ECO is PVC-free and designed with today's demanding, yet cost-conscious commercial market in mind. Its shading factor and fresh, modern look are ideal for a variety of applications. Can also be used for exterior applications. Average openness 5%.

SheerWeave is infused with Microban® antimicrobial product protection, helping to provide an additional level of cleanliness protection that won't wash or wear away for the lifetime of the fabric. Microban protection inhibits the growth of stain and odor-causing bacteria, mold and mildew and works continuously, keeping fabrics cleaner for longer. This product is GREENGUARD® and GREENGUARD® Gold certified.

Sold in full rolls only. Items are drop ship only.

SheerWeave® 4500

Using advances in polyester yarn development, Style 4500 is thinner and lighter weight, allowing for ease of fabrication. Style 4500 is a full basket weave, making it ideal for applications that require a more opaque and non-directional fabric. Can also be used in exterior roller shades. Average openness 5%.

SheerWeave is infused with Microban® antimicrobial product protection, helping to provide an additional level of cleanliness protection that won't wash or wear away for the lifetime of the fabric. Microban protection inhibits the growth of stain and odor-causing bacteria, mold and mildew and works continuously, keeping fabrics cleaner for longer. This product is GREENGUARD® and GREENGUARD® Gold certified.

SheerWeave® 7100

When selecting light-blocking window treatments for a number of rooms within the same building, SheerWeave 7100 is an ideal choice. Similar to SheerWeave 2000, this laminated blackout fabric was designed to match other SheerWeave fabrics for a coordinated look. Made from PVC-coated fiberglass and laminated with a two-ply 100 percent PVC blackout film. SheerWeave 7100 comes in neutral color styles.

SheerWeave is infused with Microban® antimicrobial product protection, helping to provide an additional level of cleanliness protection that won't wash or wear away for the lifetime of the fabric. Microban protection inhibits the growth of stain and odor-causing bacteria, mold and mildew and works continuously, keeping fabrics cleaner for longer. This product is GREENGUARD® and GREENGUARD® Gold certified.

Sold in full rolls only. Items are drop ship only.

SunTex® 80

SunTex 80 is a distinct mesh fabric that absorbs up to 80% of the sun's hot rays. With a 20% open weave, it serves as a well-ventilated privacy screen with great outward viewing while still blocking insects and UV light. When used as an outdoor window shade, it keeps interiors cooler and reduces fading in furniture. Because of this, it is a great energy saver. The durable fabric defends against tearing and pet damage.

Infused with Microban® antimicrobial protection, the material stays cleaner for longer. The integrated solution inhibits the growth of stain and odor-causing bacteria, mold, and mildew.

This item is GREENGUARD® and GREENGUARD® Gold certified. Made in the USA.

Some items sold in full rolls only. Items are drop ship only.

Suggested uses: screening for windows, doors, porches, and patios.

SunTex® 90

SunTex 90 is a popular mesh fabric that absorbs up to 90% of the sun’s rays. With a 10% open weave, it acts as a breathable privacy screen with good outward visibility while still blocking UV light and insects. When used as an outdoor window shade, it keeps rooms cooler and prevents furniture from fading. This makes it a great energy saver. The fabric resists tearing and pet damage.

Furnished with Microban® antimicrobial protection, the material keeps clean for longer. It restricts the growth of bacteria, mold, and mildew.

This item is GREENGUARD® and GREENGUARD® Gold certified. Made in the USA.

Suggested uses: screening for windows, doors, porches, and patios.

SunTex® 95

SunTex is a unique woven mesh that can block up to 95% of the sun’s hot rays before they enter your windows. Mildew and fade resistant, SunTex is ideal for use as a shading fabric on windows, doors and porches and offers good ventilation. This heavy-duty fabric is made of strong vinyl-coated polyester and is resistant to pet damage. Average openness 5%.

SunTex is infused with Microban® antimicrobial product protection, helping to provide an additional level of cleanliness protection that won’t wash or wear away for the lifetime of the screen. Microban protection inhibits the growth of stain and odor-causing bacteria, mold and mildew and works continuously, keeping screens cleaner for longer. This product is GREENGUARD® and GREENGUARD® Gold certified. Made in USA.

Suggested uses: screening for windows, doors, porches, and patios.

Textilene® Nano™ 60

Twitchell's Textilene® Nano 60 is woven with a thin, lightweight core diameter yarn. This high-performance solar screen fabric is made from antimicrobial, PVC-coated polyester. It is designed to minimize harmful UV rays, heat transfer, and glare. Blocking the sun's rays, the solar screen fabric is flame resistant and fade resistant. It is also a durable substitute to insect screen. The mesh fabric is an excellent energy saver and prevents indoor furnishings from fading. The material offers daytime privacy with exceptional outward clarity. Plus, Textilene can be heat sealed with a Hot Wedge, Hot Air, or Radio Frequency (RF) welder.

Suggested uses: exterior window screens, gazebo screening, interior and exterior roller shades, and patio shades.

Textilene® Nano™ 95

Twitchell's Textilene Nano 95 is woven with a thin, lightweight core diameter yarn when compared to the original Textilene 95. This high-performing solar screen fabric is made of antimicrobial, PVC-coated polyester. It is built to resist harmful UV rays, heat transfer, and glare. Blocking up to 95% of the sun's rays, the solar screen fabric is flame resistant and fade resistant. It is also a durable alternative to insect screen. The mesh fabric is an excellent energy saver and prevents indoor furnishings from fading. The material supplies daytime privacy with remarkable outside clarity.

Textilene is GREENGUARD® Gold and REACH certified, RoHS compliant, Phthalate and Lead (Pb) free, and meets California Prop. 65 (aside from noting FR chemicals where appropriate). Printable/digital imaging capable. Made in the USA.

Textilene may be heat sealed with a Hot Wedge, Hot Air, or Radio Frequency (RF) welder. We recommend testing a small portion of fabric first to obtain the right temperature level.

Sold in full rolls only. Items are drop ship only.

Suggested uses: exterior window screens, gazebo screening, interior/exterior roller shades, patio shades.

SunTex® 97

SunTex 97 is a full basketweave vinyl-coated polyester fabric that is thinner and lighter weight than traditional SunTex. With a 3% openness factor, this fabric offers increased heat and glare control, energy saving, and daytime privacy. SunTex 97 combines supreme durability and style with exterior shading fabric that is pet resistant, mildew and fade resistant, and easily cleaned with mild soap and water.

SunTex is infused with Microban® antimicrobial product protection, helping to provide an additional level of cleanliness protection that won't wash or wear away for the lifetime of the screen. Microban protection inhibits the growth of stain and odor-causing bacteria, mold and mildew and works continuously, keeping screens cleaner for longer. This product is GREENGUARD® and GREENGUARD® Gold certified. Made in USA.

Sold in full rolls only. Items are drop ship only.

Suggested uses: sun shades, roller shades, window awnings, and rollup shades.

Textilene® 80

This high-performing solar screen fabric is made from PVC-coated polyester. Textilene 80 is built to minimize heat transfer, glare, and harmful rays from the sun. Blocking as much as 80% of the sun’s rays, the sun screen fabric is fade resistant and flame resistant. It is also a durable, bacteria-resistant substitute to insect screen. The mesh fabric is a great energy saver and prevents indoor furniture from fading. The material gives daytime privacy with excellent outward clarity. Plus, Textilene can be heat sealed with a Radio Frequency (RF), Hot Wedge, or Hot Air welder.

Suggested uses: window screens, gazebo screening, outdoor shades, and patio shades.

Textilene® 90

This sturdy, synthetic fabric is made of PVC-coated polyester. Designed to reduce heat transfer through windows, the fabric also reduces glare and harmful rays from the sun. Flame resistant and fade resistant, it is a durable alternative to insect screen. Textilene 90 blocks up to 90% of the sun’s rays. The fabric is printable and capable of digital imaging.

Textilene is GREENGUARD® Gold and REACH certified, RoHS compliant, Phthalate and Lead (Pb) free, and complies with California Proposition 65 (apart from having to list FR chemicals where applicable).

Suggested uses: screen panels for windows, doors, porches, and patios.

Serge Ferrari Soltis® Horizon 86

Soltis Horizon 86 is an ideal vinyl mesh that blocks up to 88% of solar radiation. The solar shade fabric reduces heat, light, and harmful UV rays. It also allows privacy without obstructing the outward view.

Serge Ferrari's patented Précontraint® process gives Soltis Horizon 86 excellent dimensional stability for large expanses. The fabric delivers exceptional durability under intense wind and weather conditions. GREENGUARD® certified.

Note: 105-inch width rolls of Soltis Horizon 86 cannot ship UPS.

Suggested uses: exterior window shade, commercial building facades, greenhouses, rooftops, retractable awnings.

Serge Ferrari Soltis® Opaque B702

Soltis Opaque B702 is a blackout fabric that prevents the transmission of all visible light, infrared, and UV radiation. The black side darkens interiors while the white side reflects heat outward. The solar fabric is an effective alternative to roller shutters. In a wider width than Soltis Opaque B92, it can cover more surface area. GREENGUARD® certified.

Suggested uses: interior or exterior blackout blinds.

Serge Ferrari Soltis® Harmony 88

Soltis Harmony 88 provides the ideal openness factor to fully enjoy outdoor views while blocking up to 95% of solar contributions. With an even weave pattern, Soltis Harmony 88 is available in a range of colors to coordinate with your interior and outdoor space. The Précontraint® technology gives Serge Ferrari materials dimensional stability and an exceptionally long life. They are also 100% recyclable at the end of their service life. Plus, Soltis Harmony 88 helps maintain good indoor air quality, as proven by its GREENGUARD Gold certification.

Some items sold in full rolls only. Some items are drop ship only.

Suggested uses: Roller shades, skylight shades, sliding panels, and pergolas.

Serge Ferrari Soltis® Proof W88

Soltis Proof W88 combines function and fashion. Its waterproof and translucent design provides effective, durable protection against weather, the highest level of translucency (up to 21%) for more natural light, and better heat reflection to maintain a comfortable thermal environment. In addition, a square weave textured effect gives it a stylish touch. Soltis Proof W88 provides unique benefits for unsurpassed ease-of-use, such as quick, easy maintenance and UV resistance for long-term colorfastness. The Preconstraint® technology gives Serge Ferrari materials dimensional stability and an exceptionally long life.

Suggested uses: Pergolas, canopies, shade sails, and awnings.

Serge Ferrari Soltis® Proof W96

Soltis Proof W96 offers a soft elegance within a sturdy build. It is waterproof and translucent, providing effective, durable protection against weather, a high level of translucency (up to 17%) for more natural light, and better heat reflection to maintain a comfortable thermal environment. Soltis Proof W96 ensures your outdoor space is comfortable so it can be used year-round with quick, easy maintenance and UV resistance for long-term colorfastness. Additionally, a visible textured effect with an irregular weave pattern adds style to its trustworthy design. The Preconstraint® technology gives Serge Ferrari materials dimensional stability and an exceptionally long life.

Suggested uses: Pergolas, canopies, shade sails, and awnings.

Architec 400®

Architec 400 is an extremely strong UV stabilized knitted shade cloth that has been designed for large commercial tension membrane structures and shade sails. It is a High Density Polyethylene fabric with an excellent weight to strength ratio, has very good tensile strength, and is extremely resistant to tearing. This fabric also incorporates the latest in ultraviolet stabilizers that provide improved color consistency and colorfastness. This fabric is lead and phthalate free.

Architec 400 is not heat sealable.

Architec 400 cannot ship UPS due to its 150-inch roll width.

Comtex®+

Comtex+ is a knitted HDPE shade fabric. It is heat-set, allowing for less curling and shrinkage and offering improved dimensional stability. This versatile fabric performs excellently for both commercial and residential applications and is designed for medium-to-large architectural shade sails, tension membrane structures, and commercial shade structures. It delivers lasting protection from the sun's rays and is lead and phthalate free. Plus, new and improved pigments allow for extended color life.

Comtex+ is not heat sealable.

Polytex®+

Polytex+ is made of HDPE, consisting of a monofilament and tape assembly. Polytex+ is heat-set, allowing for less curling and shrinkage and offering improved dimensional stability. It is designed for architectural shade sails and outdoor shade structures, like canopies and patio shade sails, where sun protection is needed. It offers a high-strength-to-weight ratio, mildew resistance, and protection against UV degradation. This lightweight shade cloth is lead and phthalate free. Plus, new and improved pigments allow for extended color life.

Polytex+ is not heat sealable.

Commercial DualShade 350 FR

DualShade FR 350 HDPE combines two different colored yarns using a patent pending knit pattern to create a single mesh that produces a transformative effect and unique look. DualShade 350 FR offers rich, luminous color with a soft, flexible feel. DualShade 350 FR's unique construction offers biaxial stability (similar stretch characteristics in both directions) providing much easier fabrication. It has high tear and tensile strengths for a longer life and improved performance while meeting the most stringent Fire Standards for shade fabrics.

Commercial DualShade FR is heat sealable.

Suggested uses: Shade sails, car park covers, playground shading, shade flies over stern of boat, gazebo and pergola covers, privacy screens, shade cloth, umbrella canopies.

Commercial DualShade 350

Commercial DualShade 350 from GALE Pacific is a unique, two-faced knitted fabric. The shade sail fabric features complementary colors with a shimmery look. With superior biaxial stability, DualShade 350 shade sail fabric is made from UV-stabilized HDPE monofilament and tape.

Woven in an original knit pattern, it provides excellent sun protection and durability. DualShade 350 offers rich, luminous color with a soft, flexible feel. It has high tear and tensile strengths for a longer fabric life and improved performance. GREENGUARD® Gold certified, the knitted shade cloth is 100% lead and phthalate free. HDPE fabric can be recycled.

Commercial DualShade 350 is not heat sealable.

Suggested uses: shade sails or other tension structures for sports complexes, office buildings, schools, playgrounds, parks, and more.

Commercial NinetyFive 340

An ultraviolet-stabilized HDPE monofilament and tape knitted fabric, Commercial NinetyFive 340 was developed specifically for use in fabric structures, awnings and shade covers. Strong and stable, it offers an ideal shade solution for commercial and architectural applications such as school playgrounds, sporting facilities, parking structures, outdoor cafes, car dealerships, outdoor pool areas and more.

Designed to “breathe,” Commercial NinetyFive 340 allows cooling breezes to flow through, significantly reducing temperatures beneath. The fabric’s knitted, lock-stitch construction prevents tearing and fraying when cut. Colors remain vivid for years. GREENGUARD®, GREENGUARD® Select and OEKO-TEX® Certified. 100% lead and phthalate free.

Commercial NinetyFive 340 FR

Commercial NinetyFive 340 FR is a recognized name in knitted HDPE shade fabric. Offering a combination of sun protection, strength and durability this mid-weight fabric is suitable for a wide variety of applications. Commercial NinetyFive 340 FR is made from high-quality UV-stabilized HDPE and is suitable for tough conditions. It has high tear and tensile strengths for a longer fabric life and improved performance while meeting the most stringent fire standards for shade fabrics. Commercial NinetyFive 340 FR offers up to 96.5% UVR block protection.

Commercial NinetyFive 340 FR is not heat sealable.

Suggested uses: Shade sails, car park covers, playground shading, shade flies over stern of boat, gazebo & pergola covers, privacy screens, shade cloth, umbrella canopies.

Commercial Heavy 430 FR

Engineered to withstand extreme weather conditions on large scale tension structures, Commercial Heavy 430 FR is a premium fabric that is durable, FR compliant, and provides maximum stability. Designed with a patented inter-twining knit pattern, Commercial Heavy 430 features excellent biaxial and load bearing performance for optimum shade and tensioning endurance. This superior shade fabric meets the most stringent fire standards for shade fabrics and requires minimal maintenance.

Commercial Heavy 430 FR is not heat sealable.

Due to the 118-inch fabric width, Commercial Heavy 430 FR cannot ship UPS.

Suggested uses: awnings, car park covers, playground shading, shade sails.

Flag – Nylon

In a versatile white, this nylon fabric works best in fabricating flags and banners. Made from 200-denier cloth, it supplies a lightweight but durable material.

Item Number	Color	Denier	Put Up	Weight	Width
724800	White	200	100 yd.	2.92 oz./sq. yd.	59 in.

Barricade™

Barricade is an advanced cover fabric featuring a breathable film sandwiched between two layers of soft but durable bicomponent non-woven material. From grills and motorcycles to cars and airplane windshields, Barricade guards against the damaging effects of sun, dirt, dust, and moisture. This highly water resistant and quick drying fabric will ensure valuable possessions are protected for years to come.

Coverlight® CSM Coated Nylon

Coverlight CSM coated nylon features all the advantages of Neoprene coating, but with exceptional abrasion resistance. One of the most versatile cover fabrics. Withstands deterioration by weather, ozone, sunlight, heat and moderately corrosive chemicals. This fabric offers excellent service at high temperatures. More resistant to high temperatures (up to 225°F) and oxidizing agents than Neoprene or vinyl.

CSM Coated Nylon can be sewn or cemented to provide airtight and watertight seams. CSM Coated Nylon cannot be heat or R.F. welded.

Suggested uses: Lifeboat covers, steam fumigation covers, truck tarpaulins.

Coverlight® Neoprene® Coated Nylon

Coverlight Neoprene coated nylon is a versatile general purpose material that provides good resilience and tensile strength. A popular choice for truck tarps, machine covers, and aircraft wing covers. This fabric is resistant to water, mildew and many solvents and petroleum based products. Available with a textured or a dusted surface. The dusted surface requires buffing before applying cement, but is less expensive and lends itself to a better surface for slipping the material on and off a truck, aircraft or similar type equipment. Material cannot be R.F. welded.

Performs well at temperatures up to 225°F.

Trivantage® GVC18

Trivantage GVC18 is an ideal choice for situations demanding a strong, durable tarp fabric.

Trivantage GVC18 resists rips, tears, abrasions and punctures. Performing well for all kinds of fitted, flat and special-duty tarps, this strong, economical fabric features an exceptionally soft hand that allows for ease of fabrication. It stays tough and can be easily handled at very low temperatures.

BetterVue™

Phifer's BetterVue insect screening for windows, doors and porches is an excellent visibility insect screen designed to maximize outward view.

Woven from small, refined yarns that improve the screen's openness, BetterVue makes visibility sharper and more brilliant. It's like a "high definition" insect screen for windows, doors, and screened porches. With BetterVue, customers see the clear and vibrant view, not the screen.

BetterVue has excellent visibility from inside and better curb appeal when viewing windows from the street. It features excellent insect protection due to 30% smaller openings than standard screen. An excellent product for coastal regions, BetterVue is available in black and has improved light transmittance and improved airflow due to increased openness.

BetterVue is infused with Microban® antimicrobial product protection, helping to provide an additional level of cleanliness protection that won't wash or wear away for the lifetime of the screen. Microban protection inhibits the growth of stain and odor-causing bacteria, mold and mildew and works continuously, keeping screens cleaner for longer. This product is GREENGUARD® and GREENGUARD® Gold certified.

General Care And Cleaning Instructions For Selected Awning, Marine, And Industrial Fabrics

Trivantage® offers the most exceptional awning, marine, and industrial fabrics in the industry. To maximize the life of your product, we recommend proper maintenance throughout its lifespan. The following are suggestions for care and cleaning of selected fabrics. The general guidelines – keeping dirt, leaves, and debris from accumulating on the surface, regularly washing with water, avoiding dragging on rough surfaces, etc. – applies to all fabrics used in outdoor applications.

Note: Trivantage offers a complete line of cleaning and protection products for industrial fabrics.

Tips on Care of Trivantage Awning, Marine and Industrial Fabrics

The lifespan of your fabrics depends on the way you use and care for them. Your fabrics are made from either cotton or synthetic fibers. Even the most durable materials require a certain amount of care, and with only a minimal amount of attention, your fabrics are easy to maintain. Use the following do's and don'ts to properly care for your awning, marine, and industrial fabrics. Preserve the life and beauty of awning, marine, and industrial fabrics by following these suggestions and general tips:

Some Do's

Do keep the fabric clean. This is the best protection against mildew. Even on mildew resistant fabric, mildew can grow on accumulated dirt or foreign materials that remain on the top or bottom surface and eventually damage or stain the fabric. We cannot be responsible for such damage.

Do wash down your fabrics. If they are vinyl coated, brush lightly with a cloth or soft brush. You can use a mild soap, but rinse thoroughly and immediately.

Do hose your fabric with clean water occasionally, every month or so. We recommend that you do this on a hot, sunny day.

Do keep the underside of your fabrics clean by simply brushing with a clean household broom or brush.

Do keep shrubbery and vines away from an awning, as many bushes contain an acid that can be harmful to your awnings.

Do check the condition of any frames. Rust is not likely to form, but it might cause deterioration or staining of the fabric if it should.

Some Don'ts

Do Not fold or roll awning fabric in cold temperature.

Do Not drag your awning, marine, or industrial fabrics across any abrasive surfaces, such as cement, asphalt, or the awning frame.

Do Not get insect spray on the fabric, as some solutions may impair the water repellency of the fabric and cause staining.

Do Not allow water to stand on the fabrics, causing pocketing and possible stretching.

Do Not overlook small rips or tears. Repair your fabric if a sharp object punctures it.

Do Not wash your fabrics with a harsh or strong solution, or scrub too vigorously with an abrasive cleaner.

Do Not force or yank an awning when raising or lowering them. Do it gradually.

Do Not cook food or have fires beneath or around the fabrics.

Do Not store fabrics when damp or wet. Dampness causes mildew and is a fabric's greatest foe. Mildew may grow on the surface of a damp fabric and permanently stain the fabric.

Do Not permit leaves, twigs, dirt etc., to remain on your fabric as they might cause staining.

Aqualon® Edge

7-Year Limited Warranty

Aqualon Edge is warranted for a period of seven years (7) from the date of the installation in a marine cover, top or enclosure end uses. The warranty protects the end user from excessive loss of color or strength from normal exposure conditions including sunlight, mildew, rot and normal atmospheric chemicals which may render the fabric unserviceable. This warranty does not cover seam leakage, damage from Acts of God, vandalism, neglect or improper cleaning and improper use. Please see your Trivantage®, LLC representative for cleaning instructions.

In the unlikely event of fabric failure during the warranty period Graniteville Specialty Fabrics will supply the end product fabricator or Trivantage, LLC new fabric free of charge equal to the fabric used in the end use item. Labor and installation are not covered by this warranty. Graniteville Specialty Fabrics reserves the right to inspect the fabric or made up item of any warranty claim.

Except for the explicit warranties, herein, no other warranty, expressed or implied, including any implied warranty of merchantability of fitness for a particular use is made by Graniteville Specialty Fabrics. In no event shall Graniteville Specialty Fabrics be liable for damages to any person or property, or any consequential or incidental damages.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of consequential or incidental damage, so, the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights and you may have other rights which vary from state to state.

To get service, call the dealer from whom you purchased the product. The dealer will inspect the installation and process the claim through Trivantage, LLC and Graniteville Specialty Fabrics.

Aqualon Edge Soft

7-Year on Fabric Face

Aqualon® Edge Soft is warranted for a period of seven years (7) from the date of the installation in a marine cover, top or enclosure end uses. The warranty protects the end user from excessive loss of color or strength from normal exposure conditions including sunlight, mildew, rot and normal atmospheric chemicals which may render the fabric unserviceable. This warranty does not cover seam leakage, soft backing, damage from Acts of God, vandalism, neglect or improper cleaning and improper use. Please see your Trivantage®, LLC representative for cleaning instructions.

In the unlikely event of fabric failure during the warranty period Trivantage, LLC will supply the end product fabricator with new fabric free of charge equal to the fabric used in the end use item. Labor and installation are not covered by this warranty. Trivantage, LLC reserves the right to inspect the fabric or made up item of any warranty claim.

Except for the explicit warranties, herein, no other warranty, expressed or implied, including any implied warranty of merchantability of fitness for a particular use is made by Trivantage, LLC. In no event shall Trivantage, LLC be liable for damages to any person or property, or any consequential or incidental damages.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of consequential or incidental damage, so, the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights and you may have other rights which vary from state to state.

To get service, call the dealer from whom you purchased the product. The dealer will inspect the installation and process the claim through Trivantage, LLC.

Architec 400®

15-Year Against UV Degradation

UV PERFORMANCE WARRANTY FOR ARCHITEC 400®

ARCHITEC 400® ("fabric") is a unique and innovative Extra Heavy Duty knitted shade cloth designed for architectural sails and commercial shade structures.

Warranty

Polyfab USA LLC ("Polyfab") warrants to the initial purchaser that the fabric will not suffer from abnormal deterioration from ultra violet exposure for a period of 15 years from the date of installation. The term abnormal deterioration means deterioration exceeding 10% of the fabric's original strength for each year over the 15-year warranty period, and does not include normal wear and tear. If the fabric does suffer from abnormal deterioration during the 15-year warranty period, Polyfab will, at its option either replace the fabric or supply equivalent fabric, or pay the cost of replacing the fabric or of acquiring equivalent fabric on the following pro-rata basis:

1-5 years 100% of the original fabric purchase price

6-10 years 50% of the original fabric purchase price

11-15 years 25% of the original fabric purchase price

POLYFAB UNDERTAKES NO RESPONSIBILITY FOR THE QUALITY OF THE FABRIC EXCEPT AS OTHERWISE PROVIDED HEREIN. THERE IS NO IMPLIED WARRANTY THAT THE FABRIC SHALL BE MERCHANTABLE. POLYFAB ASSUMES NO RESPONSIBILITY THAT THE FABRIC WILL BE FIT FOR ANY PARTICULAR PURPOSE FOR WHICH YOU MAY BE BUYING THE FABRIC, EXCEPT AS OTHERWISE PROVIDED HEREIN. THERE IS NO IMPLIED WARRANTY THAT THE FABRIC SHALL BE FIT FOR ANY PARTICULAR PURPOSE. YOU ACKNOWLEDGE THAT YOU ARE NOT RELYING ON POLYFAB'S SKILL OR JUDGMENT TO SELECT OR FURNISH THE FABRIC SUITABLE FOR ANY PARTICULAR PURPOSE AND THAT THERE IS NO WARRANTY WHICH EXTENDS BEYOND THAT PROVIDED HEREIN.

Exclusions and Product Disclaimers

This warranty does not cover, and Polyfab is not liable for, deterioration of fabric occurring due to any of the following circumstances:

- Exposure to pollution, chemicals, solvents, cleaning agents or other substances that are harmful to the performance of the fabric.
- Faulty installation of the fabric or faulty design or manufacture of any structure to which the fabric is attached.
- Improper storing, handling, bracing, use of the fabric or use contrary to the specifications for the fabric.
- Outdoor fabrics are subject to harsh conditions, and degradation over time is to be expected. Architec 400 is supported with a 15-year UV warranty. During this period the fabric will remain serviceable and fit for purpose. Color fading is normal over time. Colors containing red and yellow pigments have a tendency to fade more than others. This is not a loss of strength/breakdown caused by UV exposure and is not covered by the product warranty.
- Minor color variation from fabric samples.
- Minor visual imperfection due to the manufacturing processes.
- The negligent act or omission of any person.
- Misuse, neglect or abuse of the fabric.

- Wind flap is the major cause of premature breakdown in any quality outdoor fabric. It is therefore critical that the Architec 400 be installed firm and tight and maintained in a firm condition. Fabric that is allowed to flap and cause rubbing and abrasion as a result of excessive and continual wind flap or storm damage, on structural poles and support wires is deemed to be mechanical breakdown and is not covered by the UV warranty.
- Architec 400 should be supported by using appropriate strength poles and footings as determined by a professional structural engineer, and fabricated and installed by a qualified contractor in accordance with local building codes.
- Technical testing information supplied by Polyfab is sourced from third-party testing authorities, and tolerances may vary by as much as 10%.

Limitation of Liability

Polyfab's obligations and liabilities are expressly and exclusively limited to those set forth herein. POLYFAB SHALL NOT BE LIABLE FOR DIRECT, INDIRECT, INCIDENTAL, CONSEQUENTIAL, OR SPECIAL DAMAGES, INCLUDING LOSS OF PROFITS, OR OTHER COMMERCIAL LOSS, AND INCLUDING CLAIMS BASED ON NEGLIGENCE OR STRICT LIABILITY, EXCEPT AS OTHERWISE PROVIDED FOR HEREIN. NOTWITHSTANDING THE FOREGOING, ANY LIABILITY RELATED TO THE FABRIC SHALL BE LIMITED TO THE PURCHASE PRICE OF THE FABRIC.

Claims Procedure

All claims must be made in writing, within 30 days from the date upon which the defect became known, to Polyfab USA LLC, 1601 N. Sepulveda Blvd. #392, Manhattan Beach, CA 90266. Claims must be supported by a sample of the defective fabric together with proof purchase, including the date and location of fabric purchase.

Aura

3-Year

Nassimi LLC Coated Fabrics Warranty

Nassimi LLC warrants that its upholstery material products will be free from defects in material and workmanship under normal use for a period of 3 years from date of original purchase, as set forth herein.

In the event that our upholstery material products do not perform to the specified performance standards, Nassimi LLC will offer replacement material free of charge. Provided the material was used for the intended application of the material and was cleaned using the appropriate care & cleaning methods outlined for these products.

For the warranty to go into effect it must be established that the product has:

- Been properly installed and not in a manner that puts excessive stress on any part of the material.
- Been properly maintained and has been cleaned using the appropriate cleaning agents and methods that are outlined by Nassimi LLC for the pattern.
- Not been intentionally damaged, such as (but not limited to) tearing, puncturing, intentional graffiti or vandalism.
- Not been post treated by the customer (such as but not limited to flame or adhesive lamination or chemical treatment after shipment by Nassimi LLC).
- Been upholstered in conjunction with proper foam cushioning under the material.
- Not been exposed to inks or dyes that may have transferred to the material.

If the product failure is determined to be from one of the aforementioned reasons the warranty is null and void. In the event that the product is determined by Nassimi to be defective during year one or two of this warranty Nassimi LLC will offer replacement product and additional support for labor not to exceed \$20.00/yd. for the amount of yardage used on the project offered in the form of a credit memo. During year three of this warranty Nassimi LLC will supply replacement product but will not be responsible for labor or any other costs associated to the claim.

If there is a visible defect in the material that has not been caused by an external contaminate or force Nassimi LLC will only responsible for the reimbursement of the original yardage that is remaining in full rolls. No labor will apply.

Except for the foregoing, the upholstery material product is provided "AS IS," and except as specified in this warranty section, all express or implied conditions, representations, and warranties including, without limitation, any implied warranty or condition of merchantability, fitness for a particular purpose, non-infringement, satisfactory quality, non-interference, accuracy of informational content, or arising from a course of dealing, law, usage, or trade practice, are hereby excluded to the extent allowed by applicable law and are expressly disclaimed by Nassimi LLC. This limited warranty extends only to the original purchaser of our product. Proof of purchase may be required.

Nassimi LLC

AwnTex® 70 and 160

5-Year

Extended Limited Warranty

What Is Covered? This warranty covers the fabric becoming nonfunctional because of loss of dimensional stability from exposure conditions including sunlight, mildew, rot and normal atmospheric conditions. It does not cover discoloration from atmospheric pollution or other debris.

How Long Is The Coverage Period? The warranty coverage runs for five (5) years from the date of original installation.

What Will Phifer Do? Phifer Incorporated will provide new fabric, free, to replace the non-functioning fabric. This warranty does not cover the cost of labor or other consequential or incidental expenses.

How Can You Get Service? Call the dealer from whom you purchased the product. They will contact Trivantage, LLC who will secure the new material from Phifer and ship to the dealer. This warranty is valid only if a sample of the fabric, with defects, is submitted with a photograph of the installation and an invoice showing the item and date purchased.

This is the complete and only warranty provided for AwnTex brand fabric. There are no other warranties, expressed or implied, for this product.

Phifer Inc.

Commercial DualShade® 350

10-Year Against UV Degradation

Commercial DualShade® 350 Knitted Shadecloth
Gale Pacific Limited

Product Warranty and Limitation of Liability

Commercial DualShade® 350 is a high-quality knitted shade fabric designed for tension structures, awnings and shade covers (Product). The **Product** is manufactured using high quality ingredients that have been selected for their resistance to ultra violet light degradation. The Product is manufactured in China by **Gale Pacific** Limited ACN 082 263 778 (Gale Pacific), an ISO9001:2015 accredited company.

FABRIC WARRANTY INFORMATION

Warranty

If, as a direct result of ultra-violet exposure, the Product cracks, splits or tears ("**defect**") within 10 years after the date on which the Product was validly purchased from Gale Pacific or an authorised distributor or agent of Gale Pacific, Gale Pacific will, at its option, replace the fabric component of the Product (but not any other component) free of charge or refund the cost of such replacement. This warranty is subject to the following conditions and limitations:

1. All claims under this warranty must be made in writing addressed to Gale Pacific Limited, PO Box 892, Braeside, Victoria, 3195, Australia or, if the Product was purchased in North America, to Gale Pacific Inc, 285 West Central Parkway, Ste. 1704 Altamonte Springs, FL 32714 USA or, if the Product was purchased in the Middle East, to Gale Pacific FZE, PO Box 17696, Jebel Ali, Dubai, United Arab Emirates. All claims must be accompanied by a sample of the Product fabric for laboratory testing and proof of place and date of purchase of the Product.
2. Gale Pacific will not be liable for any claim made under this warranty in respect of any Product in any of the following circumstances:
 - If the defect is contributed to or caused by any improper use of the Product or usage of the Product for purposes other than that for which the Product was designed or intended.
 - If the defect occurs wholly or partly as a result of any act or omission of any person other than Gale Pacific.
 - If the Product has been subjected to misuse, neglect, accident or abuse.
 - If the Product is altered or modified in any way unless such modification has been approved in writing by Gale Pacific.
 - If the Product is erected, installed, or used in violation of, or in a manner that is inconsistent with, instructions or warnings furnished by Gale Pacific.
3. This warranty does not cover:
 - Colour fading of the Product (even if due to exposure of the Product to ultra-violet rays);
 - Note: Fabrics containing Bright Green, Cherry Red, Orange, Royal Purple and Yellow yarn will be more susceptible to fading than other colours.
 - A deterioration in the chemical composition of the fabric other than a deterioration in the chemical composition of the fabric that occurs as a direct result of a defect;
 - Any damage to the Product caused or contributed to by exposing the Product to chemicals (including chlorine, halogens and organic solvents), highly acidic substances (with a pH less than 4), placing the Product near an open flame (including flames from a barbecue), tensioning the Product beyond its tear and tensile capabilities or mechanical friction;
 - Damage caused by natural disaster including storms, hailstorm, earthquake, fire, lightening, vandalism, misuse or damage caused by animals; or Damage that results from accident or normal wear and tear. Note: Shade sails or structures that are greater than 1.8 metres above a swimming pool should not be adversely affected by normal chlorine levels in a swimming pool. Direct contact with chlorine and other halogens can lead to degradation of the UV stabilisers and will negate the warranty.
4. This warranty is non-transferable and applies only to the initial purchaser of the installed Product.
5. This warranty applies to the fabric component only.

6. The Product comes with guarantees that cannot be excluded under Australian Consumer Law. Gale Pacific will be liable to replace or refund the Product for a major failure and for compensation for any other reasonably foreseeable loss or damage. In addition to the above warranty, the Competition and Consumer Act 2010 (Cth) and other state and territory legislation may imply guarantees, warranties or conditions or impose liability on Gale Pacific in relation to the Product or its supply which cannot, or can only to a limited extent, be excluded, restricted or modified. Except for those implied guarantees, warranties or conditions and such liability, and for the guarantee described above:
 - All guarantees, warranties and conditions (whether express or implied, statutory or otherwise) relating to the Product or its supply are expressly excluded; and
 - Gale Pacific will not be liable for any loss or damage suffered by any person (including the purchaser of the Product) in any way relating to or arising from the Product or its use (including loss or damage arising from the negligence of, or contributed to by, Gale Pacific).

If liability for breach by Gale Pacific of a guarantee, warranty or condition or any other liability imposed on Gale Pacific by legislation which cannot be excluded may be limited, Gale Pacific's liability is limited to the extent permitted by law, and if liability may be limited in any one of a number of ways, Gale Pacific's liability is limited in any one of the permitted ways chosen by Gale Pacific in its absolute discretion.

Commercial Heavy 430

15-Year Against UV Degradation

Commercial® Heavy 430 Knitted Shadecloth

GALE Pacific Limited

Product Warranty and Limitation of Liability

Commercial® Heavy 430 is a high quality knitted shade fabric designed for tension structures, awnings, and shade covers. It is manufactured using high quality ingredients that have been selected for their resistance to ultra violet light degradation. The **product** is manufactured in China by GALE Pacific Limited ACN 082 263 778 ("**GALE Pacific**"), an ISO9002 accredited company.

Warranty

If, as a direct result of ultra-violet exposure, this product cracks, splits or tears ("defect") within 15 years after the date on which the product is purchased from GALE Pacific or an authorised distributor or agent of GALE Pacific, GALE Pacific will, at its option, replace the fabric component of the product (but not any other component) free of charge or refund the cost of such replacement. This warranty is subject to the following conditions and limitations:

7. All claims under this warranty must be made in writing addressed to GALE Pacific Limited, PO Box 892, Braeside, Victoria, 3195, Australia or, if the product was purchased in North America, to GALE Pacific Inc, PO Box 951509, Lake Mary, Florida 32795 – 1509, USA, if the product was purchased in the Middle East, to GALE Pacific FZE, PO Box 17696, Jebel Ali, Dubai, United Arab Emirates, or if the product was purchased in Europe or Asia, to Gale Pacific No. 777 Hengshan W. Road, Beilun, Ningbo, China 315800. All claims must be accompanied by a sample of the fabric for laboratory testing and proof of place and date of purchase of the product.

8. GALE Pacific will not be liable for any claim made under this warranty in respect of any product in any of the following circumstances:

- If the defect is contributed to or caused by any improper use of the product or usage of the product for purposes other than that for which the product was designed or intended.
- If the defect occurs wholly or partly as a result of any act or omission of any person other than GALE Pacific.
- If the product has been subjected to misuse, neglect, accident or abuse.
- If the product is altered or modified in any way unless such modification has been approved in writing by GALE Pacific.
- If the product is erected, installed, or used in violation of, or in a manner that is inconsistent with, instructions or warnings furnished by GALE Pacific.

9. This warranty does not cover:

- Colour fading of the product (even if due to exposure of the product to ultra-violet rays) or a deterioration in the chemical composition of the fabric other than a deterioration in the chemical composition of the fabric that occurs as a direct result of a defect; or
- Any damage to the product caused or contributed to by exposing the product to chemicals (including chlorine, halogens and organic solvents), highly acidic substances (with a pH less than 4), placing the product near an open flame (including flames from a barbecue), tensioning the product beyond its tear and tensile capabilities or mechanical friction.

Note: Shade sails or structures that are greater than 1.8 metres above a swimming pool should not be adversely affected by normal chlorine levels in a swimming pool. Direct contact with chlorine and other halogens can lead to degradation of the UV stabilisers and will negate the warranty.

10. This warranty is not transferable, and applies only to the initial purchaser of the installed product.

11. This warranty applies to the fabric only.

FABRIC WARRANTY INFORMATION

In addition to the above warranty, the Trade Practices Act 1974 (Cth) and other state and territory legislation may imply warranties or conditions or impose liability on GALE Pacific in relation to the product or its supply which cannot, or can only to a limited extent, be excluded, restricted or modified. Except for those implied warranties or conditions and such liability, and for the warranty described above:

- All warranties and conditions (whether express or implied, statutory or otherwise) relating to the product or its supply are expressly excluded; and
- GALE Pacific will not be liable for any loss or damage suffered by any person (including the purchaser of the product) in any way relating to or arising from the product or its use (including loss or damage arising from the negligence of, or contributed to by, GALE Pacific).
- If liability for breach by GALE Pacific of a warranty or condition or any other liability imposed on GALE Pacific by legislation which cannot be excluded may be limited, GALE Pacific's liability is limited to the extent permitted by law, and if liability may be limited in any one of a number of ways, GALE Pacific's liability is limited in any one of the permitted ways chosen by GALE Pacific in its absolute discretion.

Gale Pacific Pty. Ltd.

Commercial Heavy 430 FR

12-Year Against UV Degradation

Commercial Heavy 430FR Knitted Shadecloth
Gale Pacific Limited

Product Warranty and Limitation of Liability

Commercial Heavy 430FR is a high-quality, flame retardant knitted shade fabric designed for tension structures, awnings and shade covers (**Product**). The Product is manufactured using high quality ingredients that have been selected for their resistance to ultra violet light degradation. The Product is manufactured in China by Gale Pacific Limited ACN 082 263 778 (**Gale Pacific**), an ISO9001:2015 accredited company.

Warranty

If, as a direct result of ultra-violet exposure, the Product cracks, splits or tears ("defect") within 12 years after the date on which the Product was validly purchased from Gale Pacific or an authorised distributor or agent of Gale Pacific, Gale Pacific will, at its option, replace the fabric component of the Product (but not any other component) free of charge or refund the cost of such replacement. This warranty is subject to the following conditions and limitations:

1. All claims under this warranty must be made in writing addressed to Gale Pacific Limited, PO Box 892, Braeside, Victoria, 3195, Australia or, if the Product was purchased in North America, to Gale Pacific Inc, 285 West Central Parkway, Ste. 1704 Altamonte Springs, FL 32714 USA or, if the Product was purchased in the Middle East, to Gale Pacific FZE, PO Box 17696, Jebel Ali, Dubai, United Arab Emirates. All claims must be accompanied by a sample of the Product fabric for laboratory testing and proof of place and date of purchase of the Product.
2. Gale Pacific will not be liable for any claim made under this warranty in respect of any Product in any of the following circumstances:
 - If the defect is contributed to or caused by any improper use of the Product or usage of the Product for purposes other than that for which the Product was designed or intended.
 - If the defect occurs wholly or partly as a result of any act or omission of any person other than Gale Pacific.
 - If the Product has been subjected to misuse, neglect, accident or abuse.
 - If the Product is altered or modified in any way unless such modification has been approved in writing by Gale Pacific.

- If the Product is erected, installed, or used in violation of, or in a manner that is inconsistent with, instructions or warnings furnished by Gale Pacific.

3. This warranty does not cover:

- Colour fading of the Product (even if due to exposure of the Product to ultra-violet rays);

Note: Fabrics containing Bright Green, Cherry Red, Orange, Royal Purple and Yellow yarn will be more susceptible to fading than other colours.

- A deterioration in the chemical composition of the fabric other than a deterioration in the chemical composition of the fabric that occurs as a direct result of a defect;
- Any damage to the Product caused or contributed to by exposing the Product to chemicals (including chlorine, halogens and organic solvents), highly acidic substances (with a pH less than 4), placing the Product near an open flame (including flames from a barbecue), tensioning the Product beyond its tear and tensile capabilities or mechanical friction;
- Damage caused by natural disaster including storms, hailstorm, earthquake, fire, lightening, vandalism, misuse or damage caused by animals; or Damage that results from accident or normal wear and tear.
Note: Shade sails or structures that are greater than 1.8 metres above a swimming pool should not be adversely affected by normal chlorine levels in a swimming pool. Direct contact with chlorine and other halogens can lead to degradation of the UV stabilisers and will negate the warranty.

4. This warranty is non-transferable and applies only to the initial purchaser of the installed Product.

5. This warranty applies to the fabric component only.

6. The Product comes with guarantees that cannot be excluded under Australian Consumer Law. Gale Pacific will be liable to replace or refund the Product for a major failure and for compensation for any other reasonably foreseeable loss or damage. In addition to the above warranty, the Competition and Consumer Act 2010 (Cth) and other state and territory legislation may imply guarantees, warranties or conditions or impose liability on Gale Pacific in relation to the Product or its supply which cannot, or can only to a limited extent, be excluded, restricted or modified. Except for those implied guarantees, warranties or conditions and such liability, and for the guarantee described above:

- All guarantees, warranties and conditions (whether express or implied, statutory or otherwise) relating to the Product or its supply are expressly excluded; and
- Gale Pacific will not be liable for any loss or damage suffered by any person (including the purchaser of the Product) in any way relating to or arising from the Product or its use (including loss or damage arising from the negligence of, or contributed to by, Gale Pacific).

If liability for breach by Gale Pacific of a guarantee, warranty or condition or any other liability imposed on Gale Pacific by legislation which cannot be excluded may be limited, Gale Pacific's liability is limited to the extent permitted by law, and if liability may be limited in any one of a number of ways, Gale Pacific's liability is limited in any one of the permitted ways chosen by Gale Pacific in its absolute discretion.

Gale Pacific Pty. Ltd

Commercial NinetyFive 340

10-Year Against UV Degradation

Commercial NinetyFive 340 is a high quality knitted shade fabric designed for tension structures, awnings, and shade covers. It is manufactured using high quality ingredients that have been selected for their resistance to ultra violet light degradation. The product is manufactured in Australia by Gale Pacific Limited ACN 082 263 778 ("Gale Pacific"), an ISO9002 accredited company.

Warranty

If, as a direct result of ultra-violet exposure, this product cracks, splits or tears ("defect") within 10 years after the date on which the product is purchased from Gale Pacific or an authorized distributor or agent of Gale Pacific, Gale Pacific will, at its option, replace the fabric component of the product (but not any other component) free of charge or refund the cost of such replacement. This warranty is subject to the following conditions and limitations:

1. All claims under this warranty must be made in writing addressed to Gale Pacific Limited, PO Box 892, Braeside, Victoria, 3195, Australia or, if the product was purchased in North America, to Gale Pacific USA, 285 West Central Parkway, Suite 1704, Altamonte Springs, Florida 32714, or, if the product was purchased in the Middle East, to Gale Pacific FZE, PO Box 17696, Jebel Ali, Dubai, United Arab Emirates. All claims must be accompanied by a sample of the fabric for laboratory testing and proof of place and date of purchase of the product.
2. Gale Pacific will not be liable for any claim made under this warranty in respect of any product in any of the following circumstances:
 - If the defect is contributed to or caused by any improper use of the product or usage of the product for purposes other than that for which the product was designed or intended.
 - If the defect occurs wholly or partly as a result of any act or omission of any person other than Gale Pacific.
 - If the product has been subjected to misuse, neglect, accident or abuse.
 - If the product is altered or modified in any way unless such modification has been approved in writing by Gale Pacific.
 - If the product is erected, installed, or used in violation of, or in a manner that is inconsistent with, instructions or warnings furnished by Gale Pacific.
3. This warranty does not cover:
 - Color fading of the product (even if due to exposure of the product to ultra-violet rays) or a deterioration in the chemical composition of the fabric other than a deterioration in the chemical composition of the fabric that occurs as a direct result of a defect; or
 - Any damage to the product caused or contributed to by exposing the product to chemicals (including chlorine, halogens and organic solvents), highly acidic substances (with a pH less than 4), placing the product near an open flame (including flames from a barbecue), tensioning the product beyond its tear and tensile capabilities or mechanical friction.

Note: Shade sails or structures that are greater than 1.8 meters above a swimming pool should not be adversely affected by normal chlorine levels in a swimming pool. Direct contact with chlorine and other halogens can lead to degradation of the UV stabilizers and will negate the warranty.

4. This warranty is not transferable, and applies only to the initial purchaser of the installed product.
5. This warranty applies to the fabric only.

In addition to the above warranty, the Trade Practices Act 1974 (Cth) and other state and territory legislation may imply warranties or conditions or impose liability on Gale Pacific in relation to the product or its supply, which cannot, or can only to a limited extent, be excluded, restricted or modified. Except for those implied warranties or conditions and such liability, and for the warranty described above:

- All warranties and conditions (whether express or implied, statutory or otherwise) relating to the product or its supply are expressly excluded; and
- Gale Pacific will not be liable for any loss or damage suffered by any person (including the purchaser of the product) in any way relating to or arising from the product or its use (including loss or damage arising from the negligence of, or contributed to by, Gale Pacific).

If liability for breach by Gale Pacific of a warranty or condition or any other liability imposed on Gale Pacific by legislation which cannot be excluded may be limited, Gale Pacific's liability is limited to the extent permitted by law, and if liability may be limited in any one of a number of ways, Gale Pacific's liability is limited in any one of the permitted ways chosen by Gale Pacific in its absolute discretion.

Commercial NinetyFive 340 FR is a high-quality knitted flame-retardant shade fabric designed for tension structures, awnings and shade covers (**Product**). The Product is manufactured using high quality ingredients that have been selected for their resistance to ultra violet light degradation. The Product is manufactured in China by Gale Pacific Limited ACN 082 263 778 (**Gale Pacific**), an ISO9001:2015 accredited company.

Warranty

If, as a direct result of ultra-violet exposure, the Product cracks, splits or tears ("**defect**") within 10 years after the date on which the Product was validly purchased from Gale Pacific or an authorised distributor or agent of Gale Pacific, Gale Pacific will, at its option, replace the fabric component of the Product (but not any other component) free of charge or refund the cost of such replacement. This warranty is subject to the following conditions and limitations:

1. All claims under this warranty must be made in writing addressed to Gale Pacific Limited, PO Box 892, Braeside, Victoria, 3195, Australia or, if the Product was purchased in North America, to Gale Pacific Inc, 285 West Central Parkway, Ste. 1704 Altamonte Springs, FL 32714 USA or, if the Product was purchased in the Middle East, to Gale Pacific FZE, PO Box 17696, Jebel Ali, Dubai, United Arab Emirates. All claims must be accompanied by a sample of the Product fabric for laboratory testing and proof of place and date of purchase of the Product.
2. Gale Pacific will not be liable for any claim made under this warranty in respect of any Product in any of the following circumstances:
 - If the defect is contributed to or caused by any improper use of the Product or usage of the Product for purposes other than that for which the Product was designed or intended.
 - If the defect occurs wholly or partly as a result of any act or omission of any person other than Gale Pacific.
 - If the Product has been subjected to misuse, neglect, accident or abuse.
 - If the Product is altered or modified in any way unless such modification has been approved in writing by Gale Pacific.

FABRIC WARRANTY INFORMATION

- If the Product is erected, installed, or used in violation of, or in a manner that is inconsistent with, instructions or warnings furnished by Gale Pacific.

3. This warranty does not cover:

- Color fading of the Product (even if due to exposure of the Product to ultra-violet rays);

Note: Fabrics containing Bright Green, Cherry Red, Orange, Royal Purple and Yellow yarn will be more susceptible to fading than other colors

- A deterioration in the chemical composition of the fabric other than a deterioration in the chemical composition of the fabric that occurs as a direct result of a defect;
- Any damage to the Product caused or contributed to by exposing the Product to chemicals (including chlorine, halogens and organic solvents), highly acidic substances (with a pH less than 4), placing the Product near an open flame (including flames from a barbecue), tensioning the Product beyond its tear and tensile capabilities or mechanical friction;
- Damage caused by natural disaster including storms, hailstorm, earthquake, fire, lightening, vandalism, misuse or damage caused by animals; or Damage that results from accident or normal wear and tear. Note: Shade sails or structures that are greater than 1.8 metres above a swimming pool should not be adversely affected by normal chlorine levels in a swimming pool. Direct contact with chlorine and other halogens can lead to degradation of the UV stabilisers and will negate the warranty.

4. This warranty is non-transferable and applies only to the initial purchaser of the installed Product.

5. This warranty applies to the fabric component only.

6. The Product comes with guarantees that cannot be excluded under Australian Consumer Law. Gale Pacific will be liable to replace or refund the Product for a major failure and for compensation for any other reasonably foreseeable loss or damage. In addition to the above warranty, the Competition and Consumer Act 2010 (Cth) and other state and territory legislation may imply guarantees, warranties or conditions or impose liability on Gale Pacific in relation to the Product or its supply which cannot, or can only to a limited extent, be excluded, restricted or modified. Except for those implied guarantees, warranties or conditions and such liability, and for the guarantee described above:

- All guarantees, warranties and conditions (whether express or implied, statutory or otherwise) relating to the Product or its supply are expressly excluded; and
- Gale Pacific will not be liable for any loss or damage suffered by any person (including the purchaser of the Product) in any way relating to or arising from the Product or its use (including loss or damage arising from the negligence of, or contributed to by, Gale Pacific).

If liability for breach by Gale Pacific of a guarantee, warranty or condition or any other liability imposed on Gale Pacific by legislation which cannot be excluded may be limited, Gale Pacific's liability is limited to the extent permitted by law, and if liability may be limited in any one of a number of ways, Gale Pacific's liability is limited in any one of the permitted ways chosen by Gale Pacific in its absolute discretion.

Gale Pacific Pty. Ltd

Comshade® Xtra

15-Year Limited Warranty

LIMITED WARRANTY FOR COMSHADE® XTRA

COMSHADE® XTRA ("fabric") is a unique and innovative Extra Heavy Duty knitted shade cloth designed for architectural shade sails and commercial shade structures.

Limited Warranty

Polyfab USA LLC ("Polyfab") warrants to the initial purchaser of the fabric that the fabric will not suffer from abnormal deterioration from ultra violet exposure for a period of 15 years from the date of installation. The term abnormal deterioration means deterioration exceeding 10% of the fabric's original strength for each year over the 15-year warranty period, and does not include normal wear and tear. If the fabric does suffer from abnormal deterioration during the 15-year warranty period, Polyfab will, at its option, either replace the fabric or supply equivalent fabric, or pay to the initial purchaser the cost of replacing the fabric or of acquiring equivalent fabric on the following pro-rata basis:

1-5 years 100% of the original fabric purchase price

6-10 years 50% of the original fabric purchase price

11-15 years 25% of the original fabric purchase price

POLYFAB UNDERTAKES NO RESPONSIBILITY FOR THE QUALITY OF THE FABRIC EXCEPT AS OTHERWISE PROVIDED HEREIN. THERE IS NO IMPLIED WARRANTY THAT THE FABRIC SHALL BE MERCHANTABLE. POLYFAB ASSUMES NO RESPONSIBILITY THAT THE FABRIC WILL BE FIT FOR ANY PARTICULAR PURPOSE FOR WHICH YOU MAY BE BUYING THE FABRIC, EXCEPT AS OTHERWISE PROVIDED HEREIN. THERE IS NO IMPLIED WARRANTY THAT THE FABRIC SHALL BE FIT FOR ANY PARTICULAR PURPOSE. YOU ACKNOWLEDGE THAT YOU ARE NOT RELYING ON POLYFAB'S SKILL OR JUDGMENT TO SELECT OR FURNISH THE FABRIC SUITABLE FOR ANY PARTICULAR PURPOSE AND THAT THERE IS NO WARRANTY WHICH EXTENDS BEYOND THAT PROVIDED HEREIN.

Exclusions and Product Disclaimers

This limited warranty does not cover, and Polyfab is not liable for, abnormal deterioration of fabric occurring due to any of the following circumstances:

- Exposure to pollution, chemicals, solvents, cleaning agents or other substances that are harmful to the performance of the fabric.
- Faulty installation of the fabric or faulty design or manufacture of any structure to which the fabric is attached.
- Improper storing, handling, bracing, use of the fabric or use contrary to the specifications for the fabric.
- Color fading. Color fading is normal over time. Fabric colors containing red or yellow pigments have a tendency to fade more than others. Color Fading is not abnormal deterioration or a loss of strength/breakdown and is not covered by this warranty.
- Minor color variation from fabric samples.
- Minor visual imperfection due to the manufacturing processes.
- The negligent act or omission of any person.
- Misuse, neglect or abuse of the fabric.
- During installation, the fabric should not be subject to "pre-stressed" loading in excess of 20%.
- Wind flap and storm damages are major causes of abnormal deterioration and premature breakdown in any quality outdoor fabric. It is therefore critical that the fabric be installed firm and tight and maintained in a firm condition. Fabric that is allowed to flap and cause rubbing and abrasion as a result of excessive and continual wind flap or storm damage on structural poles and support wires is mechanical breakdown and not covered by this warranty.

- The fabric should be supported by using appropriate strength poles and footings as determined by a professional structural engineer, and fabricated and installed by a qualified contractor in accordance with local building codes.
- Technical testing information supplied by Polyfab is sourced from third-party testing authorities, and tolerances may vary by as much as 10%.

Limitation of Liability

Polyfab's obligations and liabilities are expressly and exclusively limited to those set forth herein. EXCEPT AS OTHERWISE PROVIDED FOR HEREIN, POLYFAB SHALL NOT BE LIABLE FOR DIRECT, INDIRECT, INCIDENTAL, CONSEQUENTIAL, OR SPECIAL DAMAGES, INCLUDING LOSS OF PROFITS OR OTHER COMMERCIAL LOSSES, INCLUDING CLAIMS BASED ON NEGLIGENCE OR STRICT LIABILITY. IN THE EVENT POLYFAB IS FOUND TO BE LIABLE FOR ANY DAMAGE OR LOSS RELATED TO THE FABRIC, SUCH LIABILITY SHALL BE LIMITED TO THE ORIGINAL PURCHASE PRICE OF THE FABRIC.

Claims Procedure

All claims under this limited warranty must be made in writing, within 30 days from the date upon which the defect became known to the initial purchaser, to Polyfab USA LLC, 1601 N. Sepulveda Blvd. #392, Manhattan Beach, CA 90266. Claims must be supported by a sample of the defective fabric together with proof of purchase, including the date and location of fabric purchase, and photos of the finished installation.

Comtex®+

12-Year Against UV Degradation

POLYTEX+® and COMTEX+® EXTRA HEAVY DUTY KNITTED

SHADECLOTH ("fabric") are premium fabrics designed for use in shade structures and shade sails.

Limited Warranty

Polyfab USA LLC ("Polyfab") warrants to the initial purchaser of the fabric that the fabric will not suffer from abnormal deterioration from ultra violet exposure for a period of 12 years from the date of installation. The term abnormal deterioration means (i) deterioration exceeding 5% of the fabric's original tensile and tear strength (both in warp and weft direction) caused by ultra violet radiation and the chemical processes that ultra violet radiation initiates in the plastics and the additives alone for each year over the 12-year warranty period, and does not include normal wear and tear, or (ii) the fabric has mechanically failed during the actual application in the shading environment intended for such fabric. The maximum working load of the fabric should not exceed 60% of the break strength in both warp and weft directions. If the fabric does suffer from abnormal deterioration during the 12-year warranty period, Polyfab will, at its option, either replace the fabric or supply equivalent fabric.

POLYFAB UNDERTAKES NO RESPONSIBILITY FOR THE QUALITY OF THE FABRIC EXCEPT AS OTHERWISE PROVIDED HEREIN. THERE IS NO IMPLIED WARRANTY THAT THE FABRIC SHALL BE MERCHANTABLE. POLYFAB ASSUMES NO RESPONSIBILITY THAT THE FABRIC WILL BE FIT FOR ANY PARTICULAR PURPOSE FOR WHICH YOU MAY BE BUYING THE FABRIC, EXCEPT AS OTHERWISE PROVIDED HEREIN. THERE IS NO IMPLIED WARRANTY THAT THE FABRIC SHALL BE FIT FOR ANY PARTICULAR PURPOSE. YOU ACKNOWLEDGE THAT YOU ARE NOT RELYING ON POLYFAB'S SKILL OR JUDGMENT TO SELECT OR FURNISH THE FABRIC SUITABLE FOR ANY PARTICULAR PURPOSE AND THAT THERE IS NO WARRANTY WHICH EXTENDS BEYOND THAT PROVIDED HEREIN.

Exclusions and Product Disclaimers

This limited warranty does not cover, and Polyfab is not liable for, abnormal deterioration of fabric occurring due to any of the following circumstances:

- Exposure to pollution, chemicals, solvents, cleaning agents or other substances that are harmful to the performance of the fabric.

- Faulty installation of the fabric or faulty design or manufacture of any structure to which the fabric is attached.
- Improper storing, handling, bracing, use of the fabric or use contrary to the specifications for the fabric.
- Color fading. Color fading is normal over time. Fabric colors containing red or yellow pigments have a tendency to fade more than others. Color Fading is not abnormal deterioration or a loss of strength/breakdown and is not covered by this warranty.
- Minor color variation from fabric samples.
- Minor visual imperfection due to the manufacturing processes.
- The negligent act or omission of any person.
- Misuse, neglect or abuse of the fabric.
- During installation, the fabric should not be subject to "pre-stressed" loading in excess of 20%.
- Wind flap and storm damages are major causes of abnormal deterioration and premature breakdown in any quality outdoor fabric. It is therefore critical that the fabric be installed firm and tight and maintained in a firm condition. Fabric that is allowed to flap and cause rubbing and abrasion as a result of excessive and continual wind flap or storm damage on structural poles and support wires is mechanical breakdown and not covered by this warranty.
- The fabric should be supported by using appropriate strength poles and footings as determined by a professional structural engineer, and fabricated and installed by a qualified contractor in accordance with local building codes.
- Technical testing information supplied by Polyfab is sourced from third-party testing authorities, and tolerances may vary by as much as 10%.

Limitation of Liability

Polyfab's obligations and liabilities are expressly and exclusively limited to those set forth herein. EXCEPT AS OTHERWISE PROVIDED FOR HEREIN, POLYFAB SHALL NOT BE LIABLE FOR DIRECT, INDIRECT, INCIDENTAL, CONSEQUENTIAL, LABOR COSTS OR SPECIAL DAMAGES, INCLUDING LOSS OF PROFITS OR OTHER COMMERCIAL LOSSES, INCLUDING CLAIMS BASED ON NEGLIGENCE OR STRICT LIABILITY. IN THE EVENT POLYFAB IS FOUND TO BE LIABLE FOR ANY DAMAGE OR LOSS RELATED TO THE FABRIC, SUCH LIABILITY SHALL BE LIMITED TO THE ORIGINAL PURCHASE PRICE OF THE FABRIC.

Claims Procedure

All claims under this limited warranty must be made in writing, within 30 days from the date upon which the defect became known to the initial purchaser, to Polyfab USA LLC, 1601 N. Sepulveda Blvd. #392, Manhattan Beach, CA 90266. Claims must be supported by a sample of the defective fabric together with proof of purchase, including the date and location of fabric purchase, and photos of the finished installation.

Cooley-Brite® / Cooley-Brite® Lite

8-Year

8-Year Limited Warranty*

Cooley Sign & Digital Products (CSDP) warrants to its customer, an electrical sign company engaged in fabricating and furnishing signs to various businesses, that standard colors of COOLEY- BRITE® and COOLEY-BRITE® LITE, when used as components for internally illuminated (90° vertical exposure application) displays will not fade excessively or undergo excessive color degradation or mildew staining to the extent that the sign becomes ineffective for its intended advertising or identification purpose when viewed at normal distance for a period of eight (8) years. If the material does not perform under the above conditions, (CSDP) will supply to the sign company sufficient materials to produce a new duplicate face at the then current price and will grant an allowance equal to 1/60th of the original purchase price for each month remaining in the initial eight-year period of use.

If the sign face is properly installed and maintained, and within the first eight (8) years from the date of purchase of materials, said face should be destroyed or severely damaged by a "blowout" (defined as a separation of a sign face from its cabinet due to wind pressure which does not affect the display cabinet or structure), and when such "blowout" is caused solely and completely by failure of CSDP sign face materials, and not in whole or part by improper workmanship, installation, materials, nor bending or twisting of the display cabinet, attachment devices, or structure, nor to the vandalism or malicious mischief, hurricanes, tornadoes, gales or other acts of God, CSDP will furnish to the sign company sufficient materials to produce a new duplicate face at then current price and will grant an allowance equal to 1/60th of the original purchase price for each month remaining in the initial eight-year period of use.

Cooley Sign & Digital Products further warrants that approved pressure sensitive vinyl* when applied to COOLEY- BRITE® and COOLEY-BRITE® LITE, will not peel off under normal weathering conditions for a period of eight years. If the pressure sensitive vinyl should peel off under the above conditions, Cooley Sign & Digital Products will supply new materials to restore the sign at then current prices and will grant an allowance 1/60th of the original purchase price for each month remaining in the initial eight year period of use.

The foregoing is not applicable to sign faces which have been damaged by chemicals, airborne particle or dirt, bird droppings, or water run-off, nor to the sign faces damaged by willful neglect or negligent mishandling, nor to sign faces which excessively fade or discolor due to use of non-recommended decorating techniques.

CSDP's liability under the warranty is limited to replacement as stated herein and CSDP will have no liability for any indirect or consequential expenses or losses. No replacement will be made for any sign face which has been in use for more than the initial eight-year period.

This warranty is given in lieu of all other warranties expressed or implied and constitutes CSDP's sole eight (8) year warranty for COOLEY- BRITE® and COOLEY-BRITE® LITE, for sign usage.

COOLEY-BRITE® AND COOLEY-BRITE® LITE FOR BACKLIT AWNINGS

Cooley Sign & Digital Products (CSDP) warrants to its customers that standard colors of COOLEY- BRITE® and COOLEY-BRITE® LITE when used in a backlit awning application, and when fabricated, installed and maintained according to instructions, will not fade excessively or undergo excessive color degradation or mildew staining to the extent that the awning becomes ineffective for its intended advertising or identification purpose when viewed at a normal distance for a period of eight (8) years. If the material does not perform under the above conditions, CSDP will supply to the awning company sufficient COOLEY- BRITE® and COOLEY-BRITE® LITE material to produce a new duplicate awning at the

then current price and will grant an allowance equal to 1/60th of the original purchase price for each month remaining in the initial eight year period of use.

Cooley Sign & Digital Products further warrants that approved pressure sensitive vinyl when applied to COOLEY- BRITE® and COOLEY-BRITE® LITE will not peel off under normal weathering conditions for a period of five years. If the pressure sensitive vinyl should peel off under the above conditions, Cooley Sign & Digital Products will supply new material to restore the awning at the then current prices and will grant an allowance equal to 1/60th of the original purchase price of each month remaining in the initial five year period of use.

The foregoing is not applicable to awnings which have been damaged by chemicals, airborne particles or dirt, bird droppings, or water run-off, nor to awnings damaged by willful neglect or negligent mishandling, nor to awnings which excessively fade or discolor due to use of non-recommended decorating techniques. CSDP's, liability under the warranty is limited to replacement as stated herein and CSDP will have no liability for any indirect or consequential expenses or losses. No replacement will be made for any awning which has been in use for more than the initial five year period.

This warranty is given in lieu of all other warranties expressed or implied and constitutes CSDP's sole eight (8) year warranty for COOLEY- BRITE® and COOLEY-BRITE® LITE when used for backlit awnings.

** 8-year warranty period begins with the date of the fabrication, but it will not extend more than 8 1/2 years from the date of manufacture by CSDP. Shelf-life is 2 years from date of manufacture by CSDP*

Cooley Sign & Awning Products

Cooley-Brite® II with Coolthane® EPS

10-Year

10-Year Limited Warranty*

Cooley Sign & Digital Products (CSDP) warrants to its customer, an electrical sign company engaged in fabricating and furnishing signs and awnings to various businesses, that COOLEY BRITE® II when coated at the factory, with EPS clear protective top coating and used as components of internally illuminated displays will not fade excessively or undergo excessive color degradation to the extent that the display becomes ineffective for its intended advertising or identification purpose when viewed at a normal distance of 50 ft. for a period of 10 years.

CSDP warrants that COOLEY BRITE® II when coated at the factory with EPS clear protective top coating will remain cleanable when using CSDP's cleaning products or approved equivalents with approved cleaning techniques.

Any eradicated areas of COOLEY BRITE® II must be re- sprayed with COOLTHANE® spray or other approved decorating methods.

If the material fades or undergoes excessive color degradation as described above, CSDP will supply to the sign or awning company sufficient COOLEY BRITE® II material to produce a new duplicate sign or awning at the then current price and will grant an allowance equal to 1/96th of the original purchase price for each month remaining in the 10-year period of use.

The foregoing is not applicable to sign faces or awnings, which have been damaged by chemicals, neglect or mishandling, nor to signs or awnings which excessively fade or discolor due to use of non-recommended decorating or cleaning techniques.

CSDP's liability under warranty is limited to replacement as stated herein and CSDP will have no liability for any incidental or consequential losses or expenses. No replacement will be made for any sign or awning, which has been in use for more than the 10-year period.

CSDP will have no obligation under this warranty until all bills for material have been paid in full. During the term of this warranty, CSDP employees or agents shall have free access to the signs and awnings during regular business hours.

THIS WARRANTY IS GIVEN IN LIEU OF ALL WARRANTIES EXPRESS OR IMPLIED AND CONSTITUTES CSPD'S SOLE TEN (10) YEAR WARRANTY FOR COOLEY BRITE II WHEN USED IN BACKLIT SIGNS OR AWNINGS.

THERE IS NO WARRANTY OF MERCHANTABILITY, WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE OR OTHER WARRANTY EXPRESS OR IMPLIED OTHER THAN AS SET FORTH IN THIS WARRANTY. IN ADDITION, THERE ARE NO REMEDIES AVAILABLE OTHER THAN THE REMEDIES SET FORTH IN THIS LIMITED WARRANTY.

** 10-year warranty period begins with the date of the fabrication, but it will not extend more than 10 1/2 years from the date of manufacture by CSDP. Shelf-life is 2 years from date of manufacture by CSDP*

Covershade™ Agricultural Mesh

10-Year Limited Warranty

LIMITED WARRANTY FOR COVERSHADE™

COVERSHADE™ ("fabric") is a high quality knitted monofilament shade cloth designed for industrial, agricultural, construction and trucking covers and shades.

Limited Warranty

Polyfab USA LLC ("Polyfab") warrants to the initial purchaser of the fabric that the fabric will not suffer from abnormal deterioration from ultra violet exposure for a period of 10 years from the date of installation. The term abnormal deterioration means deterioration exceeding 10% of the fabric's original strength for each year over the 10-year warranty period, and does not include normal wear and tear. If the fabric does suffer from abnormal deterioration during the 10-year warranty period, Polyfab will, at its option, either replace the fabric or supply equivalent fabric, or pay to the initial purchaser the cost of replacing the fabric or of acquiring equivalent fabric on the following pro-rata basis:

- 1st year 100% of the original fabric purchase price
- 2nd year 90% of the original fabric purchase price
- 3rd year 80% of the original fabric purchase price
- 4th year 70% of the original fabric purchase price
- 5th year 60% of the original fabric purchase price
- 6th year 50% of the original fabric purchase price
- 7th year 40% of the original fabric purchase price
- 8th year 30% of the original fabric purchase price
- 9th year 20% of the original fabric purchase price
- 10th year 10% of the original fabric purchase price

POLYFAB UNDERTAKES NO RESPONSIBILITY FOR THE QUALITY OF THE FABRIC EXCEPT AS OTHERWISE PROVIDED HEREIN. THERE IS NO IMPLIED WARRANTY THAT THE FABRIC SHALL BE MERCHANTABILITY. POLYFAB ASSUMES NO RESPONSIBILITY THAT THE FABRIC WILL BE FIT FOR ANY PARTICULAR PURPOSE FOR WHICH YOU MAY BE BUYING THE FABRIC, EXCEPT AS OTHERWISE PROVIDED HEREIN. THERE IS NO IMPLIED WARRANTY THAT THE FABRIC SHALL BE FIT FOR ANY PARTICULAR PURPOSE. YOU ACKNOWLEDGE THAT YOU ARE NOT RELYING ON POLYFAB'S SKILL OR JUDGMENT TO SELECT OR FURNISH

THE FABRIC SUITABLE FOR ANY PARTICULAR PURPOSE AND THAT THERE IS NO WARRANTY WHICH EXTENDS BEYOND THAT PROVIDED HEREIN.

Exclusions and Product Disclaimers

This limited warranty does not cover, and Polyfab is not liable for, abnormal deterioration of fabric occurring due to any of the following circumstances:

- Exposure to pollution, chemicals, solvents, cleaning agents or other substances that are harmful to the performance of the fabric.
- Faulty installation of the fabric or faulty design or manufacture of any structure to which the fabric is attached.
- Improper storing, handling, bracing, use of the fabric or use contrary to the specifications for the fabric.
- Color fading. Color fading is normal over time. Fabric colors containing red or yellow pigments have a tendency to fade more than others. Color Fading is not abnormal deterioration or a loss of strength/breakdown and is not covered by this warranty.
- Minor color variation from fabric samples.
- Minor visual imperfection due to the manufacturing processes.
- The negligent act or omission of any person.
- Misuse, neglect or abuse of the fabric.
- During installation, Polyfab shade cloth should not be subject to "pre-stressed" loading in excess of 20%.
- Wind flap and storm damages are major causes of abnormal deterioration and premature breakdown in any quality outdoor fabric. It is therefore critical that the fabric be installed firm and tight and maintained in a firm condition. Fabric that is allowed to flap and cause rubbing and abrasion as a result of excessive and continual wind flap or storm damage on structural poles and support wires is mechanical breakdown and not covered by this warranty.
- The fabric should be supported by using appropriate strength poles and footings as determined by a professional structural engineer, and fabricated and installed by a qualified contractor in accordance with local building codes.
- Technical testing information supplied by Polyfab is sourced from third-party testing authorities, and tolerances may vary by as much as 10%.

Limitation of Liability

Polyfab's obligations and liabilities are expressly and exclusively limited to those set forth herein. EXCEPT AS OTHERWISE PROVIDED FOR HEREIN, POLYFAB SHALL NOT BE LIABLE FOR DIRECT, INDIRECT, INCIDENTAL, CONSEQUENTIAL, OR SPECIAL DAMAGES, INCLUDING LOSS OF PROFITS OR OTHER COMMERCIAL LOSSES, INCLUDING CLAIMS BASED ON NEGLIGENCE OR STRICT LIABILITY. IN THE EVENT POLYFAB IS FOUND TO BE LIABLE FOR ANY DAMAGE OR LOSS RELATED TO THE FABRIC, SUCH LIABILITY SHALL BE LIMITED TO THE ORIGINAL PURCHASE PRICE OF THE FABRIC.

Claims Procedure

All claims under this limited warranty must be made in writing, within 30 days from the date upon which the defect became known to the initial purchaser, to Polyfab USA LLC, 1601 N. Sepulveda Blvd. #392, Manhattan Beach, CA 90266. Claims must be supported by a sample of the defective fabric together with proof of purchase, including the date and location of fabric purchase, and photos of the finished installation.

Dickson® North American Collection

10-Year

LIMITED WARRANTY TERMS & CONDITIONS

DICKSON NORTH AMERICAN COLLECTION 10-YEAR LIMITED WARRANTY

Dickson warrants the rot-proof properties and color fastness (7/8 minimum color fastness under exposure to ultra-violet rays and bad weather conditions, according to the NF EN ISO 105 B02 and NF EN ISO 105 B04 standards) of its

DICKSON NORTH AMERICAN COLLECTION fabrics for 10 years (starting from the date on which the awning is purchased).

This warranty is valid under the following terms and conditions:

- For 8 years, Dickson shall either replace free of charge or, at its convenience, reimburse the invoice value of the section of fabric recognized as faulty, excluding any costs or any other compensation for any reason whatsoever.
- In the event of a justified complaint after the 8th year, the warranty will consist of a discount on the purchase of a new fabric: 30% during the 9th year and 15% during the 10th year, at the rate applicable on the day of the complaint.
- Any complaint must be sent within ten days of the defect being noticed, accompanied by the purchase invoice, via registered mail with confirmation of receipt to: Dickson – Customer Service – BP 109 – 59443 Wasquehal Cedex France.
- The fabric must be kept available to the experts of Dickson or its insurance company.
- Replacement or reimbursement of the defective fabric does not extend the duration of the original warranty.

This warranty does not cover:

- The benefits not performed by Dickson: sewing of the fabric, etc.
- Parts of the awning other than the fabric manufactured by Dickson: valance, frame, etc.
- Imperfections such as mottling, waffling, folds, etc. due to handling during preparation of the awning or its installation
- Defects due to the aging and normal wear of the fabric
- The consequences of the conditions of installation, the environment or the use not corresponding to the normal conditions, uses of the profession, standards prescribed by Dickson or the destined use of the fabric
- The repair of damage or defects in the fabric resulting from accidents or negligence not attributable to Dickson or resulting from force majeure.

Expressly excluded in particular is any deterioration due to:

- Faulty maintenance or the use of unsuitable products or instruments: no detergent, chemical product or solvent can be used, nor any scraper or other instrument that may damage the surface
- Lightning or other unusual weather conditions
- Atmospheric or phytosanitary pollution
- Soiling caused by animals
- Faulty assembly or handling by the user, the projection of various products, hanging objects on the fabric, falling objects, bumps, road accidents, vandalism, burns from cigarettes or other sources, fire.

This limited warranty shall under no circumstances pose an obstacle to the legal guarantees.

Dickson

Dickson® is a registered trademark of Glen Raven, Inc.

FIREST®

5-Year

This limited warranty is valid only if a copy of the invoice for the item purchased is submitted showing the date of original purchase.

What is covered? This limited warranty covers the fabric becoming unserviceable because of loss of color or strength from normal usage and exposure conditions, including sunlight, mildew and atmospheric chemicals. Consumer is responsible for normal care and cleaning of the fabric. This warranty covers fabric only. Glen Raven's liability is expressly limited to this warranty.

How long is the coverage period? FIREST limited warranty coverage runs for five years (60 months) from the date of original installation.

What will Glen Raven do? Glen Raven will grant an allowance equal to 1/60th the original purchase price for each month remaining in the five year warranty period towards the purchase of all fabric required to produce a new duplicate awning.

How can you get service? Call the dealer or retailer from whom you purchased the product, to inspect the claim. They, in turn, will contact the manufacturer of the item purchased. The manufacturer will then contact Glen Raven and secure replacement fabric for you.

FR Comshade®

10-Year Limited Warranty

LIMITED WARRANTY FOR FR COMSHADE®

FR COMSHADE® PREMIUM FLAME RETARDANT KNITTED SHADECLOTH ("fabric") is a fabric designed for use in shade structures and shade sails.

Limited Warranty

Polyfab USA LLC ("Polyfab") warrants to the initial purchaser of the fabric that the fabric will not suffer from abnormal deterioration from ultra violet exposure for a period of 10 years from the date of installation. The term abnormal deterioration means (i) deterioration exceeding 5% of the fabric's original tensile and tear strength (both in warp and weft direction) caused by ultra violet radiation and the chemical processes that ultra violet radiation initiates in the plastics and the additives alone for each year over the 10-year warranty period, and does not include normal wear and tear, or (ii) the fabric has mechanically failed during the actual application in the shading environment intended for such fabric. The maximum working load of the fabric should not exceed 60% of the break strength in both warp and weft directions. If the fabric does suffer from abnormal deterioration during the 10-year warranty period, Polyfab will, at its option, either replace the fabric or supply equivalent fabric, or pay to the initial purchaser the cost of replacing the fabric or of acquiring equivalent fabric on the following pro-rata basis:

1-5 years 100% of the original fabric purchase price

5-7 years 50% of the original fabric purchase price

7-10 years 25% of the original fabric purchase price

POLYFAB UNDERTAKES NO RESPONSIBILITY FOR THE QUALITY OF THE FABRIC EXCEPT AS OTHERWISE PROVIDED HEREIN. THERE IS NO IMPLIED WARRANTY THAT THE FABRIC SHALL BE MERCHANTABLE. POLYFAB ASSUMES NO RESPONSIBILITY THAT THE FABRIC WILL BE FIT FOR ANY PARTICULAR PURPOSE FOR WHICH YOU MAY BE BUYING THE FABRIC, EXCEPT AS OTHERWISE PROVIDED HEREIN. THERE IS NO IMPLIED WARRANTY THAT THE FABRIC SHALL BE FIT FOR ANY PARTICULAR PURPOSE. YOU ACKNOWLEDGE THAT YOU ARE NOT RELYING ON POLYFAB'S SKILL OR JUDGMENT TO SELECT

OR FURNISH THE FABRIC SUITABLE FOR ANY PARTICULAR PURPOSE AND THAT THERE IS NO WARRANTY WHICH EXTENDS BEYOND THAT PROVIDED HEREIN.

Exclusions and Product Disclaimers

This limited warranty does not cover, and Polyfab is not liable for, abnormal deterioration of fabric occurring due to any of the following circumstances:

- Exposure to pollution, chemicals, solvents, cleaning agents or other substances that are harmful to the performance of the fabric.
- Faulty installation of the fabric or faulty design or manufacture of any structure to which the fabric is attached.
- Improper storing, handling, bracing, use of the fabric or use contrary to the specifications for the fabric.
- Color fading. Color fading is normal over time. Fabric colors containing red or yellow pigments have a tendency to fade more than others. Color Fading is not abnormal deterioration or a loss of strength/breakdown and is not covered by this warranty.
- Minor color variation from fabric samples.
- Minor visual imperfection due to the manufacturing processes.
- The negligent act or omission of any person.
- Misuse, neglect or abuse of the fabric.
- During installation, the fabric should not be subject to "pre-stressed" loading in excess of 20%.
- Wind flap and storm damages are major causes of abnormal deterioration and premature breakdown in any quality outdoor fabric. It is therefore critical that the fabric be installed firm and tight and maintained in a firm condition. Fabric that is allowed to flap and cause rubbing and abrasion as a result of excessive and continual wind flap or storm damage on structural poles and support wires is mechanical breakdown and not covered by this warranty.
- The fabric should be supported by using appropriate strength poles and footings as determined by a professional structural engineer, and fabricated and installed by a qualified contractor in accordance with local building codes.
- Technical testing information supplied by Polyfab is sourced from third-party testing authorities, and tolerances may vary by as much as 10%. Limitation of Liability

Polyfab's obligations and liabilities are expressly and exclusively limited to those set forth herein. EXCEPT AS OTHERWISE PROVIDED FOR HEREIN, POLYFAB SHALL NOT BE LIABLE FOR DIRECT, INDIRECT, INCIDENTAL, CONSEQUENTIAL, OR SPECIAL DAMAGES, INCLUDING LOSS OF PROFITS OR OTHER COMMERCIAL LOSSES, INCLUDING CLAIMS BASED ON NEGLIGENCE OR STRICT LIABILITY. IN THE EVENT POLYFAB IS FOUND TO BE LIABLE FOR ANY DAMAGE OR LOSS RELATED TO THE FABRIC, SUCH LIABILITY SHALL BE LIMITED TO THE ORIGINAL PURCHASE PRICE OF THE FABRIC.

Claims Procedure

All claims under this limited warranty must be made in writing, within 30 days from the date upon which the defect became known to the initial purchaser, to Polyfab USA LLC, 1601 N. Sepulveda Blvd. #392, Manhattan Beach, CA 90266. Claims must be supported by a sample of the defective fabric together with proof of purchase, including the date and location of fabric purchase, and photos of the finished installation.

HarborTime® Edge

7-Year

HarborTime® Edge is warranted for a period of seven years (7) from the date of the installation in a marine cover, top or enclosure end uses. The warranty protects the end user from excessive loss of color or strength from normal exposure conditions including sunlight, mildew, rot and normal atmospheric chemicals which may render the fabric unserviceable. This warranty does not cover seam leakage, damage from Acts of God, vandalism, neglect or improper cleaning and improper use. Please see your Trivantage®, LLC representative for cleaning instructions.

In the unlikely event of fabric failure during the warranty period Graniteville Specialty Fabrics will supply the end product fabricator or Trivantage, LLC new fabric free of charge equal to the fabric used in the end use item. Labor, installation and other component part costs of the end use item are not covered by this warranty. Graniteville Specialty Fabrics reserves the right to inspect the fabric or made up item of any warranty claim.

Except for the explicit warranties, herein, no other warranty, expressed or implied, including any implied warranty of merchantability of fitness for a particular use is made by Graniteville Specialty Fabrics. In no event shall Graniteville Specialty Fabrics be liable for damages to any person or property, or any consequential or incidental damages.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of consequential or incidental damage, so, the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights and you may have other rights which vary from state to state.

To get service, call the dealer from whom you purchased the product. The dealer will inspect the installation and process the claim through Trivantage, LLC and Graniteville Specialty Fabrics.

Herculite Natura®

8-Year

8-Year Limited Warranty

Herculite® Natura™ Awning Fabrics are guaranteed for a period of eight (8) years from date of original installation against rot or excessive deterioration, mildew stains, excessive loss of strength or color change if they occur in normal use and exposure, including sunlight and normal atmospheric chemicals. (Some color change is unavoidable due to ultraviolet rays and chemicals in the atmosphere).

In the unlikely event of failure of fabric during the eight (8) year period from date of original installation, Herculite Products Inc. will guarantee 100% replacement of the fabric to the original owner of the awning for the first five (5) years. Coverage is prorated for the three (3) year remainder of the warranty with a credit of 1/96th being applied toward the purchase of replacement material for each month remaining on the warranty. Herculite's liability will be limited to the replacement of the fabric only and does not cover labor, installation or decorations.

This warranty protects you against damage to the fabric accessories used under normal conditions. It does not cover damage to the fabric from acts of God, vandalism, neglect or improper use. This warranty requires that the user implement proper care and maintenance as defined within Natura, Handling and Maintenance Instructions.

FABRIC WARRANTY INFORMATION

This warranty is in lieu of all warranties expressed or implied, and, Herculite Products Inc. will not be liable for any consequential or incidental damage. Any implied warranties imposed by law are limited in time to the duration of the expressed warranty.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damage, so, the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights, which vary from state to state.

Hydrofend®

5-Year / 3-Year Deep Maroon and Radiant Red

This limited warranty covers the fabric becoming unserviceable because of loss of color or strength from normal usage and exposure conditions, including sunlight, mildew and atmospheric chemicals. This limited warranty coverage runs for 5 years* from the date of original installation. Consumer is responsible for normal care and cleaning of the fabric. The warranty covers fabric only and not improper installation. We will supply new fabric to replace the fabric that becomes unserviceable. The liability of Trivantage® or its affiliates is expressly limited to this warranty.

To make a claim, contact the fabricator from whom you purchased the product for an inspection. The fabricator will contact Trivantage to secure replacement fabric.

Hydrofend is a registered trademark of Glen Raven, Inc.
Trivantage, LLC

Main Street® +

5-Year

Limited Warranty

Main Street®+ is warranted for a period of five years from the date of the original installation against excessive loss of color or strength from normal exposure conditions including sunlight, mildew, rot and normal atmospheric chemicals which may render the fabric unserviceable. This warranty does not cover damage from Acts of God, vandalism, neglect or improper use.

In the unlikely event of fabric failure during the warranty period, Graniteville Specialty Fabrics will supply you, the end consumer, new fabric free of charge working through Trivantage and your dealer. Labor and installation are not covered by this warranty. Graniteville Specialty Fabrics reserves the right to inspect the fabric or made up item of any warranty claim.

Except for the explicit warranties, herein, no other warranty, expressed or implied, including any implied warranty of merchantability of fitness for a particular use is made by Graniteville Specialty Fabrics. In no event shall Graniteville Specialty Fabrics be liable for damages to any person or property, or any consequential or incidental damages.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of consequential or incidental damage, so, the above limitation or exclusion may not apply to you. Nautolex® Capitano Marine Vinyl Upholstery, SofDura and Voyager®

5-Year

Marine Upholstery Products for OEM

Limited Five Year Warranty

Subject to the limitations and conditions described below, OMNOVA Solutions Inc. warrants to its customers who are manufacturers of boats, seats or trim component parts ("Customers") that OMNOVA will replace Nautolex® marine upholstery products, topping and trim ("Product") if they fail during normal use due to defects in materials or workmanship during the period of five years from a Customer's retail sale of a boat, seat or completed trim component part containing product.

During the first three (3) years of this warranty, OMNOVA will replace defective Product and pay competitive labor rates for reupholstery of the seat and/or trim, with a limit of twenty dollars per linear yard of Product. During the fourth and fifth years, OMNOVA will supply replacement product, but will not pay for labor or other costs. THE REMEDY DESCRIBED IN THIS PARAGRAPH IS THE SOLE AND EXCLUSIVE REMEDY FOR DEFECTS IN NAUTOLEX PRODUCTS. IN NO EVENT SHALL OMNOVA HAVE ANY LIABILITY FOR ANY LOST PROFITS OR INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, PUNITIVE, OR EXEMPLARY DAMAGES, EVEN IF OMNOVA HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, INCLUDING BUT NOT LIMITED TO ANY DAMAGES ARISING FROM OR RELATING TO ANY INJURY TO PERSONS; LOSS OF VALUE OR USE (INCLUDING WITHOUT LIMITATION, DIMINUTION IN VALUE); DAMAGE TO OR LOSS OF OTHER PROPERTY; CLAIMS MADE BY END-USERS; OR COST OF SUBSTITUTE MATERIALS.

This warranty specifically excludes (a) staining resulting from mildew growth on adjacent boat components, bleeding from adjacent boat components or contact with suntan lotion; (b) degradation due to the presence of amines in adjacent urethane foam cushioning; (c) damage caused by improper installation or failure of the seat and/or trim parts; and (d) deterioration due to the use of improper cleaning materials or procedures.

OMNOVA MAKES NO OTHER WARRANTY, EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE.

Nautolex® Marine Flooring

2-Year Limited

3-Year Limited Warranty

Subject to the limitations and conditions described below, OMNOVA

Solutions Inc. warrants to its customers who are manufacturers of boats ("Customers") that OMNOVA will replace Nautolex® marine flooring products ("Product") if such products fail during normal use due to defects in materials or workmanship during the period of thirty six (36) months from the first retail sale of a boat containing such flooring as original equipment. This warranty extends only to customers who are manufacturers of boats.

If Product fails to meet this warranty, OMNOVA will replace defective

Product and pay competitive labor rates for re-installation of the Product, with a limit of twenty dollars per linear yard of Product. THE REMEDY DESCRIBED IN THIS PARAGRAPH IS THE SOLE AND EXCLUSIVE REMEDY FOR DEFECTS IN NAUTOLEX PRODUCTS. Under no circumstances shall OMNOVA be liable for incidental or consequential damages.

This warranty specifically excludes (a) damage caused by abrasive elements; (b) damage caused by improper installation; (c) damage or deterioration due to the use of improper cleaning materials or procedures; and (d) damage caused by adhesives.

OMNOVA MAKES NO OTHER WARRANTY, EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE.

O'Sullivan® Films (O'Sea®, Regalite®, Regalite® Fenestra)

2-Year Limited

O'Sullivan Films provides a limited warranty on its O'Sea® and Regalite® press polished products as follows:

1. O'Sullivan Films will replace, at no charge, any sheet found to be defective upon inspection or during fabrication, provided that any sheet requested to be replaced is returned, whether cut or not. Defective sheets are those that do not meet the quality criteria defined by O'Sullivan Films. It is expected each sheet is inspected by the Fabricator prior to use.
 2. Products found to be out of compliance according to the criteria established by O'Sullivan will be replaced, upon inspection and agreement that performance and/or appearance of the sheets is not consistent with the quality specification established by O'Sullivan and accepted by the user. Cases will be considered on an individual basis. It will be at the discretion of O'Sullivan Films as to whether the sheet in question is warrantable.
 3. The Warranty period is Twenty-four months from the date of installation. To make a warranty claim the user of the press polished sheet must provide substantiation in the form of skid and drum number of the sheet submitted for a warranty claim.
 4. To properly clean and maintain your Continental Press Polished products we approve and recommend CLEAN, PROTECT, PRESERVE according to the manufacturer's instructions. These products are available through your Continental provider or various retail outlets. Neglect or use of non-authorized cleaners may damage the Continental Press Polish and void the warranty.
- This limited warranty does not apply to any press polished sheet products from which:
- Adequate identification, proof of purchase of date of manufacture is not available
 - Is defective as a result of accident, misuse or abuse;
 - Conforms to O'Sullivan Films specifications.
 - Is used or fabricated in a way inconsistent with the intended use of press polished sheets.
 - Is used or fabricated in a way inconsistent with the Care and Handling provided by O'Sullivan and maintained by O'Sullivan. This includes but is not limited to handling and stacking of sheets, exposure to certain liquids and chemicals, and use of cleaners other than Clean, Protect, Preserve.
 - Becomes defective as a result of failure(s) of related equipment, parts or products for which O'Sullivan Films is not responsible.
 - As a result of use in an environment for which the product was not designed.

Under no circumstances, at any time, will O'Sullivan Films be held liable for labor or additional costs other than the vinyl itself.

O'Sullivan®, O'Sea® and Regalite® are registered trademarks of O'Sullivan Films

Patio 500®

5-Year (excluding pattern 513 Clear)

Limited Warranty

Patio 500 Awning Fabrics are warranted for a period of five (5) years from date of original installation against rot or excessive deterioration, excessive loss of strength or color change if they occur in normal use and exposure, including sunlight and normal atmospheric chemicals. (Some color change is unavoidable due to ultraviolet rays and chemicals in the atmosphere.)

In the unlikely event of failure of fabric during the five (5) year period from date of original installation, we will supply you, the original owner or the provider of your protective fabric accessories with replacement fabric at no charge.

This warranty protects you against damage to the fabric accessories used under normal conditions. It does not cover damage to the fabric from acts of God, vandalism, neglect or improper use.

This warranty is in lieu of all warranties expressed or implied, and, Herculite Products Inc. will not be liable for any consequential or incidental damage. Any implied warranties imposed by law are limited in time to the duration of the expressed warranty.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damage, so, the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights, which vary from state to state.

Herculite Products Inc.

Patio 500® is a registered trademark of Herculite Products Inc.

Phifertex®

3-Year

Limited Warranty

What Is Covered? This warranty covers the fabric becoming non-functional because of loss of dimensional stability from exposure conditions including sunlight, mildew, rot and normal atmospheric conditions. Abnormal or excessive discoloration and fading is covered. It does not cover discoloration from atmospheric pollution or other debris.

How Long Is The Coverage Period? The warranty coverage runs for 3 years from the date of purchase.

What Will Phifer Do? Phifer Incorporated will provide new fabric, free, to replace the non-functioning fabric. This warranty does not cover the cost of labor or other consequential or incidental expenses.

How Can You Get Service? Contact the merchant from whom you purchased the product. The merchant will contact Phifer.

Phifer Inc.

Phifertex® is a registered trademark of Phifer Inc.

Polytex®+

12-Year Against UV Degradation

POLYTEX®+ and COMTEX®+ EXTRA HEAVY DUTY KNITTED SHADECLOTH ("fabric") are premium fabrics designed for use in shade structures and shade sails.

Limited Warranty

Polyfab USA LLC ("Polyfab") warrants to the initial purchaser of the fabric that the fabric will not suffer from abnormal deterioration from ultra violet exposure for a period of 12 years from the date of installation. The term abnormal deterioration means (i) deterioration exceeding 5% of the fabric's original tensile and tear strength (both in warp and weft direction) caused by ultra violet radiation and the chemical processes that ultra violet radiation initiates in the plastics and the additives alone for each year over the 12-year warranty period, and does not include normal wear and tear, or (ii) the fabric has mechanically failed during the actual application in the shading environment intended for such fabric. The maximum working load of the fabric should not exceed 60% of the break strength in both warp and weft directions. If the fabric does suffer from abnormal deterioration during the 12-year warranty period, Polyfab will, at its option, either replace the fabric or supply equivalent fabric.

POLYFAB UNDERTAKES NO RESPONSIBILITY FOR THE QUALITY OF THE FABRIC EXCEPT AS OTHERWISE PROVIDED HEREIN. THERE IS NO IMPLIED WARRANTY THAT THE FABRIC SHALL BE MERCHANTABLE. POLYFAB ASSUMES NO RESPONSIBILITY THAT THE FABRIC WILL BE FIT FOR ANY PARTICULAR PURPOSE FOR WHICH YOU MAY BE BUYING THE FABRIC, EXCEPT AS OTHERWISE PROVIDED HEREIN. THERE IS NO IMPLIED WARRANTY THAT THE FABRIC SHALL BE FIT FOR ANY PARTICULAR PURPOSE. YOU ACKNOWLEDGE THAT YOU ARE NOT RELYING ON POLYFAB'S SKILL OR JUDGMENT TO SELECT OR FURNISH THE FABRIC SUITABLE FOR ANY PARTICULAR PURPOSE AND THAT THERE IS NO WARRANTY WHICH EXTENDS BEYOND THAT PROVIDED HEREIN.

Exclusions and Product Disclaimers

This limited warranty does not cover, and Polyfab is not liable for, abnormal deterioration of fabric occurring due to any of the following circumstances:

- Exposure to pollution, chemicals, solvents, cleaning agents or other substances that are harmful to the performance of the fabric.
- Faulty installation of the fabric or faulty design or manufacture of any structure to which the fabric is attached.
- Improper storing, handling, bracing, use of the fabric or use contrary to the specifications for the fabric.
- Color fading. Color fading is normal over time. Fabric colors containing red or yellow pigments have a tendency to fade more than others. Color Fading is not abnormal deterioration or a loss of strength/breakdown and is not covered by this warranty.
- Minor color variation from fabric samples.
- Minor visual imperfection due to the manufacturing processes.
- The negligent act or omission of any person.
- Misuse, neglect or abuse of the fabric.
- During installation, the fabric should not be subject to "pre-stressed" loading in excess of 20%.
- Wind flap and storm damages are major causes of abnormal deterioration and premature breakdown in any quality outdoor fabric. It is therefore critical that the fabric be installed firm and tight and maintained in a firm condition. Fabric that is allowed to flap and cause rubbing and abrasion as a result of excessive and continual wind flap or storm damage on structural poles and support wires is mechanical breakdown and not covered by this warranty.
- The fabric should be supported by using appropriate strength poles and footings as determined by a professional structural engineer, and fabricated and installed by a qualified contractor in accordance with local building codes.

- Technical testing information supplied by Polyfab is sourced from third-party testing authorities, and tolerances may vary by as much as 10%.

Limitation of Liability

Polyfab's obligations and liabilities are expressly and exclusively limited to those set forth herein. EXCEPT AS OTHERWISE PROVIDED FOR HEREIN, POLYFAB SHALL NOT BE LIABLE FOR DIRECT, INDIRECT, INCIDENTAL, CONSEQUENTIAL, LABOR COSTS OR SPECIAL DAMAGES, INCLUDING LOSS OF PROFITS OR OTHER COMMERCIAL LOSSES, INCLUDING CLAIMS BASED ON NEGLIGENCE OR STRICT LIABILITY. IN THE EVENT POLYFAB IS FOUND TO BE LIABLE FOR ANY DAMAGE OR LOSS RELATED TO THE FABRIC, SUCH LIABILITY SHALL BE LIMITED TO THE ORIGINAL PURCHASE PRICE OF THE FABRIC.

Claims Procedure

All claims under this limited warranty must be made in writing, within 30 days from the date upon which the defect became known to the initial purchaser, to Polyfab USA LLC, 1601 N. Sepulveda Blvd. #392, Manhattan Beach, CA 90266. Claims must be supported by a sample of the defective fabric together with proof of purchase, including the date and location of fabric purchase, and photos of the finished installation.

Saint Clair Arcade FR

5-Year

Product: Arcade FR
Application: Solar Protection
Area: North America

1. Warranty

This warranty covers:

- Tensile strength with a maximum loss of not more than 30% according to the characteristics announced in the technical specifications.
- Permanent flame retardancy.
- Total waterproofness.
- Maintenance of the fabric's flexibility under average climatic and atmospheric exposure (i.e. temperatures higher than -20 °C and lower than + 40°C).

2. Exclusions:

- Defects due to design, the fabrication, the installation and the use and handling of solar protection devices, for example water retention on the fabric, excessive temperature due to insulation material applied inside the fabric, flapping in the wind due to loose tensioning of the material, excessive creasing of the material.
- Accidents occurring during handling (such as wear and tear, friction, scratches and perforations, rodent damage).
- The fabric must not be folded and stored damp.
- Degradation due to aggressive cleaning resulting from either the cleaning process itself or the use of detergents or any alkaline product.
- External chemical attacks: such as high atmospheric pollution, aggressive detergents or detergent migration, animal deposits.
- Formation of localised spots which do not generate a large and uniform change of color throughout the whole panel width.
- Lack of cleaning and maintenance
- Acts of God, wilful or negligent acts.

- The claim has to be report by registered letter with acknowledgement at the company DICKSON COATINGS within 8 days from the date of the ascertainment. This claim has to mention the invoice number and the batch number(s) of the roll(s). The fabric has to be available for our expert or our insurance.
- The aging of the product being very different from the conditions of exposure to external elements, temperature, humidity, UV, pollution. As UV light is one of the main factors causing degradation, this guarantee is only valid for a maximum exposure of 160kLy / year

3. Conditions of warranty application:

- Declaration by registered letter with acknowledgment or receipt within 30 days maximum after defect appearance, addressed to SAINT CLAIR TEXTILES
- Fabric batch numbers must be clearly identified.
- Date of the beginning of the warranty: delivery date of the fabric.
- Warranty application:
- According to the warranties stated in paragraph 1 and under the restriction conditions stated in paragraph 2, we only cover the replacement cost of the defective part of fabric, depreciation deducted, excluding all charges and all other compensation.

Obsolescence	% Reimbursement of fabric cost
Year 1	100%
Year 2	80%
Year 3	60%
Year 4	40%
Year 5	20%

4. Limitation of Liability:

- The terms and provisions of this Limited Warranty shall be governed by, construed under and enforced in accordance with, the laws of France, without regard to Uniform United Nations Conventions.

Valid from the 01-10-2020

Sea-Spraé®

3-Year

Sea-Spraé, a registered trademark of Glen Raven, Inc, is warranted for a period of three years from the date of the original installation against excessive loss of color or strength from normal exposure conditions including sunlight, mildew, rot and normal atmospheric chemicals which may render the fabric unserviceable. This warranty does not cover damage from Acts of God, vandalism, neglect or improper use.

In the unlikely event of fabric failure during the warranty period, Graniteville Specialty Fabrics will supply you, the end consumer, new fabric free of charge working through Trivantage and your dealer. Labor and installation are not covered by this warranty. Graniteville Specialty Fabrics reserves the right to inspect the fabric or made up item of any warranty claim.

Except for the explicit warranties, herein, no other warranty, expressed or implied, including any implied warranty of merchantability of fitness for a particular use is made by Graniteville Specialty Fabrics. In no event shall Graniteville Specialty Fabrics be liable for damages to any person or property, or any consequential or incidental damages.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of consequential or incidental damage, so, the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights and you may have other rights which vary from state to state.

To get service, call the dealer from whom you purchased the product. The dealer will inspect the installation and process the claim through Trivantage, LLC and Graniteville Specialty Fabrics.

Sea-Spraé® is a registered trademark of Glen Raven, Inc.

Serge Ferrari Soltis®

10-Year

10-year Limited Warranty

SOLTIS Membranes – Solar Protection

Manufactured according to the Serge FERRARI Précontraint Technology and benefiting from the ISO 9002 Quality Assurance system, SOLTIS sun protection membranes come with a limited 10 year warranty. This document details the terms, conditions and modalities for the implementation of the warranty provided by Serge FERRARI for the products, provided always that the object of the warranty is specific to each product and appears in the relevant Technical Data Sheet.

1. Limited Warranties

Serge FERRARI warrants that the product shall, at the time of delivery at FERRARI's plant of manufacture, meet all technical specifications stated in the published FERRARI data sheets. Serge FERRARI warrants the sustainability & functionality of SOLTIS membranes during normal atmospheric conditions. Serge FERRARI further warrants that the SOLTIS membranes will not become non-functional due to loss of dimensional stability from exposure to sunlight or other normal atmospheric conditions.

3. Exclusions

This Limited Warranty does NOT cover:

- Mechanical or aesthetic changes that do not impact the functionality of the membrane;
- Any defect or damage resulting from transportation, storage and handling conditions;

- Any defect or damage resulting from improper assembly and/or use in inappropriate conditions, including under the action of strong winds, storms or other abnormal or excessive atmospheric conditions;
- Gradual fading and/or discoloration from atmospheric pollution, mold or other debris;
- Any defect or damage caused by exposure to chemicals or abrasives arising from unsuitable cleaning, inappropriate use or weathering phenomenon, or other misuse of the product; and
- Labor costs, including costs resulting from the disassembling, reassembling and transportation operations.

3. Limited Warranty application conditions

This limited warranty takes effect on the day of delivery of the SOLTIS membrane from our warehouse. If Serge FERRARI determines that the membrane failed because of a covered defect, Serge FERRARI will, at its sole discretion, replace the membrane or provide a refund at the following rates pursuant to the following schedule:

Within 1 year → 100% of the material price

From year 2 to year 10 → 10% less than material price per year of material, from date of purchase to date of warranty claim

4. Making a warranty claim

The right to warranty only applies if the covered defect is reported by registered letter with acknowledgement of the receipt to Serge FERRARI Customer Service, 504 Hillsboro Technology Drive, Deerfield Beach, FL 33441 within a maximum time period of 30 calendar days of the defect's occurrence. Warranty coverage only applies to products for which Serge FERRARI has received full payment.

Limitation of Liability

EXCEPT AS PROVIDED IN THIS LIMITED WARRANTY, SERGE FERRARI MAKES NO WARRANTY, EXPRESS OR IMPLIED, TO ANYONE AS TO FITNESS FOR ANY PURPOSE, MERCHANTABILITY, DESIGN, CONDITION, CAPACITY, PERFORMANCE, OR ANY OTHER ASPECT OF THE PRODUCT OR ITS MATERIAL OR WORKMANSHIP. ALL IMPLIED WARRANTIES WHICH MAY EXIST, NOTWITHSTANDING THIS DISCLAIMER, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. THIS LIMITED WARRANTY IS MADE IN LIEU OF ALL OTHER GUARANTEES, WARRANTIES, REPRESENTATIONS, CONDITIONS, OBLIGATIONS, OR LIABILITIES, EXPRESS OR IMPLIED.

SERGE FERRARI SHALL NOT BE LIABLE, EITHER IN CONTRACT OR TORT, FOR ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES, OR ANY LOSS, DAMAGE, OR INJURY TO PERSONS, INCLUDING DEATH, PROPERTY, OR THINGS, OR FOR DAMAGES OF ANY KIND OR NATURE INCLUDING BUSINESS INTERRUPTION, INCONVENIENCE OR LOSS OF ANTICIPATED PROFITS OR SAVINGS OCCASIONED BY OR ARISING OUT OF THE USE, MISUSE, NONUSE, REPAIR, REPLACEMENT OR DELAY IN DELIVERY OF THE PRODUCT. SERGE FERRARI SHALL NOT BE LIABLE FOR THE COST OF ANY WORK DONE BY PURCHASER OR OTHERS TO THE PRODUCT.

This Limited Warranty gives specific legal rights. Some jurisdictions do not allow the exclusion or limitation of implied warranties or incidental or consequential damages. In such jurisdictions, the limitations or exclusions do not apply to the purchaser. The purchaser may also have other rights that may vary by jurisdiction.

Date of Validity : October 2021

Serge Ferrari SAS

Soltis® is a registered trademark of The Serge Ferrari Group.

Serge Ferrari Stamoid® Fabrics

WARRANTIES / GENERAL (extracts for GTS)

Article 10. Warranty - Responsibility

10.1. The Purchaser shall be responsible for informing Serge Ferrari of the Product characteristics it seeks and shall obtain the necessary commercial and technical information. The Purchaser shall therefore be fully aware of the Products it is purchasing and recognizes having been able to obtain information regarding the products ordered. In particular, the Purchaser is solely responsible for selecting the Product installation location.

10.2. The Purchaser shall also be responsible for Product implementation and installation in compliance with best practices and safety regulations applicable in the destination country.

10.3. Certain products marked by Serge Ferrari are covered by a contractual warranty.

The Purchaser shall be responsible for referring to the terms of the contractual warranty for the Product supplied, as requested, with regard to the terms of the applicable warranty (period, commencement, tear strength, fire resistance qualities, waterproofing qualities, percentage of costs covered, warranty exclusions, etc.)

10.4. Additionally, any applicable warranty for Products purchased and resold by Serge Ferrari shall be the warranty issued by the manufacturer of such Products commercialized by Serge Ferrari.

10.5. In all cases in which warranty documents exist, they shall clearly include a list of exclusions to their application. Contractual warranties related to the Products shall never apply, if one of the items described in the list of exclusions is effective at the time of damage.

By common agreement, the parties recognize that Serge Ferrari can, under no circumstances, be held liable to compensate any indirect consequences that the Purchaser may have sustained (e.g. loss of production, loss of customers, commercial damage, damage to image, loss of data, etc.)

Moreover, in its relations with the Purchaser, the liability of Serge Ferrari shall not exceed the sum paid by the Purchaser in fulfillment of its obligations.

Serge Ferrari shall duly fulfill its responsibilities by restoring the conformity or replacing a Product, which is defective or non-compliant with the contract specification.

WARRANTIES / SPECIAL POINTS

1. Membranes are covered by the warranties detailed in their relevant technical datasheet. The warranty period depends on the Product itself and on the relevant contract. The warranty covers a list of no more than 5 technical criteria:

- Conformity: material delivered in compliance with technical datasheets
- Strength: tensile strength with maximum allowable loss of strength during warranty period
- Color: uniform color change possible on same side and under same UV exposure
- Waterproofing performance
- Fire rating during warranty period
- Existing documents shall be read and understood

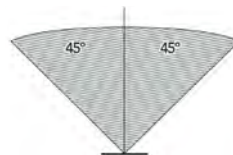

2. Certain membranes are not covered by any warranty

3. A special warranty can be elaborated on request for an additional period, an exceptional project or a special customer. In this case, a specific request shall be submitted for acceptable and recorded by our customer support department.

SheerWeave® Exterior

5-Year Exterior

Extended Limited Warranty

What is Covered? This warranty covers all colors of SheerWeave® Styles 1000, 2000, 2100, 2390, 2360, 2410, 2500, 2701, 2703, 2705, 2710, 3000, 4000, 4100, 4400, 4500, 4600, 4550, 4650, 4800 and 5000 when properly handled and installed for normal use in exterior systems. Phifer guarantees that, when delivered to our customer, Phifer SheerWeave will meet or exceed all of our specifications with regard to mesh configuration, dimension, strength and color. Phifer further guarantees that Phifer SheerWeave will not become nonfunctional because of changes in physical properties due to exposure to normal atmospheric conditions. This warranty does not cover damage to screen from any source nor does it cover gradual fading.

Any defects found with regard to mesh configuration, dimension, strength or color, that exist at the time of initial delivery, must be reported to Phifer within a reasonable period of time and before fabrication or installation of the material. Only full or partial rolls of Phifer SheerWeave may be returned to Phifer for replacement under this warranty except as provided in the following paragraph.

The Phifer SheerWeave mentioned above is covered by this warranty if the fabric becomes nonfunctional due to changes in physical properties. If the fabricated screen appears to be defective, it must be returned to Phifer without hardware or attachments to be inspected.

How Long Is The Coverage Period? The warranty against changes in physical properties is valid for a period of five (5) years.

What Will Phifer Do? Any Phifer SheerWeave found to be defective will be replaced, free of charge, with an equal quantity of Phifer SheerWeave fabric.

THIS WARRANTY DOES NOT COVER THE COST OF LABOR OR OTHER CONSEQUENTIAL EXPENSES RELATED TO REMOVAL, RETURN OR REINSTALLATION OF PHIFER SHEERWEAVE.

FABRIC WARRANTY INFORMATION

THIS IS THE COMPLETE AND ONLY WARRANTY PROVIDED FOR PHIFER SHEERWEAVE. THERE ARE NO OTHER WARRANTIES, EXPRESS OR IMPLIED, FOR THIS PRODUCT.

Phifer Inc.

SheerWeave® Interior

10-Year Interior

Extended Limited Warranty

What is Covered? This warranty covers all styles of Phifer SheerWeave shading fabric when properly handled and installed for normal use as interior vertical window shading. Phifer guarantees that, when delivered to our customer, SheerWeave will meet or exceed all of our specifications with regard to mesh configuration, dimension, strength and color. Phifer further guarantees that SheerWeave will not become nonfunctional because of changes in physical properties due to exposure to normal atmospheric conditions. This warranty does not cover damage to the shading fabric from any source nor does it cover gradual fading.

Any defects found with regard to mesh configuration, dimension, strength or color, that exist at the time of initial delivery, must be reported to Phifer within a reasonable period of time and before fabrication or installation of the material. Only full or partial rolls of SheerWeave may be returned to Phifer for replacement under this warranty except as provided in the following paragraph.

Any SheerWeave fabric installed as a fabricated shade is covered by this warranty if the fabric becomes nonfunctional due to changes in physical properties. If the fabricated shade appears to be defective, it must be returned to Phifer without hardware or attachments to be inspected.

How Long Is The Coverage Period? The warranty against changes in physical properties is valid for a period of ten (10) years. *

What Will Phifer Do? Any SheerWeave found to be defective will be replaced, free of charge, with an equal quantity of SheerWeave fabric.

THIS WARRANTY DOES NOT COVER THE COST OF LABOR OR OTHER CONSEQUENTIAL EXPENSES RELATED TO REMOVAL, RETURN OR REINSTALLATION OF SHEERWEAVE FABRIC.

THIS IS THE COMPLETE AND ONLY WARRANTY PROVIDED FOR PHIFER SHEERWEAVE FABRIC. THERE ARE NO OTHER WARRANTIES, EXPRESS OR IMPLIED, FOR THIS PRODUCT.

*SheerWeave Infinity and Styles 7000, 7300, 7350 and 7500 carry a five (5) year warranty.

Phifer Inc.

Showtime® II

2-Year

Showtime® Event Fabrics are guaranteed for a period of two (2) years from date of original installation against rot or excessive deterioration, mildew stains, excessive loss of strength or color change if they occur in normal use and exposure, including sunlight and normal atmospheric chemicals. (Some color change is unavoidable due to ultraviolet rays and chemicals in the atmosphere.)

In the unlikely event of failure of fabric during the two (2) year period from date of original installation, we will supply you, the original owner or the provider of your protective fabric accessories with replacement fabric at no charge.

This warranty protects you against damage to the fabric accessories used under normal conditions. It does not cover damage to the fabric from acts of God, vandalism, neglect or improper use.

This warranty is in lieu of all warranties expressed or implied, and, Herculite Products Inc. will not be liable for any consequential or incidental damage. Any implied warranties imposed by law are limited in time to the duration of the expressed warranty.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damage, so, the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

Herculite Products Inc.

Showtime® and Herculite® are registered trademark of Herculite Products Inc.

SolaMesh®

10-Year

SolaMesh® limited warranty: Trivantage® stands behind our fabrics with a guarantee that's designed to support our customers. SolaMesh has a 10 year-limited warranty when used in its intended purposes; shade structures and similar installations.

This warranty applies to the original purchaser of SolaMesh fabric and protects against SolaMesh fabric becoming unserviceable due to strength loss from normal usage and exposure conditions, including sunlight, mildew and atmospheric chemicals. Loss of color can occur when exposed to UV light and is not covered by the warranty.

This warranty covers SolaMesh fabric only. This warranty does not cover normal care and cleaning; damage from misuse or abuse; improper installation; or costs associated with replacement of the fabric, including labor and installation. Glen Raven's liability is expressly limited to this warranty. Glen Raven reserves the right to inspect the fabric submitted for claim. Glen Raven will supply new equivalent fabric to replace the fabric that becomes unserviceable.

SolaMesh® is a registered trademark of Glen Raven, Inc.

Starfire®

5-Year Limited Warranty

Starfire® Awning Fabric Limited Warranty

Starfire® Limited Warranty. We stand behind our Starfire fabric with this 5-year limited warranty from the date of installation.

This limited warranty applies to the original purchaser of Starfire fabric and protects against Starfire fabric becoming unserviceable due to excessive color loss* or strength loss from normal usage and exposure conditions, including sunlight and atmospheric chemicals. Starfire Red (855707) color loss is specifically excluded from this warranty.

This warranty covers Starfire fabric only. This warranty does not cover acts of God, normal care and cleaning; damage from misuse or abuse; improper installation; or costs associated with replacement of the fabric, including labor and installation. Please see the Q&A below for further details on the limited warranty coverage. Liability of Trivantage is expressly limited to this warranty. Trivantage reserves the right to inspect the fabric submitted for claim. If a warranty claim is accepted, Trivantage will supply new equivalent fabric to replace the fabric that becomes unserviceable.

* Minimal color loss can be anticipated on most shades after constant exposure to sunlight.

Who this warranty protects: This warranty protects the original purchaser of Starfire fabric.

What this warranty protects against: This warranty protects against Starfire fabric becoming unserviceable due to color or strength loss from normal usage and exposure conditions, including normal exposure to sunlight and atmospheric chemicals.

What this warranty covers: This warranty covers Starfire fabric only.

What this warranty does not cover: This warranty does not cover normal care and cleaning; mildew, damage from misuse or abuse; improper installation; or costs associated with replacement of the fabric, including labor and installation.

Limits to the warranty: This Limited Warranty does not extend to loss of color for Starfire Red (855707), and liability of Trivantage is expressly limited to this warranty. Trivantage reserves the right to inspect the fabric submitted for claim.

What we will do: Trivantage will supply new equivalent fabric to replace the fabric that becomes unserviceable.

Who to contact: Contact your Trivantage sales or customer service representative for warranty claims.

Who end users/consumers should contact: Starfire is normally a component of an end-product such as an awning. Consumers and end-users should contact the fabricator, dealer or retailer from whom you purchased the end-product.

Warranty Coverage Period: The warranty coverage period is five (5) years from date of installation. In year one (1), Trivantage will provide new equivalent fabric equal to the amount used on the job. After on (1) year, an allowance for new equivalent fabric equal to 1/60 of the purchase price of the original fabric for each month remaining in the initial five (5) year period of the warranty coverage period.

Starfire® is a registered trademark of Glen Raven, Inc.

Strataglass®

2-Year Limited Warranty

TWO YEAR Limited Warranty

STRATAGLASS Composite Marine Sheets are guaranteed for a period of two (2) years from the original date of manufacture against defects found upon inspection, during fabrication or during marine enclosure use.

In the unlikely event of a STRATAGLASS failure during the two (2) year period, we will supply you, the original owner or provider, with replacement STRATAGLASS marine sheets at no charge providing the following conditions are met:

1. The owner or provider must register the purchase online and obtain a Warranty Registration Number to verify proof of purchase. This Warranty Registration Number must be provided to process a warranty claim.
2. The owner or provider must properly clean and maintain the Strataglass product during use according to manufacturer's instructions.
3. The owner or provider must return defective sheets or representative samples of the defect to the manufacture for inspection, testing and warranty validation.

Warranty validation will be at the sole discretion of STRATAGLASS LLC. All warranty claims will be considered on an individual basis. This warranty does not cover labor or any additional costs associated with the replacement.

STRATAGLASS must be properly cleaned and maintained using only authorized cleaning products and methods. Care and maintenance instructions are provided on the Care and Maintenance Data Sheet or can be found on the STRATAGLASS Website: www.strataglass.com/strataglass-care-and-maintenance. Failure to properly clean and maintain your STRATAGLASS enclosure panels will void your warranty.

YOU MUST REGISTER YOUR PURCHASE TO BE COVERED BY THIS LIMITED WARRANTY

Please register your purchase of Strataglass within thirty (30) days of final installation by registering online at www.strataglass.com/registration. You must provide proof of purchase and obtain/retain a Warranty Registration Number.

This Limited Warranty is subject to the following:

- This Limited Warranty only applies to properly maintained STRATAGLASS Marine Sheets, which have been registered online at www.strataglass.com/ registration. Under no circumstances, at any time will STRATAGLASS be liable for labor or additional costs other than the STRATAGLASS sheet itself
- This Limited Warranty does not apply to any product or any part thereof that, in the sole judgement of STRATAGLASS LLC, have been subjected to misuse, alteration, aggressive cleaning, aggressive detergents, accidental damage to the surface, Acts of God, abused by machinery, excess wear and tear, abnormal weather conditions, exposure to harmful chemicals, falling objects, friction, explosion, fire, flood, riots, civil commotion, drones, neglect, scratches, perforations, damaged during handling or fabrication, subjected to unusual atmospheric pollution, Is used or fabricated in a manner inconsistent with recommended care and maintenance instructions of STRATAGLASS LLC. This includes but is not limited to handling and stacking of sheets, exposure to certain fluids, and chemicals or cleaners not approved by STRATAGLASS. Or becomes defective as a result of failure(s) of related products for which STRATAGLASS LLC. Is not responsible.
- This limited warranty is the exclusive warranty with respect to the products, is in lieu of, and supersedes all other representation or warranties, whether written or oral, express or implied. STRATAGLASS LLC. Expressly disclaims any implied warranties of merchantability of fitness for a particular purpose. The sole and exclusive remedies of any person relating to the products and the full liability of STRATAGLASS LLC. for any breach of this warranty are those provided in this limited warranty and user of the products hereby agrees and acknowledges that no other warranties are offered or provided in connection with or for the products or any part thereof.
- STRATAGLASS LLC. shall not be liable for any loss of profits or revenue, loss of use of equipment or facility, cost of capital or for any other special, indirect, incidental or consequential damages of any nature resulting from on in any manner relating to the products covered hereby, their design use, any inability to use the same or any delay in the delivery of the same. The sole and exclusive remedy with respect to any defective product shall be the repair, correction or replacement thereof pursuant to the forgoing provisions. The terms and provisions of this Limited Warranty shall be governed by the laws of the State of Florida without regard to Uniform United Nations Conventions.
- This warranty is not transferrable.

Sunbrella®

5-year Limited Warranty

We stand behind our Sunbrella fabrics with the most comprehensive warranty in the industry.

Sunbrella® Upholstery Fabrics

Sunbrella® Sling

Our 5-year limited warranty makes Sunbrella the only performance fabric brand to guarantee against becoming unserviceable due to:

- Loss of color
- Loss of strength
- Abrasion
- Pilling

from normal usage and exposure conditions, including sunlight, mildew, and atmospheric chemicals when used for appropriate applications.

FABRIC **WARRANTY INFORMATION**

In the rare instances where our Sunbrella fabrics do not meet the performance outlined above, Glen Raven® will resolve the issue as follows for approved claims:

Within three years of consumer purchase or installation date: In addition to replacing the fabric with new equivalent fabric, Glen Raven will arrange to or otherwise pay up to \$40 USD per linear yard in labor costs to replace or reupholster any impacted cushions, umbrellas, window treatments, or upholstered portions of furniture.

After three years and until five years from date of consumer purchase: Glen Raven will supply new equivalent fabric to replace the fabric that has become unserviceable.

This warranty does not cover normal care and cleaning; damage from misuse or abuse; improper installation; or costs associated with replacement of the fabric, including labor and installation, except as noted in this warranty. Glen Raven's liability is expressly limited to this warranty. Glen Raven reserves the right to require proof of purchase and inspect any fabric submitted for claim. Claims requesting reimbursement for labor costs must include a detailed summary of those costs.

Sunbrella®

10-year Limited Warranty

We stand behind our Sunbrella fabrics with the most comprehensive warranty in the industry.

Sunbrella Shade and Marine Fabrics*

Sunbrella Contour

Our 10-year limited warranty protects against Sunbrella® fabric becoming unserviceable due to:

- Loss of color
- Loss of strength

from normal usage and exposure conditions, including sunlight, mildew and atmospheric chemicals, when used for appropriate applications.

In the rare instances where our Sunbrella fabrics do not meet the performance outlined above, Glen Raven® will resolve the issue as follows for approved claims:

Within five years of installation/fabrication: In addition to replacing the fabric with new equivalent fabric, Glen Raven will arrange to or otherwise pay up to \$65 USD per linear yard in labor costs to replace any installations or fabrications of Sunbrella fabric.

After five years and until ten years from date of purchase or installation: Glen Raven will supply new equivalent fabric to replace the fabric that has become unserviceable.

This warranty does not cover normal care and cleaning; damage from misuse or abuse; improper installation; or costs associated with replacement of the fabric, including labor and installation, except as noted in this warranty. Glen Raven's liability is expressly limited to this warranty. Glen Raven reserves the right to require proof of purchase and inspect any fabric submitted for claim. Claims requesting reimbursement for labor costs must include a detailed summary of those costs.

*Other than those Sunbrella Shade and Marine products specifically listed under the 5-year warranty.

Sunbrella®

5-year Limited Warranty

We stand behind our Sunbrella fabrics with the most comprehensive warranty in the industry.

Sunbrella® Clarity

Sunbrella® Decorative Shade

Sunbrella® Plus

Sunbrella® SeaMark

Sunbrella® Supreme

Our 5-year limited warranty guarantees against fabric becoming unserviceable due to:

- Loss of color
- Loss of strength

from normal usage and exposure conditions, including sunlight, mildew, and atmospheric chemicals when used for appropriate applications.

In the rare instances where our Sunbrella fabrics do not meet the performance outlined above, Glen Raven® will resolve the issue as follows for approved claims:

Within three years of consumer purchase or installation date: In addition to replacing the fabric with new equivalent fabric, claims may be eligible for up to \$65 USD in labor costs per linear yard.

After three years and until five years from consumer purchase or installation date: Glen Raven will supply new equivalent fabric to replace the fabric that has become unserviceable.

This warranty does not cover normal care and cleaning; damage from misuse or abuse; improper installation; or costs associated with replacement of the fabric, including labor and installation, except as noted in this warranty. Glen Raven's liability is expressly limited to this warranty. Glen Raven reserves the right to require proof of purchase and inspect any fabric submitted for claim. Claims requesting reimbursement for labor costs must include a detailed summary of those costs.

Glen Raven Custom Fabrics, LLC
Sunbrella® is a registered trademark of Glen Raven, Inc.

Sunbrella® Horizon®

5-year Limited Product Warranty, 3-year Microbial Pink Staining Limited Warranty

5-year Limited Product Warranty

This warranty applies to the original purchaser of Sunbrella Horizon and is subject to inspection. During the first 3 years, if Sunbrella Horizon product becomes unserviceable due to loss of strength or color from normal usage and exposure, any warranty claim may be eligible for up to \$40 USD in labor costs per linear yard in addition to replacement product.

During years 4 and 5, Sunbrella will provide replacement product only.

3-year Microbial Pink Staining Limited Warranty

This warranty applies to the original purchaser of Sunbrella Horizon and is subject to inspection. During the first 3 years, if Sunbrella Horizon product becomes unserviceable due to microbial pink staining, any warranty claim

may be eligible for up to \$40 USD in labor costs per linear yard in addition to replacement product.

Warranty Guidelines

For warranties to go into effect, Sunbrella requires a sample of the product in question and must be given the right to inspect the product. Claims requesting reimbursement for labor costs must include a detailed summary of those costs.

Damage resulting from the following is not covered under warranty:

- Improper installation or cleaning;
- Excessive staining due to gear lubricant, ink, lipstick, motor oil, iodine, betadine, tomato-based sauces or sun lotion;
- Discoloration caused by exposure to steam
- Discoloration due to the presence of amines in adjoining foam or adhesives; or
- Normal wear and tear.

Warranties apply only to the top side of the product and do not apply to other items that may be present in an installation (e.g. foam, sewing thread, plywood, etc.).

The warranty period begins from the date an original equipment manufacturer installed the product, or the date the product was sold to an aftermarket manufacturer. Sunbrella may, in its discretion, recommend remedial methods, such as professional cleaning or repair to be done at the consumer's expense, in lieu of replacing the product.

To get warranty service, please contact the dealer or retailer from whom the product was purchased. The original purchaser will contact the manufacturer of the item purchased who will then contact Sunbrella.

Sunbrella® Graphics System

5-Year (vertical) / 3-Year (non-vertical)

WHAT IS COVERED? The SGS Thermal Film warranty covers Trivantage® SGS Thermal film (SGS Thermal Digital Print film) applied to Glen Raven acrylic fabrics*, from loss of color, strength or adhesion of film to fabric from normal exposure conditions, including sunlight, mildew, rot and atmospheric chemicals. The warranty does not apply to printed images on the film. Graphics must be installed on a static fabric surface in order for the graphics adhesion warranty to apply. SGS Thermal films are covered up to 5 years on vertical and 3 years on for a non-vertical exposure. (See diagrams below).

GRAPHIC EXPOSURE DEFINITIONS

The SGS Warranty is exclusively available from Trivantage to Certified SGS Manufacturers who have purchased the film and the fabric through Trivantage. The manufacturer agrees to keep detailed records of each project for the duration of the warranty period. The SGS warranty runs from the date of original installation. Warranty claims can be initiated by calling Trivantage customer service at 800-786-7608. Trivantage will supply you with replacement fabric and film after verification that the claim is justified.

WHAT IS NOT COVERED? The warranty does not cover frames, labor or installation provided by the manufacturer. The warranty does not cover the performance of ink which has been printed or screened onto the film.

This warranty does not cover damage caused by vandalism, cleaning solutions, paints, solvents, eradicable or other strong chemicals, pressure washing equipment, mechanical washing equipment that subjects the graphic to frequent abrasive scouring action, engine fuels, engine exhaust, steam, oil, grease, tree sap, fire, structural failure, lightning or other natural forces or acts of God.

*(Sunbrella, Sunbrella Unity, Firesist®, Dickson® Orchestra)

This warranty gives you specific legal rights and you may also have other rights that vary state to state. Glen Raven makes no warranty of fitness for any particular purpose whatsoever with respect to the goods being sold. There are no warranties, express or implied, which extend beyond the description on the face of this agreement.

Trivantage, LLC

Sunsure®

15-Year Exterior

Twitchell Technical Products, LLC produces durable, all weather fabrics that are unmatched for quality and durability. Sunsure®, & Sunsure® Plus, brand fabrics are covered by a 15-year limited warranty for fixed & operable vertical shading applications and 3-year limited warranty for all other end uses from the original date of purchase. These fabrics are warranted against defects of workmanship and materials, and/or excessive loss of color or strength from normal exposure conditions, including sunlight, rot, mildew, or atmospheric chemicals that might render it unserviceable. **This warranty is extended only to the original purchaser of the material.**

If the product has been subject to damage, neglect, unreasonable or improper use or care, exposure to corrosive chemicals, accidents, vandalism, acts of God, or other causes not arising from defects in original material or workmanship, this warranty is void. Twitchell Technical Products, LLC does not endorse or certify end uses and customers must test the fabrics for their specific applications.

In the unlikely event that the fabric should fail during the warranty period, Twitchell Technical Products, LLC will issue a credit or replace the fabric at Twitchell Technical Products, LLC's discretion. A copy of the original purchase order must accompany all warranty claims. Twitchell Technical Products, LLC is liable for the cost of the fabric only and does not accept responsibility for any other costs associated with a company's specific application.

Any defects found in regard to fabric construction, color, strength, or dimension that exist at the time of delivery must be reported to Twitchell Technical Products, LLC in a reasonable period of time and before any fabrication or alteration of the fabric.

Proper care includes regular cleaning. We recommend cleaning your fabric at least twice annually for residential applications and more often for high traffic areas or contract applications.

Twitchell Corporation

Sunsure® is a registered trademark of Twitchell Corporation.

SunTex® 80, 90 and 95

10-Year Exterior Extended Limited Warranty

What is Covered? This warranty covers SunTex® when properly handled and installed for normal use as exterior fixed screening. SunTex is also covered by this warranty for use in retractable roller systems. Phifer guarantees that, when delivered to our customer, Phifer Sun Control Products will meet or exceed all of our specifications with regard to mesh configuration, dimension, strength and color. Phifer further guarantees that Phifer Sun Control Products will not become nonfunctional because of changes in physical properties due to exposure to normal atmospheric conditions. This warranty does not cover damage to screen from any source nor does it cover gradual fading.

Any defects found with regard to mesh configuration, dimension, strength or color, that exist at the time of initial delivery, must be reported to Phifer within a reasonable period of time and before fabrication or installation of the material. Only full or partial rolls of Phifer Sun Control Products may be returned to Phifer for replacement under this warranty except as provided in the following paragraph.

The Phifer Sun Control Products mentioned above are covered by this warranty if the fabric becomes nonfunctional due to changes in physical properties. If the fabricated screen appears to be defective, it must be returned to Phifer without hardware or attachments to be inspected.

How Long Is The Coverage Period? The warranty against changes in physical properties is valid for a period of ten (10) years.

What Will Phifer Do? Any Phifer Sun Control Product found to be defective will be replaced, free of charge, with an equal quantity of Phifer Sun Control fabric.

THIS WARRANTY DOES NOT COVER THE COST OF LABOR OR OTHER CONSEQUENTIAL EXPENSES RELATED TO REMOVAL, RETURN OR REINSTALLATION OF PHIFER SUN CONTROL PRODUCTS.

THIS IS THE COMPLETE AND ONLY WARRANTY PROVIDED FOR PHIFER SUN CONTROL PRODUCTS. THERE ARE NO OTHER WARRANTIES, EXPRESS OR IMPLIED, FOR THIS PRODUCT.

Phifer Inc.

Sur Last®

3-Year

This limited warranty is valid only if a copy of the invoice for the item purchased is submitted showing date of original purchase.

What is covered? This limited warranty covers the fabric becoming unserviceable because of loss of color or strength from normal usage and exposure conditions, including sunlight, mildew and atmospheric chemicals. Consumer is responsible for normal care and cleaning of the fabric. The warranty covers fabric only. Glen Raven's liability is expressly limited to this warranty.

How long is the coverage period? This limited warranty coverage runs for three years from the date of original installation.

What will Glen Raven do? Glen Raven will supply new fabric free to replace the fabric that becomes unserviceable.

How can you get service? Call the dealer or retailer from whom you purchased the product to inspect the claim. They, in turn, will contact the manufacturer of the item purchased. The manufacturer will then contact Glen Raven and secure replacement fabric for you.

The Solair Pro II is the ultimate solution for beautiful, stylish shade. Available in a wide range of fabrics, customizable sizes and modern frame color choices, the Pro will create a more finished, personalized look to your customers' outdoor oasis.

Standard Features

Frame: Corrosion-resistant, electrostatic powder-coated aluminum.

Arms: The Advanced Belt Technology that's included in this model, features an exclusive tension transmission system which incorporates our ABT that has been tested and proven for almost 2 decades on performance. This design does not stretch or breakdown over time, keeping your fabric taut for years to come.

Hardware: The Pro II is manufactured with durable stainless steel, corrosion-resistant fasteners. Finished look with protective caps and covers to hide most exposed hardware.

Pitch: Adjustable locking awning pitch from 5° to 60° for maximum shade control.

Performance: Earned TUV Certification for its quality, durability and workmanship.

Front Bar: Extruded aluminum front bar engineered for long-lasting strength and durability. Front bar features a rain channel to prevent water from gathering. Dual action front bar attachment increases flexibility and reduces strain on arms during wind gusts.

Roller Tube: Galvanized steel roller tube provides greater strength and less deflection. (Use of a center support may still be recommended.)

Styling

Frame Colors: White, Beige, Bronze, Black

Fabric Options: Hundreds of fabric choices from Sunbrella® and Dickson®.

Available Sizes

Widths: Custom 8 feet to 30 feet. All units greater than 26 feet wide will be spliced and shipped in two pieces requiring some field assembly before installation.

Projections: 5 feet, 7 feet 4 inches, 9 feet, 10 feet 6 inches, 11 feet 6 inches, 13 feet

Motorized Operation

We recommend that the Solair Pro II unit be motorized, for ease of use. We offer three standard RTS motor options based on the size of the unit (see order form for details). Hand held remote allows awning operation with the touch of a button from 65 feet away.

Some motors are available with a manual override option (CMO) for added safety in case of power loss.

Motorization also allows for additional electronic options such as wind and sun sensors.

Optional Features

- Remote Control:** Allows awning operation with the touch of a button from up to 65 feet away (standard on motorized awnings).
- Protective Hood:** Protects fabric and motor while providing a finished look.
- Awning Assist Brace:** Removable brace engineered to add support and stability to any Solair retractable awning.
- Valance:** Choose from traditional wave edges to modern straight lines.
- Valance Plus:** Screen or solid fabric unwinds from front valance to provide additional shade and privacy.
- Semi Cassette:** Available on units up to 22 feet wide and up to 11 feet 6 inch projection.

Additional Information

Solair XP Units allow for greater projections in narrower spaces. Ask a sales representative for more details.

Solair awnings can be mounted to the structural part of most buildings. Different types of brackets are required in certain applications. Contact your Trivantage sales representative or a Solair Technical Specialist for help in determining the best bracket for your application by calling 877.899.1680 or e-mailing us at: help@solair.com.

Warranty	10-year limited warranty on Solair Pro II framework. 10-year limited warranty on Sunbrella shade fabrics. 5-year limited warranty for specialty and decorative shade fabrics. 5-year warranty on Somfy motors. All warranties are good from the day of purchase. Complete warranties can be found online at Solair Shade Solutions Extranet.
----------	--

RTS Motor Installation Requirements

If the installation consists of multiple RTS motors, only one motor can be programmed at a time. All other motors must be disconnected. This will avoid interferences during the initial programming of each motor. The mounting distance between any two RTS motor heads should be no less than 19 inches to avoid possible interference.

The motor cable should not act as a direct conduit for water to enter the head of the motor. Note: Somfy motors conform to IP44 requirements and as such must be protected against direct weather elements such as rain, sleet, etc. In order to avoid water penetration, form a “drip loop” with the power cable and use a hood when required.

Solair®, Sunbrella® and Dickson® are registered trademarks of Glen Raven, Inc. Somfy® is a registered trademark of Somfy Systems, Inc.

Solair® Pro II Awning Covers

Save fabrication time! We offer quality covers for the Solair Pro II. Covers are offered in any standard pattern of Sunbrella® and Dickson® awning fabric. (Other fabric styles upon request.) All Pro covers are sewn with Tenara® thread.

Replacement covers and valances are available by special order. Please contact a Trivantage associate for details.

Warranty	10-year limited warranty on Solair Pro II framework. 10-year limited warranty on Sunbrella shade fabrics. 5-year limited warranty for specialty and decorative shade fabrics. All warranties are good from the day of purchase. Complete warranties can be found online at Solair Shade Solutions Extranet.
----------	---

Solair®, Sunbrella® and Dickson® are registered trademarks of Glen Raven, Inc. Tenara® is a registered trademark of W. L. Gore and Associates.

Solair® Pro II Valance Plus System

The Solair Pro II Valance Plus System is a vertical roll-down drop valance option that provides protection from the setting sun. A standard 4-foot vertical fabric drop from the front bar is optimal for western exposures.

The Valance Plus System consists of a cassette and a drop valance fabric (valance fabric sold separately). The design of the cassette also accommodates a standard fixed valance. The Valance Plus cassette is available in white, sand, beige and bronze frame colors. The system is only available for the Pro unit with projections up to 10ft 2in and widths up to 20ft. Allow for additional delivery time.

Warranty	10-year limited warranty on Solair Pro II Valance Plus framework. Fabric warranties will vary but most have 5 or 10 year limited warranties.
----------	--

Solair® is a registered trademark of Glen Raven, Inc.

Solair® Pro II Valance Plus Fabric

Solair Pro II Valance Plus Fabric is supplied for use in the Solair Pro II Valance Plus System. The fabric is available in widths from 10 feet to 22 feet, with a standard drop of four feet. Available in 90% Textilene® in five stock colors (Black, Brown, Beige, Grey and Desert Sand).

Solair® is a registered trademark of Glen Raven, Inc. Textilene® is a registered trademark of Twitchell Corporation.

Solair® Comfort Retractable Awning

Made with the same quality components as the Solair Pro, Solair Comfort offers the best value in a shade system. Your customers can fully enjoy their outdoor spaces with this easy-to-use, retractable awning. It adds beauty, reduces energy bills, and protects furniture from harmful UV rays.

Standard Features

Frame: All aluminum frame components are electrostatic powder coated to provide a corrosion-resistant, high quality finish.

Arms: Arm control features double galvanized steel cables, wrapped in PVC for corrosion resistance and long life.

Hardware: Durable, die-cast arm construction.

Performance: Earned TUV Certification for its quality, durability and workmanship.

Front Bar: Front bar attachment has dual-action feature that increases flexibility and reduces strain on the awning during a wind gust.

Styling

Frame Colors: White and Beige.

Fabric Options: Hundreds of fabric choices from Sunbrella® and Dickson®.

Available Sizes

Widths: 11 feet 9 inches, 15 feet 6 inches, 19 feet 3 inches.

Projection: 10 feet 2 inches.

Motorized Operation

Simu CMO motor features override winding eye and hand crank. Handheld remote included with motorized option. Allows awning operation with the touch of a button from up to 65 feet away.

Optional Features

Wireless Wind Sensor: Automatically retracts awnings upon detection of damaging winds.

Awning Assist Brace: Removable brace engineered to add support and stability to any Solair retractable awning.

Protective Hood: Protects fabric and motor while providing a finished look.

Warranty	5-year limited warranty on Solair Comfort framework. 10-year limited warranty on Sunbrella shade fabrics. 5-year limited warranty for specialty and decorative shade fabrics. 5-year warranty on Somfy motors. Solair® Power Screen

Revamp your customer’s space with the click of a button so they can enjoy the outdoors on their terms. The Solair Power Screen transforms residential and commercial outdoor spaces into comfortable, ventilated, pest-free environments, protected from harmful UV rays. Solair Power Screens are motorized, manual operation may be available on some sizes. Each Solair Power Screen is custom-designed and fabricated to fit the shape and design of the structure. When not in use, the screen retracts out-of-sight and blends stylishly with the building’s exterior.

The SRS (Side Retention System) Power Screen is widely known as the highest performing screen system on the market today. The key to the superior functionality of the SRS is its fully retained fabric inside of aluminum side rails. The design creates a tight fit and long lasting performance.

With the increase in popularity of clear vinyl and fabric enclosures utilizing the Power Screen SRS, there are added precautions that you need to be aware of. When these screens are deployed, it is imperative someone observes the deployment of each screen (we do not recommend putting more than one screen per channel on a remote control). Operation in conditions in which wind and/or cold temperatures are present can result in the screen encountering a stall. Please consult your Trivantage sales representative on all clear vinyl and fabric enclosures.

Specially designed housing cassettes in three sizes allow product widths from 4ft to 25ft, and drops from 3ft to 20ft. Additional sizes may be available if needed. Consult your sales associate for additional information.

Offered in a variety of screening and shading options to suit your customer’s needs.

When lowered in the summer months, Solair Power Screen fabrics will reduce air conditioning costs.

During cooler weather, the Solair Power Screen can be kept open to allow the sun’s warmth to penetrate the interior.

Utilizing the latest technology, many Solair Power Screen fabrics are not only fire retardant, but industry leaders in puncture, tear and mildew resistance. Manufactured with the highest grade aluminum and nylon components, Solair Power Screens stand up to the toughest environments.

Power Screen frames are available in eleven colors: Black, Bronze, Brown, Desert Sand, Gray, Green, Tan, Navajo, Silver, White, Bright White. Custom colors are available at additional cost.

Motorized operation is recommended for all screen installations for quick deployment or retraction when needed. Motors offered are matched to the torque required based on fabric and frame weight.

Warranty	10-year limited frame warranty. Proper installation techniques must be followed to ensure long-term performance. Improper installation techniques will void warranty. Please consult your sales representative for installation guidelines.

Solair® Vertical Curtain

The Solair Vertical Curtain provides an economical way to offer your customers a retractable vertical shade. These shades can reduce cooling costs and keep the heat outside the home. Perfect for both residential and commercial applications such as patios, gazebos and storefront settings. The system includes roller tube, gear, winding brace and mounting hardware.

Standard Features

Frame: Made with electrostatic powder coated aluminum and galvanized steel components for a strong but light weight unit.

Winding Brace: Available in 24 inch, 57 inch, 65 inch (standard), or 77 inch.

Styling

Frame Colors: White, Beige, Bronze.

Available Sizes

Frame kits are available in widths from 4 feet to 20 feet.

Motorized Operation

Optional motorized operation available and recommended for ease of use.

Optional Features

Remote Control: Allows you to operate curtain with the touch of a button from up to 65 feet away.

Protective Hood: Protects fabric and motor while providing a finished look.

HH-66 Vinyl Cement

Easily and quickly applied, this cement provides a fast drying and exceptionally strong bond to all types of vinyl coated fabrics, vinyl laminated fabrics, plastics, metals, glass, wood and leather. It can also be used for sealing or waterproofing seams. One ounce provides one square foot of coverage. Shelflife is eighteen months.

Flammable. U.S. domestic ground shipping only.

Item Number	Fabric	Put Up	Standard Package
212500	Vinyl Coated, Vinyl Laminated	8 oz. brushtop can	12
212502	Vinyl Coated, Vinyl Laminated	1 qt. brushtop can	12

214326

HH-66 Thinner

Designed for use with HH-66 Vinyl Cement, this thinner removes unwanted HH-66 from surfaces and can be used to clean brushes, rollers and spray guns.

Flammable. U.S. domestic ground shipping only.

Item Number	Put Up	Standard Package
214326	1 pt. can	1

212402

HAR Adhesive – 628 For Bonding Neoprene Coated Fabrics

A fast-drying, solvent based contact bond adhesive possessing unusually high strength and outstanding high and low temperature resistance in addition to excellent water, oil, grease, chemical and weather resistance. While primarily designed for bonding Neoprene, acrylic and canvas, this versatile adhesive may be used for bonding a wide variety of synthetic fabrics, rubber stocks, leather, rigid plastics, metals, wood, hardboard and many other porous and non-porous materials. Adhesive 628 applies easily with a brush, roller, trowel, or spray gun. One gallon covers approximately 250 to 300 square feet of surface area. Adhesive can be thinned with MEK or Acetone.

Subject to special handling charge by shippers. ICC Shipping Classification: Adhesive Cements, NOIBN, flammable liquid.

Item Number	Put Up	Standard Package
212402	1 pt. brushtop can	24

212411

HAR Adhesive – 728 For Bonding Vinyl To Vinyl

A medium, fast-drying solvent-based synthetic resin adhesive designed primarily for bonding supported or unsupported vinyl fabric to itself or to various porous and non-porous materials. This cement is not recommended for laminates. (Adhesive 730 should be used for vinyl laminated fabrics.) Adhesive 728 may also be used for bonding polyurethane, canvas, synthetic fabrics, leather, metals, wood, glass, rigid plastics and some foams. Adhesive 728 applies easily with a brush, roller or spray gun. Adhesive 728 can be used on tarpaulins, awnings, tents, covers, drop cloths, liners, tops, textile bags and in truck and boat repair kits. One gallon covers approximately 250 to 300 square feet of surface area. Adhesive can be thinned with MEK or Acetone.

Subject to special handling charge by shippers. ICC Shipping Classification: Adhesive Cements, NOIBN, flammable liquid.

Item Number	Put Up	Standard Package
212411	4 oz. brushtop can	24
212412	1 pt. brushtop can	24
212414	1 qt. can	6

212420

HAR Adhesive – 730 For Bonding Vinyl-Laminated Fabrics

A fast-drying, solvent-based synthetic resin adhesive primarily designed for bonding laminated vinyl fabrics. Adhesive 730 may also be used for bonding vinyl-coated fabrics, polyurethane coated fabrics, many synthetic fabrics, canvas, leather, wood, metals, glass and various other products. Adhesive 730 under normal conditions of use will not blister or delaminate laminated vinyl fabrics. Adhesive 730 dried films are tough, flexible, clear, colorless, glossy and non-tacky. Adhesive 730 films are resistant to water, fuels, oils, greases, plasticizers, chemicals and weathering. Adhesive 730 applies easily using a brush, roller or spray gun. The shelf life of Adhesive 730 exceeds one year under normal storage conditions.

Adhesive 730 can be used in the manufacture and repair of tarpaulins, covers, awnings, tents, tops, dropcloths, liners, textile bags, and in boat, truck and pool repair kits. Adhesive can be thinned with MEK or Acetone.

Subject to special handling charge by shippers. ICC Shipping Classification: Adhesive Cements, NOIBN, flammable liquid.

212420	4 oz. brushtop can	24
212421	1 pt. brushtop can	24

212430

HAR Adhesive – 740 For Cotton Ducks

A quick-drying (1 hour) adhesive for bonding and repairing various cotton ducks. Apply to one surface only, using paddle or knife. Patch is flexible after drying; some absorption by fabric.

Subject to special handling charge by shippers. ICC Shipping Classification: Adhesive Cements, NOIBN, flammable liquid.

Item Number	Put Up	Standard Package
212430	4 oz. brushtop can	24

265801

HAR Adhesive – 729 Vinyl Seam Sealer

A fast-drying solvent-based synthetic resin adhesive primarily designed for sealing stitched seams on vinyl-coated and laminated fabrics, and many other fabrics. Dried films of Adhesive 729 will show no tackiness up to temperatures over 140° F and will retain flexibility at very low temperatures. Adhesive 729 can be easily applied using a brush, roller or spray gun. One gallon covers approximately 250 to 300 sq. ft. of surface area. Adhesive can be thinned with MEK or Acetone.

Subject to special handling charge by shippers. ICC Shipping Classification: Adhesive Cements, NOIBN, flammable liquid.

Item Number	Put Up	Standard Package
265801	4 oz. brushtop can	24
265804	1 qt. can	6

212006

Tear Mender

Mends instantly. Waterproof. Mends and repairs canvas, tarps, awnings, acrylic material, leather goods, work clothing, and any other material it can penetrate. UV resistant. Contains no harsh or harmful chemicals. Manufactured for a 2-year shelf life.

Tear Mender can be shipped via regular UPS – no hazardous handling fee required. Not shipped when temperatures are below freezing (32° F).

212041

Tear-Aid® Patch Retail Kits

Made from an exceptionally tough, matte finish, abrasion resistant, polyurethane elastomer that resists puncture and tearing. It is combined with an aggressive adhesive formulated for high bond strength to a variety of surfaces. Holds air, holds water, won't pull off when stretched, see-thru patch, UV resistant, conforms to irregular surfaces, cuts easily with scissors, and won't turn gummy in high heat.

Type A Repairs: Canvas, most fabrics, rubber, neoprene, most plastics, nylon, fiberglass, stainless steel, aluminum, polyethylene, polypropylene, polyurethane, non-oiled leather, Sunbrella®.

Type B Repairs: Vinyl and vinyl-coated materials. Has a new, unique adhesive that resists the oils in vinyl that cause other adhesives to fail.

Each patch kit contains: (1) 3" x 12" patch that cuts with scissors to any size, (1) 7/8" x 7/8" patch, (1) 1 3/8" x 1 3/8" patch, (1) 12" reinforcement filament for repairing tears at edges, (2) alcohol preparation pads, (1) illustrated instructions and a product repair list. Retail kits include display.

212020

Tear-Aid® Roll Patches

Repairing torn canvas, nylon, rubber, plastic or vinyl has never been easier with Tear-Aid Roll Patches. Clear, elastic Tear-Aid Roll Patches contain a high performance adhesive preapplied to a rugged backing that allows a tear to recover under pressure. No messy liquid adhesives are needed. All you do is peel and stick.

Tear-Aid Roll Patches are available in two styles – Type A and Type B. Type A is designed for the repair of canvas, nylon, rubber and plastic. Type A should not be used on vinyl or vinyl coated products, as the inherent oils in vinyl will cause the adhesive in Type A to fail prematurely. Type B has been designed specifically for the repair of vinyl or vinyl coated items only, as it contains special adhesives to resist the oils in vinyl that would otherwise cause premature failure.

Tear-Aid Roll Patches also have excellent durability against puncture, moisture, saltwater, sunlight and temperature. Convenient 30 foot rolls, in versatile widths of 3 inch or 6 inch, allow patches to be custom-cut and overlapped for unlimited size and unlimited repair applications, from boat tops, covers and seats, to canvas and vinyl tents and tarpaulins, to awnings, banners and umbrellas.

Item Number	Description	Size	Standard Package
212020	Fabric Type A	3 in. x 30 ft.	1
212022	Fabric Type A	6 in. x 30 ft.	1

214091

303® Aerospace Protectant™

Regular use of 303 Aerospace Protectant offers 100% prevention of UV-caused slow-fade. No other protectant beautifies as intensely, protects as powerfully or lasts as long. Keeps UV-sensitive materials "like new" year after year. Use on patio furniture accessories, vehicles, sports equipment and more.

Apply only on clean surfaces and for best results use with 303 Multi-Surface Cleaner. To catch overspray, place a drop cloth under or around the surface to be treated. Do not apply in direct sunlight. Spray surface with Aerospace Protectant and wipe completely dry. If streaking occurs, too much product has been applied. Use a wet towel to remove excess, immediately wipe completely dry.

This product does not air dry. Extra buffing with a dry cloth increases bonding, repellency and longevity. Apply every three to five weeks for maximum UV protection.

Item Number	Style Number	Put Up	Standard Package
214091	30340	16 oz. trigger sprayer	6
214093	30320	1 gal. refill	4

214080

303® Multi-Surface Cleaner™

303 Multi-Surface Cleaner is designed for marine canvas, fabric convertible tops, awnings, indoor and outdoor furniture, carpet and upholstery. It safely removes even the most difficult stains. Rinses residue free. No foam, no fumes, no odor.

To apply, spray directly on spot until wet. Agitate with a soft brush or wet cloth. Using a damp cloth, wipe up stain and excess cleaner, rinsing out the cloth in clean water as necessary. Let surface dry. For heavier soils, increase agitation and soak time. Repeat if necessary.

303 products should not be used on Strataglass™, PanoramaFR or CrystalClear clear vinyl.

303 Multi-Surface Cleaner is endorsed by Glen Raven, Inc. for Sunbrella® fabrics.

213980

IMAR™ #301 Strataglass™ Protective Cleaner

Uniquely formulated to clean, shine and protect Strataglass, PanoramaFR and CrystalClear clear vinyl and its scratch-resistant protective coating. Special UV inhibitors significantly extend the useful life of Strataglass clear vinyl by minimizing the deteriorating effects of sunlight. This helps defeat age-induced brittleness and promotes continued flexibility. Safe to use daily and is recommended to be used often to properly maintain the clarity of Strataglass clear vinyl. Helps rejuvenate the protective properties of IMAR Strataglass Protective Polish #302, which should be used on a less frequent but regular schedule. Use of any cleaner or polish product other than IMAR Strataglass Protective Cleaner and Polish voids the factory warranty.

IMAR #301 Strataglass Protective Cleaner is endorsed by Strataglass, Inc. for Strataglass, PanoramaFR or CrystalClear.

214191

IOSSO® Mold And Mildew Stain Remover

Removes mold, mildew, algae stain, tough dirt, oils, leaf stains, tree sap, bird droppings, food stains, and blood stains. Recommended for use on awnings, canopies, tents, patio furniture, cushions, umbrellas, spa covers, tarps, boat covers, camping gear, vinyl, plastic and fiberglass. It is gentle to skin and has no harmful vapors. Just add water to the biodegradable, non-chlorine powder and work the solution into the soiled area. One gallon covers up to 150 square feet. The 12 ounce jar makes three gallons of solution. The 65 ounce pail mixes up 16 gallons of solution.

Item Number	Style Number	Put Up	Standard Package
214190	10900	12 oz.	6

213985

IMAR™ #302 Strataglass™ Protective Polish

A polymer-based product formulated to safely clean, polish and protect Strataglass and CrystalClear clear vinyl and its scratch-resistant protective coating. Designed with a unique molecular bonding that creates a nearly invincible protective barrier against the damaging effects of marine environment pollutants. Recommended for use every 2 to 3 months and every 4 to 6 weeks in areas of high fallout. Frequent use of IMAR Strataglass Protective Cleaner #301 between polishing will increase protection by rejuvenating the protective qualities of IMAR Strataglass Protective Polish.

Item Number	Style Number	Put Up	Standard Package

SolaMesh® Shade Sail Hardware

Engineered to work seamlessly with SolaMesh shade sail fabric, SolaMesh hardware is available in a variety of sizes to meet all demands. Made of stainless steel type 316, it is built for lifting and rigging purposes. SolaMesh hardware is backed by a 5-year warranty.

Note: The completed structure should be properly designed by a professional engineer and installed by an experienced contractor in accordance with local building codes. It is the responsibility of the fabricator to determine the right hardware for a specific structure. It is recommended that an anti-seize product like Ultra Tef-Gel Marine Lubricant (Item #214324) be used on turnbuckle threads to reduce binding.

Polyfab™ Pro Shade Sail Hardware

This premium line of hardware is ideal for use in tension shade structures such as hip and ridge and tension membrane shade sails. Use in conjunction with HDPE knitted shadedcloth or equivalent fabrics. Polyfab Pro hardware is backed by a 5-year warranty.

Note: The finished structure should be properly engineered by a professional engineer and installed by a qualified contractor in accordance with local building codes. It is the responsibility of the fabricator to determine the proper hardware for a particular installation. It is recommended that an anti-seize product such as Ultra Tef-Gel Marine Lubricant (Item #214324) be used on turnbuckle threads to minimize binding.

Please refer to www.trivantage.com for proper care and cleaning of all Polyfab Pro hardware.

123389

Awning Hardware – Slip-Fit Square Elbow – Malleable Iron

This Slip-Fit square elbow is made from plated, malleable iron and furnished with set screws. Its square design ensures a better fitting cover. Use to join front bars with end rafters.

Slip-Fit fittings provide a time and labor-saving method to install awnings. No threading is needed as they just slide on or over the pipe frame and are tightened with set screws. They allow rapid adjustment when the piping is not cut to precise size.

Suggested uses: joining right angles of any awning frame assembly.

Item Number	Style Number	Description	For	Number Of Set Screws	Standard Package
123386	285	Includes stainless steel screws	7/8 in. OD tubing, 1/2 in. ID pipe	2	1
123387	287	Includes stainless steel screws	1 in. OD tubing, 3/4 in. ID pipe	2	25
123389	289	Includes stainless steel screws	1-1/4 in. OD tubing, 1 in. ID pipe	2	10

Awning Hardware – Pin Or Nut End

Threaded Pin/Nut End made of plated, mallable iron. Includes a stainless steel nut. Use with side nut hinge or front cotter hinge

Item Number	Style Number	Standard Package	Threaded For Size
124702	2	25	1/2 in. pipe

124002

Awning Hardware – Eye End – Malleable Iron

Threaded Eye End made from GEOMET® plated, malleable iron. Placed on the ends of arms and rafters for fastening onto hinges or jaws. Use with side nut hinge or front cotter hinge.

Item Number	Style Number	Standard Package	Threaded For Size	Type
124010	10	25	3/4 in. pipe	Large eye

124702

124190

Awning Hardware – Slip-Fit Eye End – Malleable Iron

These specially designed Slip-Fit eye ends are made from plated, malleable iron. The fittings are properly proportioned for the greatest rigidity. The small eye permits a snug fit between the eye end, rod, and rafter holder. A 2-inch barrel depth assures greater holding power. The eye end is furnished with a stainless steel set screw.

Slip-Fit fittings offer a labor and time-saving way to build awnings. No threading is required as they simply slip on or over the pipe frame and are tightened with a set screw. They allow fast adjustment when the pipe is not cut to exact length.

Suggested uses: awning pipe frame assemblies, supporting pipe posts.

Item Number	Style Number	For	Maximum Bolt Standard	Number Of Set Screws	Standard Package
124188	286	3/4 in. OD tubing, 1/2 in. ID pipe	1/4 in.	1	25
124190	290	1 in. OD tubing, 3/4 in. ID pipe	7/16 in.	1	25
124191	291	1-1/4 in. OD tubing, 1 in. ID pipe	7/16 in.	1	1

130581

Awning Hardware – Slip-Fit Adjustable Front Bar

These Slip-Fit adjustable front bars include plated-steel clamps, a zinc die-cast collar, and stainless steel hardware. The interlocking three-piece fitting provides a rigid, low-cost assembly. Simply slip over the pipe and adjust to your desired position by tightening the set screw. With both hands free, you can quickly bolt the bottom section to the top section for a sturdy, reinforced assembly.

Slip-Fit hardware offer a time and labor-saving means to install awnings. No threading is needed as they just slide on or over the piping frame. They permit fast modification when the piping is not cut to exact size.

Suggested uses: awning pipe frames.

Item Number	Style Number	For	Number Of Set Screws	Reducing For Pipe Size	Standard Package

140104

Awning Hardware – Rod And Rafter Holder No. 4

Rod and rafter holders are designed for attaching heads and rafters of patio or stationary awnings, eliminating the need for separate clamps for head rod or hinges for the rafters. Made of GEOMET® plated, malleable iron. Furnished with stainless steel machine bolt and wing nut to hold the head rod, machine screw and square nut, for fastening the rafter.

A combination fixture for application on brick, wood or concrete. It has two countersunk holes for wood screws. There is also a hole for a 5/16 inch or 3/8 inch lag screw. The No. 4 Rod and Rafter Holder is especially suitable for application and installation on narrow trim boards.

Item Number	Style Number	Size Head Rod	Standard Package
140104	4	1/2 in. diameter iron	25

GEOMET® is a registered trademark of NOF Metal Coatings North America Inc.

113234

Awning Hardware – Slip-Fit Tie Down Clamp – Steel

This Slip-Fit tie down clamp is made from plated, stamped steel with a stainless-steel bolt and hex nut. Tie down clamps are designed to eliminate pocketing of rainwater on stationary or terrace awnings. Their use permits fixed awning covers to be drawn taut. Assembly can be made quickly on new or old awning frames. Also available in aluminum.

Slip-Fit hardware supply a labor and time-saving means to build awnings. No threading is needed as they just slide on or over the piping frame. They allow rapid modification when the piping is not cut to precise size.

Suggested uses: awning pipe frames for fixed awnings.

Item Number	Style Number	For	Front Bar Size	Standard Package
113233	33	1 in. OD Tubing, 3/4 in. ID Pipe	3/4 in. pipe	25
113234	34	1-1/4 in. OD Tubing, 1 in. ID Pipe	1 in. pipe	25

162703

Awning Hardware – Slip-Fit Adjustable Post Socket – For Brick – Malleable Iron

This Slip-Fit adjustable post socket is furnished with two lag screw holes for attaching to brick. It is made from plated, malleable iron and comes with a stainless steel set screw. Also available in aluminum.

Slip-Fit fittings provide a labor and time-saving means to install awnings. No threading is required as they just slide on or over the pipe structure. They allow fast adjustment when the piping is not cut to exact length.

Suggested uses: awning pipe frames.

Item Number	Style Number	For	Number Of Set Screws	Standard Package
163703	3	1 in. OD tubing, 3/4 in. ID pipe	1	25
163704	4	1-1/4 in. OD tubing, 1 in. ID pipe	1	1

Head Rod – Electro-Galvanized

In the bending process of making awning frames, this awning iron will not break when bent to right angles. The zinc plating will not chip or flake off during bending. Drawn to full sizes, the iron threads easily and exactly for perfect fitting with pipe-threaded frame fixtures. Also used for lacing and tie down bars, and in conjunction with head rod molding.

Item Number	Diameter	Length	Standard Package	Weight Per Bundle	Weight Per Foot

Molding – Aluminum Awning

A fast and easy way to install covers. Mill finish, all-aluminum molding that remains in place all year. 6063-T6 aluminum. Cover slides into place easily. 1/4 inch rope is sewn into hem at top of cover. Then, the rope-filled hem slips into the channel of the molding. Allows for easy installation and removal. PE Tubing, Vinyl Welt, or 8.5 m Keder Welt can also be used.

Product is also commonly known as “trailer” molding.

No. 555 Moldings are lighter in weight than No. 777, and are flexible enough to form and bend to varying shapes. Recessed mounting face conforms readily to uneven surfaces.

265757

Emseal UST Awning/Sign Sealant Tape

Why spend time caulking behind awning frames and suffer the frustration of messy jobs, dripped caulk and caulking in bad weather, when all you have to do is apply Awning Foam Sealant to the frame before it's hoisted on the wall?

Available in dimensions to fit most building surfaces, this self-expanding polyester polyurethane foam is filled with water-based stabilized acrylics and will not dry out, shrink or deteriorate when compressed and properly installed. Just peel off the release liner and apply the adhesive side to the back of the awning. This is a continuous seal that is easy to install at ground level, thus providing a safer and more efficient installation atmosphere.

Item Number	Building Surface	Size	Standard Package
265757	Commercial Grade Corrugated Metal	5/16 in. x 3/4 in. x 13.12 ft.	1
265755	Stucco, Block, Brick	5/32 in. x 5/8 in. x 26.24 ft.	1

Xtreme Seal® Awning Seal

Awning installations are a breeze with Xtreme Seal Awning Seal. Designed for the awning industry as a gasket material between the frame and the mounting surface, Xtreme Seal Awning Seal conforms to the contour of the mounting surface, eliminating the need for silicone and providing a clean finished product. Made of EPDM synthetic rubber, Xtreme Seal Awning Seal also features an adhesive back, saving time and making mounting easy. Sold in full rolls only.

Molding – Head Rod Molding No. 35/37

117139

124538

124540

Nos. 35 and 37 Head Rod Moldings are designed for use with a 1/2 inch diameter conventional head rod to eliminate the awkward job of threading a rope-filled hem through a slot in the molding. The head rod is merely placed in position and finger clips are tightened to hold the head of the awning under the rainproof lip of the molding. The finger clips ride in a track in the molding and can be adjusted to move laterally right or left.

The advantage of this system is that rafters can be placed precisely, even if the surface is uneven or the mounting supports are not located where the rafters should be, because once the molding is mounted, the rafters can be slid to their proper location.

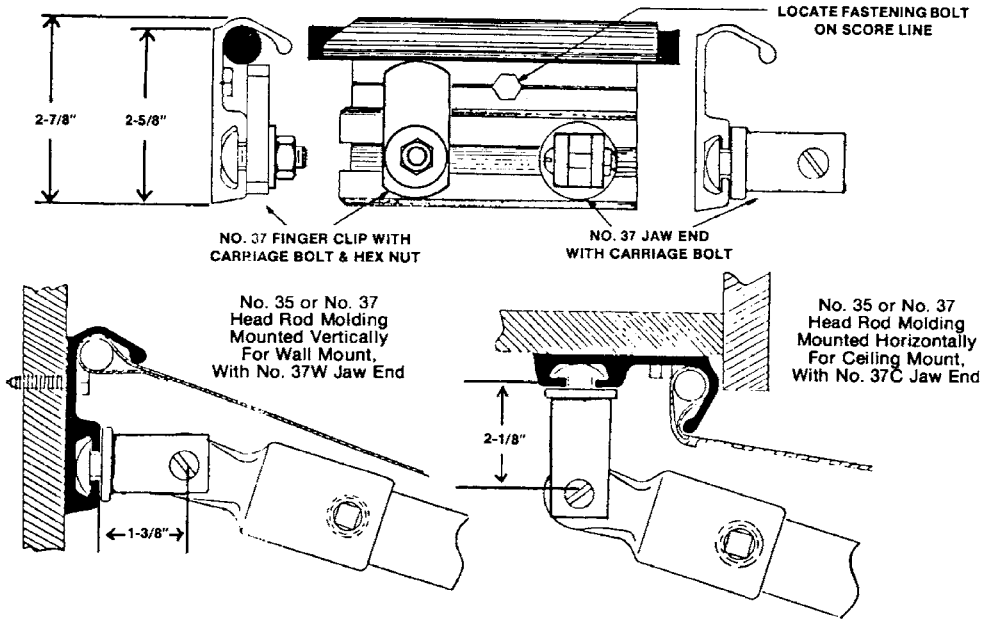

Recommended rafter spacing is 1 1/2 feet in from each side, and then 3 feet to 4 feet centers depending on projection (the longer the rafters, the less the spacing). Awning rafters are attached to special jaw ends that are mounted in a track in the lower side of the molding. The jaw ends can be moved laterally to adjust the rafter width. This is done by turning or tightening the jaw end, which is fitted with a carriage bolt to ride in the same track as the finger clip.

The molding itself is designed so that a bead of caulking compound can be applied to the top length of the molding to prevent water from leaking behind the molding and down the wall.

The No. 35 Molding has the same basic design as the No. 37, but is 25% lighter in weight, with approximately 90% of the No. 37's strength. The No. 37 Finger Clip, No. 37W Jaw End and 1/2 inch Head Rod Clamp can be used with the No. 35 Molding without alteration.

Steel Stitch™ Aluminum Extrusion

The Steel Stitch System offers flexibility in design and fabrication of interior and exterior awnings, canopies and back-lit signs. The aluminum alloy 6063-T5 mill finish frame system utilizes the “staple-in” method of attaching fabric, which is taken directly from the roll and stapled into a channel in the frame. A PVC finishing trim is then driven into the channel to cover the staples. With the use of divider strips to join sections and the exclusive, patented FlashStrip®, which forms a watertight seal against building surfaces, the result is an attractive, seamless and wrinkle-free awning, canopy or sign.

Gatorshield® – Galvanized Finish Steel Tubing

Gatorshield steel tubing offers triple layer corrosion protection on the exterior surface consisting of zinc, a conversion coating and a clear organic topcoat. The interior is fully covered with a corrosion-resistant zinc coating. Independent tests have proven our steel tubing offers dramatically higher corrosion resistance than other products being marketed for awning framework.

502109

E-Z Lace Supreme®

E-Z Lace Supreme eliminates the need to insert grommets. A 1 inch re-enforced side hole size makes lacing that much easier and quicker, while the 3 inch center spacing of the holes greatly increases manufacturing design flexibility. E-Z Lace Supreme also has a specialized and durable finish that resists mildew and ultraviolet rays, significantly increasing long-term strength and durability.

Item Number	Style Number	Color	Material	Put Up	Width

ACW Cam Buckles

Item Number	Style Number	Color	Material	Standard Package	Webbing Size
207720	91390 CB	Black	Acetal	100	1 in.

586430

Fastex® Cam Buckle

This versatile buckle works with a camming action directly against webbing. It provides easy adjustment and high security at the same time and is suitable for a wide range of webbing applications. One-handed quick release.

Item Number	Color	Color Number	Material	Standard Package	Webbing Size
586430	Black	525	Acetal	100	1 in.

Fastex® is a registered trademark of ITW.

586110

Fastex® Barreloc

Limitless applications include locking sleeping bag and parka hood draw strings. Can be used with either one or two cords.

Item Number	Color	Cord Size	Material	Standard Package
586110	Black	3/16 in.	Acetal	100

Fastex® is a registered trademark of ITW.

586578

Fastex® Ellipse Cordloc

Provides an option for a lanyard tie down to assist in hand adjustments.

Item Number	Color	Cord Size	Material	Standard Package
586578	Black	1/4 in.	Acetal	1000

Fastex® is a registered trademark of ITW.

585630

Fastex® D-Ring

These D-rings are perfect whenever a sturdy attachment point is required. Unlike metal D-rings, they won't rust or corrode.

Item Number	Color	Material	Standard Package	Webbing Size
585630	Black	Acetal	100	1 in.
585660	Black	Acetal	100	1-1/2 in.
585675	Black	Acetal	100	2 in.

Fastex® is a registered trademark of ITW.

585775

Fastex® Looploc

Ideal for holding straps or webbing where no adjustment is needed.

Item Number	Style Number	Color	Material	Standard Package	Webbing Size
585715	111-0100	Black	Acetal	100	1 in.
585760	111-0150	Black	Acetal	100	1-1/2 in.
585775	111-0200	Black	Acetal	100	2 in.

Fastex® is a registered trademark of ITW.

Fastex® Shock Cord Hook

These shock cord fasteners will not mar or scratch anything they touch. The entire unit is molded, which eliminates the necessity of using a metal crimp ring. They are also rust and corrosion proof. Operates under all weather conditions. Not affected by salt water.

Item Number	Style Number	Color	Cord Size	Material	Standard Package
586920	605-0250-5614	Black	1/4 in.	Acetal	100
586930	605-0375	Black	5/16 in.	Acetal	100

Fastex® is a registered trademark of ITW.

Fastex® Triglide™ 3 Bar Slide

For sporting, recreational, luggage, medical, apparel and juvenile products. Extremely popular in the floatation and backpacking industries, these buckles can be used wherever webbing closures are needed. Useful in just about any application in which a variable length strap assembly is required.

Item Number	Style Number	Color	Material	Standard Package	Webbing Size
585930	105-0100	Black	Acetal	100	1 in.

DOT® Durable™ Blind Rivet Stud

230932

This component will provide the installer with a convenient method for securing a stud on hard surfaces such as steel, aluminum, tubing and panels.

Blind Rivet Studs are set in the same manner as typical pop rivets and eliminate the need for threading a stud into a pre-drilled hole or using a machine screw and nut combination. Used with the X2-10128 Button and XB-10224 Socket or similar combinations.

DOT® Durable™

Durable Fasteners are a medium-sized heavy-duty button type snap fastener. They are used largely by manufacturers of boat covers, porch curtains and industrial curtains. These fasteners are available in nickel or black finish on brass. Sold only in full package lots of 100, 1,000 or 10,000 pieces where indicated. Certain durable fasteners meet Government Specification MS-27980.

Fasnap® Rib Tree Bolster Fasteners

This 3/4 inch panel fastener with ribbed shank assures easy installation and secure hold. One ribbed end is pushed into primary panel to retain clip. Second panel is pushed down onto projecting ribbed end to complete the assembly.

Fasnap® Fasteners

High rust and corrosion resistant button, normal action socket, stud, and eyelet. The button and eyelet are, in many instances, able to self-pierce through multiple layers of fabric. All four components are interchangeable with nickel-plated brass screw studs or other snap fasteners and tools, eliminating special die requirements.

DOT® Lift-The-Dot®

Featured below are styles available, complete with parts indicated. Sold only in full package lots of 100 pieces or 1000 pieces. Lift-The-Dot Fasteners are available in nickel or black oxide finish. Certain Lift-The-Dot fasteners meet Government Specification MS-27977. Strong and heavy duty, Lift-The-Dot fasteners lock on three sides and are opened by lifting the fourth side where the Dot and the Lift-The-Dot trademark appear.

DOT® and Lift-The-Dot® are registered trademarks of Scovill Fasteners, Inc.

DOT® Pull-The-Dot®

The Pull-The-Dot Fastener is a side-locking snap fastener, similar to the Durable™ Glove-style fastener, except for its “built-in” locking feature. This fastener will withstand extreme pressure on three sides without unlocking, yet will release instantly on the fourth side if one “pulls the dot” embossed on one side of the button. Pull-The-Dots have no sharp edges or protrusions to tear or mar the fabric to be fastened.

Since the socket opens only on one side, care must be taken that the button and socket are set so that the fastener can be opened at the desired position.

Q-Snap® Fasteners

The patented Q-Snap system is similar to the standard press-fastener, with the exception of two additional parts: a ring underneath the cloth and a hook on the deck. This combination turns the fastener into a secured connection that won't pop loose, while incorporating a stretch-function that acts as a lever. The result allows you to easily overcome the cloth tension as you fit the fastener.

Installation is like a normal press fastener, but with special tools that make it faster than other secured fasteners. There are no extra parts, thanks to smart pre-assembly.

Resistant to seawater, Q-Snap is made from high quality 316 stainless steel. The special ring spring in the socket is dimensionally stable and even more resistant to corrosion than 316 stainless steel. A thin rubber layer isolates the Q-stud to prevent tension corrosion. Above all, it is the only secured fastener without moving parts, making it very durable and robust.

Developed for covers and sprayhoods on boats, Q-Snap is an ideal solution for any application that requires textiles to be tight and secure.

Starter Kit includes: 50 Q-Caps, 50 Q-Sockets, 25 Q-Studs (including screw), 25 Q-Studs, 25 screws, 25 M4 bolts, 25 self-drilling screws, 25 eyelets, 5 blind rivets, Q-Stud holder, Q-Stud marker, 5 Q-Installation pins, 5 Q-Stud covers, hand punch set, 25 ringlets and 25 plugs.

DIY Pack includes: 10 polished Q-Caps, 10 Q-Sockets, Q-Studs with screws and hand punch tool.

CAF-COMPO Screw-Studs

231179

CAF-COMPO screw studs are for use in fiberglass, wood, and other composites. It is made from UV-stabilized, glass fiber-reinforced, thermoplastic. Available in four colors, the composite screw stud is made to match any standard boat color and its unique design fits any regular ring spring socket. Tested to hold 500 N of force, it delivers better performance and a stronger hold. 100% corrosion free and UV resistant, it is built for tough marine conditions. The lightweight piece of marine hardware is safe and quick to install. Use wherever a composite marine fastener is needed.

Snapfast® System

The Snapfast fastening system offers an alternative to traditional all- metal directional fasteners. This non-corrosive directional fastening system has no moving parts and unlocks from one direction only. The sockets and studs are manufactured from heavy-duty polyacetal with a UV stabilizer. Snapfast’s stainless steel pronged cap self-pierces most industrial fabrics and installs easily using hand tools.

Bimini Bow Frames

205381

Bow Bimini top kit (minus fabric). Comes in ready-to-assemble kit form. Packaged one boat set per box with hardware. Made with 7/8 in. outside diameter by 0.058 wall 6063, T832 hard drawn marine aluminum tubing with a brite anodized finish and joined together with inside sleeves. The radius of the bends is 6 in. inside diameter.

2-Bow Contents:

- 4 x Eye End - Chrome plated, zinc die-cast, 7/8-inch OD tubing (#282184)
- 2 x Jaw Slide - Chrome plated, zinc die-cast, 7/8-inch OD tubing (#287881)
- 2 x Deck Hinge - Chrome plated, zinc die-cast (#284084)
- 2 x Eye Strap - Chrome plated, zinc die-cast (#287890)
- 4 x Adjuster Buckle - Stainless steel type 304, single bar, 1-inch (#207620)
- 2 x Spring Snap - Zinc plated, steel wire snap, 1-inch (#266741)

3-Bow Contents:

- 6 x Eye End - Chrome plated, zinc die-cast, 7/8-inch OD tubing (#282184)
- 4 x Jaw Slide - Chrome plated, zinc die-cast, 7/8-inch OD tubing (#287881)
- 2 x Deck Hinge - Chrome plated, zinc die-cast (#284084)
- 4 x Eye Strap - Chrome plated, zinc die-cast (#287890)
- 6 x Adjuster Buckle - Stainless steel type 304, single bar, 1-inch (#207620)
- 4 x Spring Snap - Zinc plated, steel wire snap, 1-inch (#266741)

Tele-Sun Shade Poles

The Tele-Sun Shade Pole is a premium product that allows boaters to escape from the sun’s UV rays while on their boat. Built to handle harsh marine conditions, these top-of-the-line shade poles are made from UV-protected carbon fiber. The poles are easy to install and stow for effortless boat shade. Simply place the poles in the boat’s rod holders, secure the shade fabric to the boat top, attach the fabric connector to the poles, and extend the poles into position. It can be mounted to the front or rear of the boat, depending on preference. Create custom, removable marine shade with Tele-Sun Shade Poles. 1 each is 1 pair (2 poles).

Note: Shade Pole (#204533) is not compatible with the Flush Mount Rod Holder (#205431).

Item Number	Style Number	Description	Color	Material	Size	Standard Package
205431	F31-0702BXY	Flush Mount Rod Holder		Aluminum	Flange width: 3-1/2 in., Tube: 5-1/2 in., Angle: 10°.	1

Carbiepoles® Shade Poles

Carbiepoles, carbon fiber shade poles are telescoping, light weight and durable making them ideal for boaters to add shade to their boat while anchored or for home patio use. Carbiepoles are adjustable from 68”-88” and will fit in all rod holders. Easy to store and maintain, Carbiepoles are a great choice for customers looking to cool down at home or on the water. Includes a one year limited warranty on carbon fiber poles.

Note: 1.5 in. poles are recommended for 50 sq. ft. or less. Anything over 50 sq. ft. must use a 2 in. pole.

205459	X70A-2TIP	70 in.	50

Flex Support – Rubber

This Flex Support is an easy way to support a cover if venting is not required. The rubber sides are designed to “mushroom” down to match the angle of the cover, distributing the weight and protecting it from rips or tears.

Designed to be sewn directly into the cover. This will help keep Flex Support in position for an easy, fixed location to tent the cover.

Boat Top Fittings – Stainless Steel Type 316 – Coaming Pad Hook and Eye Set

This coaming pad hook and eye set (clip) is a two-part design made of high quality type 316 stainless steel. Due to the low-profile design, the clip does not require large mounting holes in a bolster substrate. Clips are sold as a set, and include both components to make for easy upholstery installation and removal.

Track – Costa Track®

Costa Track is a center mount track with a heavy-duty PVC profile that maximizes load capability for large covers, bimini and track-to-track enclosures. It is pre-drilled every four inches, and can be heat-formed to most radiuses. Its large channel opening allows use of stainless steel #6 oval head screws for more secure attachment. The deep screw trough base design allows for use of 8.5mm Keder with sufficient clearance of screw heads.

Costa Track is designed with a pocketed underside to accommodate Double-Faced Foam Pressure Sensitive Tape, which is used to set and seal the track to the mounting surface before being secured with the screws.

578069

Track – Flex-A-Rail

Flex-A-Rail provides quick and easy installation of boat windshields, tops, covers and curtains.

A PVC extrusion, Flex-A-Rail is non-corrosive and can be run around tight corners without the use of crimping tools. Only small amounts of heat are needed to bend or straighten. Designed for use of 7.5mm Keder. Pre-drill holes just slightly larger than the shank of the screw (screw item# 265453). Holes should be 2 inches to 2-1/2 inches apart for tight radiuses, and 4 inches to 8 inches apart depending upon the configuration of the mounting surface.

250837

Track – Headliner

Headliner track is an efficient and cost effective way to install or replace headliners. With Headliner Track, there is no need for staplers or trim strips, and fabricators no longer need to work in enclosed spaces using toxic adhesives and heavy foam backed fabrics.

Headliner Track also makes it possible to replace damaged headliners or work on parts of the boat which were previously not accessible without damaging or rebuilding the entire headliner. Headliner Track allows you to simply pull the fabric out of the track and put it back when the work is done.

Headliner Track is available in two profiles. The Perimeter track is used for the outside edge of a cabin ceiling and the Mid-Wall track is used as an intermediate attachment of the headliner fabric's seams and centerlines. Attached with screws, Headliner Track can be easily mitered for clean corners or slotted for gradual bends and curves.

Item Number	Description	Color	Degree of Channel	Flange Size	Length	Material	Standard Package	Weight Per Foot	Width

277543

Boat Vent 3

Boat Vent 3 is an improved version of Boat Vent II, which made its name in the marine industry by preventing the growth of mold and mildew on covered boats. Made from a high UV-inhibited plastic, improvements include 40% more venting, an overhanging top to deter moisture, 30 washer teeth for better grip and an ergonomic reversible nut for easy installation.

Item Number	Color	Standard Package
277543	Black	10

277541

Boat Vent II

A plastic cover support and venting device for use with 3/4 inch or 7/8 inch mooring poles. Designed to distribute a greater volume of exhaust air while closing the top-to-bottom gap that keeps rain out. Suitable for all types of fabric. Unique design eliminates the need for screws, saving time.

Item Number	Color	Standard Package
277541	Black	10

277664

Boat Vent Circle Cutter

Convenient circle cutter allows a hole to be cut in a matter of seconds, for quick and easy installation of the Boat Vent device into fabric. Simply place the cutter in position on the canvas where your Boat Vent is going to sit, press down, and rotate the handle clockwise. One complete revolution provides the perfect 2-1/4" hole for Boat Vent II or a 2-4/5" hole for Boat Vent 3. Using the circle cutter will save time and prevent costly mistakes. The one-of-a-kind device guarantees cutting at least 2,500 holes without dulling. You can use this circle cutter with Boat Vent II or Boat Vent 3 just by switching the blade around.

Item Number	Description	Standard Package
277540	Boat Vent Circle Cutter	1
277542	Boat Vent Circle Cutter Replacement Blade	1

Vent-Sol-Air

Vent-Sol-Air uses a solar-powered fan to circulate air under tented boat covers, which fights mold and mildew, and maintains the appearance of a boat's interior.

Vent-Sol-Air mounts to the pole of tented boat covers and installs in minutes. Its sealed, water-resistant design is constructed of tough-plastic for marine-grade durability. Vent-Sol-Air taps the natural power of the sun without using batteries or power cords.

HANGTYTE Boat Cover System

274811

HANGTYTE is a boat cover suspension system that works with all covers, eliminating the need for poles. The rope ratchet system can be looped over a boat's tower or any overhead structure. Once tightened, HANGTYTE keeps the cover taut and leaves no chance for pooling of water on the cover.

Depending on the size of your boat, you may need one to three HANGTYTE units. One unit for boats 21-foot and under (cockpit), two units for boats in the 22 to 23-foot range (one in the bow, one in the cockpit) and for boats 24-foot and larger, 3 units (one in the bow, two in the cockpit).

Item Number	Style Number	Standard Package
274811	60901-0000	10

261911

Rope Ratchet

Tie down ratchet for quick and easy tie down of boat covers. Quick release thumb trigger, rubber dipped hook with a working load limit of 150-lbs. to 225-lbs. breaking strength.

A sturdy leather fabric that is ideal for marine applications that require extra reinforcement such as cut-outs, patches, etc.

Item Number	Standard Package	Weight
249205	12	~4 oz.

254720

Pen – Fabric Marking

This white fabric marking pen is a unique new product that outlasts traditional white pencils while eliminating the need for sharpening. Utilizing a water-soluble ink, it writes like a traditional ball point pen with a white ink that can be washed off with water (for easiest removal, remove any unwanted ink marks within a few days).

The pen works well on textured fabrics like Sunbrella®, Hydrofend®, and Serge Ferrari Stamoid®; soft vinyls like Sunbrella Horizon®; and various other upholstery and awning vinyls. It is not effective on products that have slick or hard surfaces like clear vinyl.

Features:

- Writes with a crisp, fine line for accurate marking.
- Can be washed off with a damp rag, making marks easy to erase.
- Hard plastic body and cap guards against breaking.
- Doesn't become gummy in hot, humid weather.

Item Number	Style Number	Color	For	Standard Package
254720	64538	White	Vinyl laminates, vinyl coated polyester and nylon	12 pens/box

Sunbrella®, Horizon® and Hydrofend® are registered trademarks of Glen Raven, Inc. Stamoid® is a registered trademark of The Serge Ferrari Group.

254710

Pencil – Fabric Marking

For clear, easy marking of fabrics:

254711 Black graphite pencil designed for use for shop notes, drawings and writing on hard surfaces. Can be used for light use on white fabric, but may be difficult to remove from woven fabrics.

254709 White marking “spit” pencil has a firmer element than the standard “spit” pencil. Designed for use on a variety of fabrics, including clear vinyl. Markings are best removed with a wet cloth.

254710 Soft yellow marking pencil designed for a variety of fabrics, from wovens to vinyls. Care should be taken to avoid marking too hard, as the yellow compound can be hard to remove. At a minimum, markings can be removed with a damp cloth, but heavier markings may require soap and water. Use with acrylic fabrics should be avoided.

Item Number	Description	For	Standard Package
254711	Black Graphite	White fabrics (any type)	72 pencils/box
254709	White Lead 1256 "Spit Pencil"	Vinyl, acrylic and woven fabrics	72 pencils/box
254710	Yellow Lead	Vinyl fabrics	72 pencils/box

Goldline® EPDM Tie-Down And Tarp Strap

Straps reinforced at hook ends. Hooks are 2-1/2 inch and where included come in a quantity of 2.

To determine strap size, let maximum stretch length, below, be your guide. For example, if distance between tarp grommet and trailer tie-down bar is 24 inch, order a 15 inch strap which provides a maximum 25 inch stretch length. If distance is 27 inch, order a 21 inch strap with maximum 34 inch stretch length.

Where hooks are inserted we supply two hooks per strap.

UNIVERSAL POLYMER Warning for EPDM TARP AND TIE-DOWN STRAPS: Observe maximum stretch warnings. Straps should not be stretched more than 50% of their normal length. Sudden disconnect in a stretched position may cause serious eye injury. Wear safety glasses during tie down and disconnect. Inspect straps before each use. Discard if abraded, cut or cracked. Straps should not be substituted as primary tie-down device for load.

280492

YKK® VISLON® Bottom Stops

This YKK bottom stop locks the chain to stop the slider where installed. Easily install the zipper stop end with pliers by piercing the prongs through the tape. Made from die-cast zinc with chip-resistant enamel paint. Use the zipper bottom stop for zipper repair, replacement, or custom zipper projects where a sturdy stopper is needed.

280493

YKK® VISLON® Top Stops

Top stops prevent sliders from running off the zipper chain. Easily install the zipper stop end by removing a tooth where the top stop will be placed (one top stop for each side of the zipper). The durable piece of hardware is made from die-cast zinc with enamel paint. Use the zipper top stop for zipper repair, replacement, or custom zipper projects where a sturdy stopper is needed.

280974

Top Stop No. 10

No. 10 Zipper Top Stop is placed over a tooth on each side of the zipper and bent in place with pliers. It eliminates the need to cut the zipper and chain with a hot knife or sew it down to form a stop. Providing added flexibility, the Stainless Steel Zipper Top Stop can be moved if needed.

Item Number	Style Number	Material	Standard Package
280974	89001	Stainless Steel	100

255251

Zipper Stop Application Tool

Convenient tool designed specifically to apply Zipper Stop to zipper chain, helping eliminate slippage and rotation of the stop. Features a special groove that firmly holds zipper stop in place.

Item Number	Style Number	Standard Package
255251	1012	1

255252

Zipper Jig

Save time during zipper installations with the Zipper Jig. This handy tool holds YKK® zipper sliders from #2.5 to #10, allowing you to easily install sliders. The lower clamp securely holds the Zipper Jig to a counter, while the upper clamp is used to lock the jig rod in any direction. It even allows you to put a zipper on backwards. The Zipper Jig is 5-1/2 inch x 4-3/4 inch, making it ideal for workstations.

To use simply place the slider upside-down and facing forward into the slot on the rod. Open the zipper one or two inches and hold face down. Feed both sides evenly into the slider held by the rod, coming in at a 45 degree angle. Pull forward and it's done!

YKK® VISLON® UV VFUV No. 10 Separating Zipper Automatic Lock – Metal Slider

All element and slider materials are scientifically designed to resist damage from sunlight as well as corrosion. Teeth injection-molded from DuPont™ Delrin®.

UV-resistant acetal resin attached to a strong cord and tape, which ensure the sliders stay on track. The Delrin polymer reduces the effect of ultraviolet radiation, significantly increasing its useful life.

296215

YKK® VISLON® VFOL105W No. 10 Separating Zipper Non-Locking – Double Pull Metal Slider

YKK® No. 10 VISLON® separating zippers are extremely strong and lightweight and differ from conventional zippers, because the “teeth” are made from Delrin® and the tape is polyester. Because of the unique properties of the VISLON zipper, it has a wide variety of industrial, consumer and military applications where environmental conditions reduce the effectiveness of metal zippers.

The VISLON zipper is corrosion resistant. The zipper is self-lubricating and operates smoothly despite mud, sand, etc. The color is an integral part of the molding material, creating a finish that does not rub off, peel or chip.

YKK® VISLON® VFUVOL-87 DXL E No. 8 Separating Zipper With Automatic Lock – Long Double Pull Metal Slider

YKK® No. 8 VISLON® separating zippers are extremely strong and lightweight and differ from conventional zippers, because the “teeth” are made from Delrin® and the tape is polyester. Because of the unique properties of the VISLON zipper, it has a wide variety of industrial, consumer and military applications where environmental conditions reduce the effectiveness of metal zippers.

The VISLON zipper is corrosion resistant. The zipper is self-lubricating and operates smoothly despite mud, sand, etc. The color is an integral part of the molding material, creating a finish that does not rub off, peel or chip.

Sunbrella® SUNZIP™ III #10 Separating Zipper with Automatic Lock – Double Pull Metal Slider

Sunbrella SUNZIP marine zippers are lightweight but strong. They’re water repellent, mold and mildew resistant, and bleach cleanable. This makes them great for boat covers, boat enclosures, and other marine applications. For reliable performance, this is the first zipper to feature genuine Sunbrella Acrylic zipper tape. To resist fading and damage from the sun, the zipper teeth are made from UV-resistant resin.

Item Number	Color	Length	Standard Package

279813

YKK® ZIPPY COOL®

This two-part product includes a cleaner and lubricant. It is specially formulated for use on all types of metal and plastic zippers. The patented push/pull dispenser brush removes harmful dirt, sand and salt. After rinsing, it leaves a protective film on the zipper. Lubrication on the zipper will not flake or cause jams, even in extreme temperatures. It contains no silicone or paraffin.

Item Number	Description	Standard Package
279813	Zippy Cleaner and Lubricant	1

YKK® and ZIPPY COOL® are registered trademarks of YKK Corporation in Japan and other countries/regions.

279800

Zipzap Lubricants

Extends the life of the zipper. Cleans and lubricates plastic, nylon, and metal zippers, without collecting dirt, sand or organic residue. The wax provides smooth zipper teeth operation, and the fluid cleans and lubricates the zipper action.

Quick-Fit™ Tool Kit

Quick-Fit holding tool snaps on to existing studs and provides a quick and easy way to hold material while fitting — no clamps necessary. Quick-Fit holds material in place on the holding pin, especially on a windy day. Quick-Fit release tool easily installs and removes the holding pin from the stud. Quick-Fit tools are great for fitting with material and also holding paper or plastic when making a pattern. Can be used over and over on job after job. Can be used on boat cockpit covers, side curtains, enclosures, console covers, carpet and pickup truck tonneau covers. Quick-Fit holding tools accurately mark the fabric cover where the snap sockets are to be placed.

Quick-Fit Tool Kit includes 25 Quick-Fit Caps, 50 Quick-Fit Sockets and 1 Quick-Fit Release Tool.

248506

Engel Hot Knife

Cuts and seals the edges of synthetic fabrics to prevent fraying. The knife can be used with a cutting foot to eliminate the need for a special cutting base or surface. Designed for intermittent operation, the knife heats up in six to eight seconds. Temperature is controlled by a convenient trigger switch. All items are sold separately.

Use in well ventilated areas.

214301

Thread Nippers

This 4.5-inch thread snip is sharp enough to trim even the finest fiber. Hot forged and fully double-plated with chrome over nickel, it's an essential sewing tool. The ball-bearing construction features a quick action spring return and precision ground blades.

With an ergonomic design and built-in thumb rest, the scissors are efficient and easy to handle. This means you can focus more on your craft and less on fraying thread. The nippers can withstand repeated sharpening for a smooth cut every time. Use for clipping threads or other light cutting functions.

Item Number	Full Length	Standard Package
214301	4-1/2 in.	10

266225

Shears – Wiss® Upholstery, Carpet And Fabric Shears

Hot drop-forged, polished blades. One blade is ground to a knife-edge.

To attain the extra sharp knife edge, the cutting edge of the top blade is ground to a greater angle than regular shears. For this reason they will require more frequent sharpening than conventional Wiss Inlaid® Trimmers. However, a simple resharpening procedure will restore the edge quickly and easily. Do not stone the inside of this blade or the opposing blade.

Item Number	Style Number	Full Length	Length of Cut	Standard Package
266225	1225	10-1/4 in.	4-3/4 in.	1

Bendarc Quick-Switch Bender

The Bendarc bends a 6, 8, 10 or 12 inch radius on either 7/8, 1, or 1-1/4 inch OD aluminum or stainless steel marine tubing. Designed for wall or bench mounting. Bends are formed using a long handle for leverage and with the aid of body weight. The Bendarc gives strong bends with smooth, rounded corners. Constructed of boiler plate steel with bearing supported roller. Rollers are high-density polymer for mar resistant contact with fine tubing finishes.

Interchangeable forming blocks, clamp blocks and rollers are also available to convert from a 6 inch radius to 8 inch or 10 inch, and a 7/8 inch OD tube to 1 inch OD. Switch sizes easily and quickly with only an Allen wrench and a 1/2 inch socket. Once forming block replacement is installed, only a finger tight adjustment of a nut on the clamp block is required.

Items are drop ship only.

Item Number	Description	For	Radius	Standard Package
205349	Bearing Support Roller	1 in. or 1-1/4 in. square tubing		1
205347	Bearing Support Roller	1-1/4 in. round tubing		1

205362

Crownarc Crown Bender

Bends 7/8 inch, 1 inch or 1-1/4 inch outside diameter marine tubing using the same dies. The crown radius is adjustable from 30 inch minimum to infinity. The only Crowner with gear drive; Crownarc's crank turns both lower wheels and "takes a bigger bite" to get more crown per pass. The Z wheel drive system makes control much easier. The back plate is boiler plate steel and rollers are high-density polymer for mar resistant contact with fine marine tubing. The center roller is fully adjustable.

The Crownarc is supplied with rollers cut for 1 inch diameter marine tubing. This easily crowns 1 inch and 7/8 inch stainless or aluminum marine tubing. Bender can be mounted on the wall, on a table or on the side or rear of a truck.

Items are drop ship only.

Item Number	Description	For	Standard Package

Bullion Fringe – Blended Polyester

Made with thicker twisted yarns, bullion fringe adds an extra layer of depth when compared to standard fringe. Bullion trim fringe is constructed from polyester (98% spun polyester, 2% texturized polyester) for excellent outdoor performance and lasting looks.

Use the unique fringe trim for decorative pillows, umbrella trimming, or upholstery functions where a bold look is desired. Polyester Bullion Fringe offers a clean, versatile embellishment.

Sold in full rolls only.

Welt – Rubber Spray

Made from EPDM, a dense non-marking rubber, this spray welt stays soft and easy to mold to a windshield or any other surface. With no foam to disintegrate, it lasts much longer than other weltings. It is also stronger, less likely to rip out, making it hassle free.

Item Number	Style Number	Color	Put Up	Size

578076

Xtreme Seal®

Xtreme Seal edge seal is a high-tech extrusion, engineered and manufactured with an advanced EPDM material. It's a closed-cell flexible material that can be glued or sewn to most materials and surfaces. The flexibility and unique design creates a three-point contact seal on most surfaces. Xtreme Seal is an ideal choice for an edge seal on all types of custom covers, such as convertible tops, side curtains, camper enclosures, windshield tops and sides, front-drop windshields, and deck seals. Sold in full rolls only.

578054

Xtreme Seal® Awning Seal

Awning installations are a breeze with Xtreme Seal Awning Seal. Designed for the awning industry as a gasket material between the frame and the mounting surface, Xtreme Seal Awning Seal conforms to the contour of the mounting surface, eliminating the need for silicone and providing a clean finished product. Made of EPDM synthetic rubber, Xtreme Seal Awning Seal also features an adhesive back, saving time and making mounting easy. Sold in full rolls only.

Dabond® is a registered trademark of J. & P. Coats, Limited.

551952

Thread – Coats Dual Duty®

Dual Duty is “core”-type thread made by spinning a high-grade cotton warp around a continuous multi-filament polyester core. Low shrinkage as compared to cotton, high single end strength, stronger seams than with cotton of equivalent size, and excellent resistance to abrasion. When wet, cotton swells to fill needle holes in fabric, which reduces seam leakage.

Item Number	Color	Put Up	Size
551952	Natural	1-1/2 lb. cones, 5,000 yd./cone, 18/box	150

Dual Duty® is a registered trademark of J. & P. Coats, Limited.

551906

Thread – Coats Polymatic® AW (Anti-Wick) Bonded Monocord Dacron®

Polymatic AW (Anti-Wick) inhibits the capillary action that causes seam leakage. Where seam leakage would detract from the utility of the end product, specify this thread.

Item Number	Description	Approx. Yards Per Pound	Average Breaking Strength	Color	Put Up	Size
551906	Left Twist	3500	18 lbs.	Black	1 lb. tubes, 40/box	125
551905	Left Twist	3500	18 lbs.	White	1 lb. tubes, 40/box	125

Polymatic® is a registered trademark of J. & P. Coats, Limited. Dacron® is a registered trademark of INVISTA™.

551913

Thread – Coats Polymatic® Bonded Monocord Dacron®

A bonded monocord Dacron thread treated for maximum resistance to UV degradation. This thread has increased lubrication to protect the thread during the sewing process. Stronger than twisted threads, therefore a smaller thread size can be used. Less prone to ravel and knot during sewing. Its oval profile reduces exposure of thread to surface abrasion. Can be used on both sides of double needle machine.

Item Number	Style Number	Approx. Yards Per Pound	Average Breaking Strength	Color	Put Up	Size

Thread – A&E Poly Nu Bond™ Twisted Non-Wick Polyester

Poly Nu Bond has superior strength, stretch and recovery properties and excellent resistance to chemicals, bacteria, mildew, wear and abrasion. This thread is made of quality, high tenacity, heat resistant, continuous filament yarn. Special waxes, silicones and oils are applied to lubricate the thread, reducing needle heat and increasing sewability. This also aids in the application of constant machine tension and good loop formation.

Thread – PremoBond Bonded Anti-Wick Polyester

In the performance fabrics industry, even the thread needs to outlast coarse conditions. With anti-wicking and mildew-resistant properties, PremoBond thread is perfect for high-moisture settings. Its exclusive UV dye and bonding process ensure maximum fade prevention and bleed resistance. A pioneer in the sewing thread market, its custom lubricant provides clean running for first-rate sewability. The continuous filament, bonded polyester makes it 30% stronger than leading brands.

PremoBond thread works great in outdoor and marine fabric applications, awnings and shade, filtration, tarps, slings, geotextiles, and other industrial purposes. Made in the USA.

542753

Thread – A&E Special

A durable, bonded nylon thread from A&E. Great for general-purpose use. Not recommended for outdoor use.

Item Number	Description	Approx. Yards Per Tube	Color	Put Up	Size
542753	Bonded	5923	Black	16 oz. tubes, 40/case	69
542750	Bonded	5923	White	16 oz. tubes, 40/case	69

Thread – A&E SunStop®

Designed for the outdoor market, SunStop thread is made of 100% continuous filament polyester with enhanced UV and fade protection and a non-wicking finish. Use SunStop for outdoor applications requiring UV protection, such as tents, awnings, and canvas and marine applications.

Thread – Gore® Tenara® (Original Style)

Gore Tenara Sewing Thread has unique properties. This thread is unaffected by sunlight. UV radiation will not weaken or degrade it. Polyester threads, under daily sunlight exposure will lose as much as half their strength in as little as one year, and be down to 10% of their original strength in 3 years. Tenara maintains its strength and color indefinitely. Gore Tenara Sewing Thread will outlast the fabric that it is sewn into and is warranted to that effect. It is unaffected by canvas cleaning solutions and will not stain, rot or mildew. Dirt just wipes off. Using Gore Tenara Sewing Thread means seams that will last.

Tenara Sewing Thread Original Style is the first generation of Tenara outdoor sewing thread. The Original Style sewing thread is unlubricated, with an elongation (or stretch) of five to seven percent.

FOR INDUSTRIAL USE ONLY. Not for use in food, drug, cosmetic, or medical device manufacturing, processing, or packaging operations.

Thread – Gore® Tenara® (TR Style)

Gore Tenara Sewing Thread TR style builds on the features of the Original Style, but increases the choice of colors, as well as improving the sewability features. TR style comes in highly popular clear, providing a translucent thread that disappears into most fabrics, making color matching headaches go away. The patented TR style sewing thread has an elongation (or stretch) of approximately seventeen percent, making it more robust, which allows faster sewing. The TR style is lubricated with a silicone solution in all but the largest style.

FOR INDUSTRIAL USE ONLY. Not for use in food, drug, cosmetic, or medical device manufacturing, processing, or packaging operations.

Thread – Gore® Tenara® (HTR Style)

Tenara HTR Heavy sewing thread is made of the same material as other Tenara threads, but features a unique 3-ply bonded construction that offers several advantages:

An "improved circular cross-section" that provides a smoother and more uniform appearance.

An increased twist level, which should reduce breaks.

Excellent sewability.

Softer construction.

In addition, because of the new construction the thread is smoother on the tube, which allows for up to 15% more seam length for the same tube price as the previous HTR-style thread. The strength of the thread remains the same. This item is a replacement for Gore Tenara TR Thread #M1000HTR.

FOR INDUSTRIAL USE ONLY. Not for use in food, drug, cosmetic, or medical device manufacturing, processing, or packaging operations.

Thread – Aruvo® PTFE

Made from 100% PTFE, Aruvo thread lasts as long as the fabric. It is a 3-ply, bonded, twisted thread for superior sewability. Features: snap spool base which allows you to wrap the thread around the base and snap it shut so the thread won't come loose; twisted design for better hook pickup; lower elongation; high strength for fewer knots and breaks; great for outdoor conditions; resists UV rays, weather, chemicals, mildew, fading, and rot. Use in upholstery, marine canvas, awnings, and more. Comes with a limited lifetime warranty.

When threading the needle with Aruvo, cut the thread at a 45-degree angle to avoid fraying.

Bobbins – Coats Ultra Dee® Polyester

These bobbins are conveniently pre-wound with Coats Ultra Dee thread. Ultra Dee is a corded (twisted) thread made from a durable, continuous filament polyester. 20-33% stronger than standard lubricated sewing threads. Heat set to minimize stretch and shrinkage. Bonded finish prevents ply untwisting and minimizes fraying at the needle eye. This means improved seam quality and less mending and rethreading. Designed for demanding conditions. Uses include leather goods, outdoor goods, seat trims, footwear, luggage, furniture upholstery, and marine applications.

Bobbins – Coats Dabond® Belbobs®

Coats Dabond is a bonded, twisted continuous filament polyester thread, combining superior sewing performance with excellent UV and abrasion protection. It is specifically designed to provide resistance against harsh weather making it an excellent thread for marine and other outdoor applications.

Bobbins – PremoBond Bonded Anti-Wick Polyester

In the performance fabrics industry, even the thread needs to outlast coarse conditions. With anti-wicking and mildew-resistant properties, PremoBond thread is perfect for high-moisture settings. Its exclusive UV dye and bonding process ensure maximum fade prevention and bleed resistance. A pioneer in the sewing thread market, its custom lubricant provides clean running for first-rate sewability. The continuous filament, bonded polyester makes it 30% stronger than leading brands.

PremoBond pre-wound bobbins are outfitted with twisted and plied yarn. Fil-Tec cross-tack technology offers a more uniform appearance for flatter seams, consistent tension to reduce puckering, and greater yield.

PremoBond bobbins deliver a clean, versatile seam to any project where colorfastness is key. The adaptable thread works great in awning and marine fabric applications slings, filtration, tarps, geotextiles, and other industrial purposes. Made in the USA.

VELCRO® Brand Hook And Loop Fasteners – Standard Back Nylon Tape

This nylon tape fastener consists of two mating strips. The Hook (male) section is covered with stiff, small hooks. The Loop (female) section is covered with tiny, soft loops. When pressed together, the hooks and loops engage, creating an adjustable, versatile, and secure closure.

Sold in full rolls only.

Suggested uses: indoor functions, marine fastening, cushion placement, clothing, recreational gear, tying, wrapping and bundling, straps, other industrial uses.

VELCRO® Brand ONE-WRAP® Fasteners

ONE-WRAP is a self-gripping fastener with hooks on one side and loops on the other. The two sides attach easily for solid strength and performance. ONE-WRAP offers an ultra-thin solution for many fastening needs. It does not require buckles, snaps, rings, or other fastening devices. Available in full rolls only.

Suggested uses: bundling, wrapping.

500431

Super Seamstick/Hi-Tack Adhesive Tape

Super Seamstick/-HiTack is a double-faced, acrylic-based adhesive tape that is ideal for applications where resistance to UV light and excellent performance during temperature extremes are required. Used for bonding and laminating to a wide variety of cloths, vinyls, and rigid and flexible plastics. It's also excellent for seaming Sunbrella® before stitching, and can also be used on stainless steel tubing for patterning with Canvex® pattern cloth. Leaves little or no residue on surfaces when removed.

Item Number	Style Number	Put Up	Width
500422	1 HI-TACK	60 yd.	1 in.
500432	2263	60 yd.	1/2 in.

500490

Tape – Vinyl Adhesive Welding

Many products not heat sealable to themselves can now be heat sealed using this tape.

Item Number	Style Number	Description	Put Up	Width
500490	4220	0.005 Adhesive	200 yd., 17/box	5/8 in.

500433

Tape – Curtain Strapping

This strapping is used for seam reinforcement or for retention straps for holding rolled up curtains in place. Sold in full rolls only.

Item Number	Color	Put Up	Width
500443	Clear	30 yd.	1-1/2 in.

500467

Tape – Double-Faced

A double-faced adhesive tape used in tacking down layers of fabric prior to sewing a seam.

Rubber Double-Faced Tape

High tack tape used when a higher initial tack is required

Can turn slightly yellow

Can be used with acrylic fabrics

Acrylic Double-Faced Tape

Good initial tack

Non-yellowing

High long term adhesion

Very good for all purposes including general sail seaming

Item Number	Style Number	Material	Put Up	Width
500467	J-351	Rubber	72 yd.	1/4 in.
500469	J-353	Rubber	72 yd.	1/2 in.

500476	J-456	Acrylic	72 yd.	1 in.

500403

Tape – Double-Faced Adhesive

Typical applications for this double-faced acrylic foam pressure sensitive tape include body side moldings, rocker trims, and other automotive trim components. The tape is a companion to Costa Track® and is placed in the recess on the bottom of the track for temporary tacking prior to being permanently mounted.

Item Number	Style Number	Color	Put Up	Width
500403	5931N	White	36 yd., 12/box	1/2 in.

Costa Track® is a registered trademark of Costa Marine Canvas and Enclosures, LLC

500435

Tape – Double-Faced Transfer

This clear acrylic tape is used to hold the cut edge of two fabrics together prior to sewing a seam. Eliminates slippage so the seam can be sewn straight.

Item Number	Put Up	Width
500435	72 yd.	1/4 in.
500436	72 yd.	1/2 in.
500437	72 yd.	3/4 in.

500466

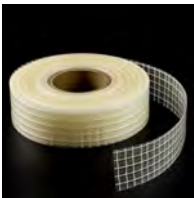

Tape – No. 463 Seam

To minimize seam leakage on sewn seams of awning fabrics. The 3/4 inch wide tape is for double needle machines. The No. 463 Seam Tape is ideal for use on vinyl laminates such as Weblon®.

The adhesive transfer tape is on a paper backing. The tape should be applied on the edge of the one piece of material to be sewn. The paper backing is then peeled off, leaving the transfer tape on the material. The other piece of material to be sewn is applied on top of the adhesive transfer tape and pressed together. Then the two pieces are ready to be sewn. As the material is being sewn, the up and down movement of the needle pulls the adhesive transfer tape into the needle holes to seal them and thus minimize seam leakage.

Item Number	Style Number	Put Up	Width
500465	463	60 yd., 76/box	5/8 in.
500466	463	60 yd., 48/box	3/4 in.

Weblon® is a registered trademark of Herculite Products Inc.

500427

Tape – Reinforcing

This non-adhesive reinforcing tape is ideal for supporting tops, dodgers, enclosures, and boat covers, but is also applicable for awnings and canopies. Made from clear laminate and polyester scrim, the filament tape is stable and weather-resistant. The reinforced strapping tape is widely used by fabricators and those in the marine industry. Its extra strength, marine-grade features make it one of the more versatile reinforcing tapes on the market. It provides high clarity, a low profile, and excellent tensile strength.

Sold in full rolls only.

Item Number	Color	Put Up	Width
500427	Clear	65 yd.	2 in.

500591

Tape – Fabric Bond Welding

This Fabric Bond Tape uses the best in bonding technology to create clean seams. It supports the three principles of welding success: heat, speed, and pressure. The polyurethane-based welding tape is used to heat seal seams with RF (Radio Frequency) bar, Hot Wedge, or Hot Air welding equipment.

Fabric bond tape is designed for use with vinyl, polyester, and acrylic fabrics like Sunbrella®. It creates smooth, watertight seams and eliminates the need for thread matching. Use the white heat seal tape for industrial awning or marine projects.

Item Number	Color	Put Up	Width
500591	White	100-yard roll, 12 rolls per box	7/8 in.
500593	Black	100-yard roll, 12 rolls per box	7/8 in.
500595	White	100-yard roll, 12 rolls per box	5/8 in.
500597	White	100-yard roll, 12 rolls per box	7/8 in.

Sunbrella® is a registered trademark of Glen Raven, Inc.

Tape – Fabric Bond Welding – FIRESIST®

Fabric Bond Welding Tape for FIRESIST fabrics has a slightly lower melting point than the standard bonding tape. This will allow the user to seal more difficult fabrics.

Item Number	Color	Put Up	Width
500592	White	100-yard roll, 12 rolls per box	7/8 in.

507126	26 lbs.	White	1/4 in.	1500 ft.	8

507130

Line – Ultra Mason

A braided cord made of high quality cotton to assure uniform size and quality. Excellent small diameter cord for lacing windbreaks, stationaries and store awnings. Also used for drawstrings.

Item Number	Color	Cord Size	Put Up	Size Number
507130	White	7/64 in.	3000 ft.	3.5

518606

Rope – Diamond Braided Polyester

Polyester cord with high strength and excellent abrasion resistance. This cord has very good UV resistance. Resists acids, alkalis and moisture.

Item Number	Cord Size	Put Up	Size Number
518606	1/8 in.	1000 ft.	4

515517

Rope – Supreme MFP Braided

Multifilament solid braided polypropylene with abrasion-resistant smooth finish. Good strength with low stretch and excellent dielectric qualities. Resistant to rot, mildew, oil and most chemicals. This rope also floats.

Item Number	Approx. Tensile Strength	Color	Cord Size	Material	Put Up	Size Number
515517	305 lbs.	White	3/16 in.	MFP (Multifilament Polypropylene)	1000 ft.	6

515449

Cord – Diamond Braided MFP

Suggested uses include drawstrings, lacing cords, general utility.

519132	Yellow	5/16 in.	1000 ft.	10
519131	Yellow	1/4 in.	1000 ft.	8

515454

Cord – MFP Solid Braided Polypropylene

Made of white multifilament polypropylene. Resists acids, alkalis and mildew. Floats in and does not absorb water. Ends can be fused to prevent fraying. Versatile for many marine applications.

Item Number	Approx. Tensile Strength	Cord Size	Material	Put Up	Size Number
515454	750 lbs.	1/4 in.	MFP (Multifilament Polypropylene)	1000 ft.	8

519945

Cord – Neobraid® Polyester

100% high-strength polyester cord excels in awning applications and is a superb all-purpose/industrial cord. Patented InterWarp® construction withstands years of weather and sun, and does not kink, twist, or fray. Resistant to mold, oil and stains.

Neobraid Warning: Not For Personal Safety. Working loads are for rope in good condition with appropriate splices, in non-critical applications and under normal service conditions. Do not exceed working loads without expert knowledge of conditions and professional estimates of risk. Working loads should be reduced where life, limb and valuable property are involved or with shock loads, sustained loads. Never stand in line with rope under tension or directly underneath rope under tension.

Some items are drop ship only.

Item Number	Approx. Tensile Strength	Color	Cord Size	Put Up	Size Number

519926

Cord – Neoline® Polyester

100% polyester jacket and polyester/polypropylene core offers superior strength and abrasion resistance. Ideal for awnings and everyday use. Patented InterWarp® construction knots well, is weather resistant, and is twist and fray free.

Neoline Warning: Not For Personal Safety. Working loads are for rope in good condition with appropriate splices, in non-critical applications and under normal service conditions. Do not exceed working loads without expert knowledge of conditions and professional estimates of risk. Working loads should be reduced where life, limb and valuable property are involved or with shock loads, sustained loads. Never stand in line with rope under tension or directly underneath rope under tension.

515339

Cord – Solid Braided Polyester

Braided of clean, high tensile strength polyester. Resists acids, alkalies and moisture. Ends can be fused to prevent fraying. Ideal for drawstrings and in hems of synthetic tarpaulins. Popular for boating and awning line.

Item Number	Approx. Tensile Strength	Color	Cord Size	Put Up	Size Number
515339	310 lbs.	White	1/8 in.	500 ft.	4
515353	620 lbs.	White	3/16 in.	1000 ft.	6
518602	750 lbs	White	3/16 in.	1000 ft.	6

515432

Cord – Solid Braided Nylon

This is one of the finest quality and best performing nylon solid braided cords. Designed for marine and industrial use, the product is constructed from high tenacity 12 strand interlocking nylon fibers, and has excellent shock load absorption qualities.

Item Number	Approx. Tensile Strength	Color	Cord Size	Put Up	Size Number
515432	450 lbs.	White	1/8 in.	1000 ft.	4
515433	750 lbs.	White	3/16 in.	1000 ft.	6
515434	1200 lbs.	White	1/4 in.	1000 ft.	8

516252

Rope – 3-Strand Polypropylene

Filament polypropylene rope with excellent strength to weight ratio. Will float because specific gravity is less than 1.0. Hand and lay is medium/soft, which makes this product easy to splice.

Item Number	Approx. Tensile Strength	Color	Cord Size	Put Up	Size Number
516252	3780 lbs.	White	1/2 in.	600 ft.	16
516242	1130 lbs.	White	1/4 in.	1200 ft.	8
516240	1130 lbs.	White	1/4 in.	600 ft.	8
516238	720 lbs.	White	3/16 in.	1200 ft.	6
516236	720 lbs.	White	3/16 in.	600 ft.	6
516248	2430 lbs.	White	3/8 in.	600 ft.	12
516246	1710 lbs.	White	5/16 in.	1200 ft.	10
516256	5580 lbs.	White	5/8 in.	600 ft.	20
516206	1130 lbs.	Yellow	1/4 in.	1200 ft.	8
516226	7650 lbs.	Yellow	3/4 in.	600 ft.	24
516210	1710 lbs.	Yellow	5/16 in.	1200 ft.	10

515218

Rope – Unmanila™ Polypropylene

This rope has a simulated manila look with performance durability of polyolefin. It is a fibrillated film fiber that has balanced construction, medium lay and moderate strength/moderate stretch. It is lightweight and buoyant, and exhibits good abrasion resistance and excellent hand and knotability.

Item Number	Color	Cord Size	Put Up	Size Number
515218	Tan	1/4 in.	1200 ft.	8

Unmanila™ is a trademark of Wellington Puritan Mills, Inc.

506326

Cord – Nylon Shock

Nylon covered elastic cord of synthetic rubber. Ideal for sewing in boat cover hems, lacing down boat covers, car luggage racks and fastening applications.

Sold in full rolls only.

Item Number	Description	Color	Cord Size	Put Up
506326	Single Cover	White with Black Tracer	1/4 in.	150 ft.
506334	Single Cover	White with Black Tracer	1/4 in.	500 ft.
506317	Double Cover	Black	1/8 in.	300 ft.
506324	Single Cover	White with Black Tracer	1/8 in.	300 ft.
506325	Single Cover	White with Black Tracer	3/16 in.	150 ft.
506328	Single Cover	White with Black Tracer	3/8 in.	100 ft.
506327	Single Cover	White with Black Tracer	5/16 in.	150 ft.

506462

Cord – Single Cover Elastic

Elastic cord of synthetic rubber, designed to remain flexible and offer dependable elasticity when needed. When using any shock cords, always make sure ends are properly secured.

Warning: Secure hooks to ends carefully. Do not overstretch cord more than 50% of its normal length. Sudden disconnect in a stretched position may cause serious injury. Keep face and other vulnerable parts of the body away from the rebound path of the cord. Wear safety glasses during tie down and disconnect. Inspect cord before use. Discard if abraded, cut or cracked. Do not use to hold any surface which reacts to wind or air movement.

Item Number	Style Number	Description	Color	Cord Size	Put Up
506458	121	Cotton Covered	White with Black Tracer	1/4 in.	150 ft.

506494

Cord – Synthetic Shock

Synthetic shock cord with a polyester jacket.

Item Number	Color	Cord Size	Put Up
506489	White	1/8 in.	500 ft.
506490	White	3/16 in.	300 ft.
506491	White	1/4 in.	300 ft.
506492	White	5/16 in.	300 ft.
506493	White	3/8 in.	150 ft.
506494	White	1/2 in.	100 ft.
506497	Black	1/8 in.	500 ft.

506167

Cord – Cone Spring Hooks

Stainless steel. Used for fastening ends of elastic cords.

Item Number	Style Number	Cord Size	Put Up
506167	4	1/4 in.	100
506168	5	5/16 in.	100
506169	6	3/8 in.	100

Cord – Hog Ring Pliers

506151

Fits 1/8 inch, 3/16 inch, 1/4 inch, 5 /16 inch and 3/8 inch sizes of loop and end clamps.

Item Number	Style Number	Description
506150	1440AO	Opening Spring
506151	1440AC	Closing Spring

Cord – Loop And End Clamps

506163

302 stainless steel. All looping rings are applied with clamp pliers. Used for splicing elastic cord.

Item Number	Style Number	Cord Size	Put Up
506161	X-0	1/4 in.	100
506160	X-00	1/8 and 3/16 in.	100
506162	X-1	5/16 in.	100
506163	X-2	3/8 in.	100

150	37.5	4.17
157	39.25	4.36

To compute the cost per sq. ft. or sq. yd., simply take the price of the goods per linear yd. and divide it by the factor in column B or C.

Handy Tips to Know

- There are 144 sq. in. per sq. ft.
- There are 9 sq. ft. per sq. yd.
- There are 1296 sq. in. per sq. yd.

Handy Tips to Know

- 1 sq. yd. = 9 sq. ft.
- 1 sq. yd. = 1296 sq. in.

Common Cloth Calculations

To Find Pro Rata Price

(Knowing the price per yd. of a given width of cloth, what would be the pro rata price of the same cloth woven in another width?)

Example: If 46 in. cloth is priced at \$7.00 per yd., what would the pro rata price be in the same cloth woven 60 in. wide?

Formula:

$$\frac{\text{Known Width}}{\text{Known Price}} = \frac{\text{Desired Width}}{\text{Desired Price}}$$

$$\text{Or } \frac{46}{\$7.00} = \frac{60}{x} : \frac{60 \times \$7.00}{46} = x : \frac{420}{46} = x = \$9.13$$

To Find Pro Rata Wt. Expressed in Oz. per Linear Yd.

(Knowing the width and oz. per linear yd. of a given cloth, what would be the wt. of the same cloth woven in another width?)

Example: What is the pro rata wt. of 36 in. 12 oz. S.F. Duck woven 44 in. wide?

Formula:
$$\frac{\text{Known Width}}{\text{Known Price}} = \frac{\text{Desired Width}}{\text{Desired Price}}$$

$$\frac{36}{12} = \frac{44}{x} : \frac{12 \times 44}{36} = x : \frac{528}{36} = x = 14.67$$

Or

To Find Pro Rata Wt. Expressed in Yds. per Lb.

(Knowing the width and linear yds. per lb. of a given cloth, what would be the wt. of the same cloth woven in another width?)

Example: What is the pro rata wt. of 36 in. 6.15 yd. sheeting woven 45 in. wide?

Formula:

$$\frac{36 \times 6.15}{45} = x : \frac{221.4}{45} = x = 4.92 \text{ yd.}$$

Or

To Find the Oz. Wt. per Linear Yd. of Number Ducks

(Knowing the number designation of a wide duck, what does it weigh in oz.?)

Example: What is the linear yd. oz. wt. of 22 in. No. 4 Duck?

Formula: 19 less the number of the Duck equals its oz. wt. in 22 in. width or: $19 - 4 = 15 \text{ oz.}$

The rule-of-thumb formula holds true for all numbers of Duck, 1 through 12 inclusive. To figure 22 in. oz. wt. for Number Ducks, to 19 add one less than number.

Example: 22 in. No. 7/0 wts. 25 oz. or 19 plus 6.

Having established the 22 in. oz. wt. of a number Duck, the linear yd. wt. of any other width can be determined by a pro rata calculation.

Conversion of Yds. per Lb. to Oz. per Yd.

(Knowing the wt. of a given cloth in yd. per lb., what is the wt. expressed in oz. per yd.?)

Example: What is the wt. of oz. per yd. of 37 in. 2.75 yd. drill?

Formula:
$$\frac{16 \text{ oz. (1 lb.)}}{\text{yds. per lb.}} = \text{oz. per yd.}$$

$$\text{Or } \frac{16}{2.75} = 5.818 \text{ oz.}$$

Conversion of Oz. per Yd. to Yds. per Lb.

(Knowing the wt. of a given cloth in oz. per yd., what is the wt. expressed in yds. per lb.?)

Example: What is the wt. in yds. per lb. of 36 in. 10 oz. S.F.?

$$\frac{16 \text{ oz. (1 lb.)}}{\text{oz. per lb.}} = \text{yds. per lb.}$$

Formula:

$$\frac{16}{10} = 1.6 \text{ yd. per lb.}$$

Or

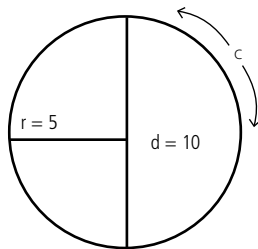

(From "Swirls on Basic Fabrics" copyright 1957)

Mathematical Aids

To determine the cost of covering any flat surface, first compute its area in square measure. You can compute the area of almost any shape by using the following formulas. For odd shaped areas, it may be necessary to combine several of these formulas.

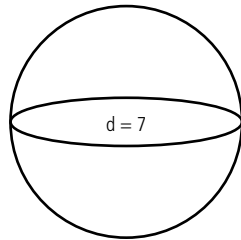

A = Area
SA = Surface Area
C = Circumference

CIRCLE
 $A = \pi r^2$
 $A = 3.1416 \times 5 \times 5$
 $A = 78.54$

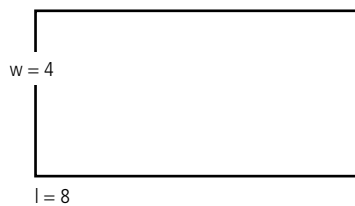

Note:
 $d = 2r$
 $c = \pi d$
 $c = 3.1416 \times 10$
 $c = 31.416$

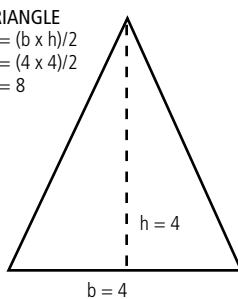

SPHERE
 $SA = \pi d^2$
 $SA = 3.1416 \times 7 \times 7$
 $SA = 153.94$

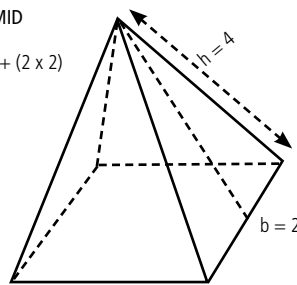

RECTANGLE
 $A = l \times w$
 $A = 8 \times 4$
 $A = 32$

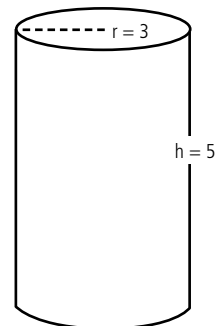

TRIANGLE
 $A = (b \times h)/2$
 $A = (4 \times 4)/2$
 $A = 8$

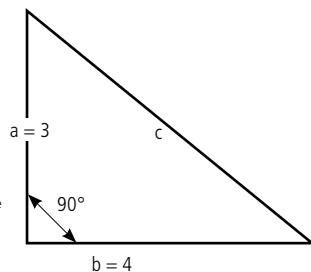

4-SIDED PYRAMID
 $SA = 2bh + b^2$
 $SA = (2 \times 2 \times 4) + (2 \times 2)$
 $SA = 20$

CYLINDER
 $SA = 2\pi r^2 + 2\pi rh$
 $SA = (2 \times 3.1416 \times 3 \times 3) + (2 \times 3.1416 \times 3 \times 5)$
 $SA = 56.55 + 94.25$
 $SA = 150.8$

PYTHAGOREAN THEOREM
 $c^2 = a^2 + b^2$
 $c^2 = (3 \times 3) + (4 \times 4)$
 $c^2 = 25$
 $c = 5$

In a right triangle, the square of the hypotenuse (the longest side) is equal to the sum of the squares of the other two sides.

Linear Measure

English	Metric
12 in. = 1 ft.	10 mm = 1 cm
3 ft. = 1 yd.	100 cm = 1 m
36 in. = 1 yd.	1000 mm = 1 m

English/Metric Equivalents

English	Metric
1 in. = 25.4 mm	1 mm = .0397 in.
1 in. = 2.54 cm	1 cm = .3937 in.
1 in. = .0254 m	1 m = 39.37 in.
1 yd. = .9144 m	1 m = 1.0936 yd.

Square Measure

English	Metric
144 sq. in. = 1 sq. ft.	100 sq. mm = 1 sq. cm
9 sq. ft. = 1 sq. yd.	10,000 sq. cm = 1 sq. m
1296 sq. in. = 1 sq. yd.	1,000,000 sq. mm = 1 sq. m

English/Metric Equivalents

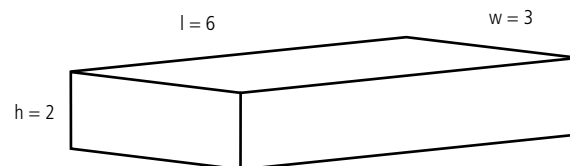

1 sq. yd. = .836 sq. m	1 sq. m = 1.196 sq. yd.
1 sq. in. = .0006451 sq. m	1 sq. m = 1550 sq. in.

Decimal Equivalents

1/16 = .0625	9/16 = .5625
1/8 = .1250	5/8 = .6250
3/16 = .1875	11/16 = .6875
1/4 = .2500	3/4 = .7500
5/16 = .3125	13/16 = .8125
3/8 = .3750	7/8 = .8750
7/16 = .4375	15/16 = .9375
1/2 = .5000	

RECTANGULAR PRISM

$SA = 2(lw + hl + hw)$
 $SA = 2 \times [(6 \times 3) + (2 \times 6) + (2 \times 3)]$
 $SA = 72$

Terms of Sale

Last updated: January 2021

No Warranties; Exclusion of Liability

All goods sold by TRIVANTAGE, LLC ("Trivantage") are PROVIDED "AS-IS" AND WITHOUT ANY WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT. Trivantage assumes no liability for results of the use of goods purchased from Trivantage, including, without limitation, their use in combination with other components, assemblies or products, or their suitability or unsuitability for a particular use or a particular environment Unless specifically indicated to the contrary, goods sold are not fire retardant and should not be exposed to intense heat or flame. Unless specifically indicated to the contrary, goods sold are not water resistant or waterproof. Trivantage neither undertakes to independently test nor makes any representation or warranty with respect to any manufacturer's claims for performance for its products, including the claims of a manufacturer that its product is fire retardant, water resistant or waterproof. Any warranty given by any other manufacturer or supplier of goods sold or of component parts thereof is assigned by Trivantage to the Buyer to the extent permissible under law and the terms of such warranty. WITHOUT LIMITING THE FOREGOING, TRIVANTAGE SHALL IN NO EVENT BE LIABLE FOR LOSS OF USE OR PROFIT, OR FOR OTHER COLLATERAL, INCIDENTAL, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES.

Orders - Acceptance, Modification and Cancellation

All orders are subject to acceptance by Trivantage, and when so accepted shall constitute a contract. All orders are accepted subject to these Terms of Sale and, if Buyer is approved for purchasing on credit, subject to approval by Trivantage of the Buyer's credit at the time of shipment. Trivantage's acceptance of an order is conditioned upon the waiver by Buyer of any terms and conditions which differ from, vary from, or add to, these Terms of Sale, which shall constitute the entire agreement of the parties as to the subject matter hereof. The specifications applicable to goods sold by Trivantage shall be Trivantage's specifications, unless Buyer shall have furnished different specifications and Trivantage shall have agreed in writing to such specifications. Trivantage reserves the right to make changes or substitutions in the items ordered without the prior approval of or notification to the Buyer, as long as such changes do not adversely affect form, fit or function requirements. Orders may not be altered or modified by the Buyer except with the written consent of Trivantage. Trivantage, at its option, may cancel all or the remaining unfilled portion of any blanket or continuing order if (a) Buyer's payments are in default; (b) Buyer breaches any material provision of Trivantage's Terms of Sale; (c) substantial changes in materials or supplies occur; (d) causes beyond Trivantage's control make it impossible to ensure shipment; (e) Buyer becomes insolvent or is subject to a petition in bankruptcy; or (f) Trivantage withdraws its credit approval of Buyer. The Buyer may cancel the remaining unfilled portion of any blanket or continuing order upon written notice to Trivantage and payment of reasonable cancellation charges, which charges shall take into account goods already produced or in process, expenses incurred by Trivantage in connection with the order, and commitments made by Trivantage, as a consequence of the order; provided, however, that the cancellation charges shall not exceed the purchase price of the cancelled portion of the order.

Trademarks

"Trivantage" and the Trivantage logo, company name, service name, and any slogans that may appear on the Trivantage website, or in Trivantage materials, are trademarks or registered trademarks of Trivantage or its affiliates and may not be copied, imitated or used, in whole or in part, without the prior written permission of Trivantage. All other trademarks, registered trademarks, product names and company names or logos not owned by Trivantage or its affiliates that appear on the Trivantage website or in Trivantage materials are the property of their respective owners. Reference to any products, services or other information, by name, trademark, manufacturer, supplier or otherwise does not constitute or imply endorsement or recommendation by Trivantage.

Price and Terms

ALL QUOTED PRICES ARE BASED ON THE CURRENT NET WHOLESALE PRICES IN U.S. FUNDS PREVAILING AT THE TIME OF QUOTATION. ALL PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE AND THE PRICE CHARGED WILL BE THAT IN EFFECT AT THE TIME OF SHIPMENT. A minimum order charge may apply.

Customers without established credit approval from the Trivantage credit department should remit payment with the order, or instruct Trivantage to ship C.O.D. for an extra fee. For Buyers approved by the Trivantage credit department, Buyer must pay Trivantage within thirty (30) days of the invoice date. A service charge of 1-1/2% per month (18% per annum) or the maximum amount allowed by applicable law will be added to all past due invoices. Buyer is responsible for payment of all applicable sales, use or other taxes, whether local, state or federal, with respect to the goods purchased, or returning to Trivantage the properly completed and signed sales tax exemption form. Buyer is responsible for any import or export charges.

Shipping and Delivery

Trivantage shall not be liable for delays in production or delivery due to causes beyond its control, including but not limited to acts of God, acts of Buyer, acts of civil or military authorities, priorities, fires, strikes, floods, epidemics, quarantines, war, delays in transportation and inability due to causes beyond Trivantage's control to obtain necessary labor, materials or manufacturing facilities. A shipping date given by Trivantage is an estimated date. In no event shall Trivantage be liable to the Buyer for loss of use or profit or any other collateral, incidental, punitive, special or consequential damages resulting from delays in production or delivery, whether or not due to causes beyond Trivantage's control.

Trivantage will use its best judgment in packaging, packing, shipping and routing unless Buyer gives specific instructions with its order. In the event of shortage or damage incurred enroute, Buyer must make its complaint to the delivering transportation agency and file a claim against such agency. In the event of a shortage in packing, any claim against Trivantage must be made in writing within ten (10) days of receipt of the merchandise. All shipments are made Ex Works Trivantage facility, unless otherwise agreed to in writing by Trivantage. Trivantage's responsibility for delivery ends with a signed bill of lading from the carrier. All risk of loss after Trivantage's delivery to the carrier shall be borne by the Buyer.

Returns of Goods from Non-Special Purchase Orders

Trivantage will accept returns of goods from non-Special Purchase Orders purchased from Trivantage for up to 60 days from the date of invoice, subject to the following conditions:

1. Buyer must obtain an authorization from Trivantage prior to the return of any goods;
2. All returns are subject to a restocking fee of \$15.00 or 15% handling charge (whichever is greater, not to exceed a total of \$125.00);
3. No returns on fabric will be allowed if the goods have been altered, cut or combined with any other goods;
4. Goods must be returned in original packaging and be in the original condition; and
5. Buyer is responsible for the cost of return shipping to Trivantage, and for arranging the return shipment. If Buyer requests that Trivantage facilitate the return, and Trivantage agrees to facilitate the return, a return shipping charge of (a) 5% of the price paid for the goods returned, or (b) Trivantage's less-than-truckload shipping amount, whichever is higher, will be imposed on the Buyer.

Trivantage does not take title to returned items until the item arrives at a Trivantage facility. In no event shall the Buyer be entitled to any right of set-off against Trivantage.

TRIVANTAGE DOES NOT ACCEPT RETURNS OF GOODS FROM SPECIAL PURCHASE ORDERS. A Special Purchase Order is any order that requires Trivantage to obtain a quote from a manufacturer, or any order that requires Trivantage to place a custom order with a manufacturer.

Miscellaneous

If any goods or services ordered by Buyer are supplied by Trivantage in accordance with designs or specifications of the Buyer, and such goods are not Trivantage's standard items or supplied in accordance with Trivantage's standard processes, Buyer shall indemnify Trivantage from any expense, loss, damage or liability which may be incurred by Trivantage on account of any infringement or alleged infringement of any U.S. or foreign patent rights with respect to such goods or processes. The sale of goods by Trivantage does not convey a license, express or implied, under any patent in which Trivantage has an interest, nor does it convey rights to any descriptive data, including Trivantage's manufacturing drawings, processes or tooling.

THE PARTIES AGREE THAT THIS AGREEMENT, ANY SALES HEREUNDER, OR ANY CLAIM, DISPUTE OR CONTROVERSY BETWEEN TRIVANTAGE AND BUYER ARISING FROM OR RELATING TO THIS AGREEMENT, SHALL, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, BE GOVERNED BY THE LAWS OF THE STATE OF NORTH CAROLINA, WITHOUT REGARD TO CONFLICTS OF LAWS RULES.

Buyer irrevocably submits to the exclusive jurisdiction of the state and federal courts of the State of North Carolina for the resolution of any legal action arising out of this Agreement and irrevocably agrees that venue for such legal action shall lie exclusively in Alamance County, North Carolina, for any state court action, or in the Middle District of North Carolina for any action instituted within the federal court system.

Any provision hereunder that is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining provisions hereof, and any such prohibition or unenforceability in any jurisdiction shall not invalidate or render unenforceable such provision in any other jurisdiction.

If the goods purchased are to be used in fulfilling a contract or a subcontract either with the U.S. Government or any agency thereof, Trivantage will comply with all mandatory provisions of the Government applicable to Trivantage if and only if Buyer gives Trivantage written notice of such provisions in sufficient time to permit compliance. In addition, Trivantage may, at its option, adopt any provisions of the Armed Services Procurement Regulations or other federal laws or regulations applicable to or made available to subcontractors in the prime contract.
